

LEGEND
RARE COIN AUCTIONS

THE REGENCY AUCTION 27
JULY 26 | CAESARS | LAS VEGAS

OFFICIAL AUCTIONEER OF THE PCGS MEMBERS ONLY SHOW

Welcome to Regency Auction 27! On the heels of the largest, most successful Regency Auction, we are proud to present the second largest Regency Auction ever! We didn't think we could top our May Regency Sale, but this sale could! Like our Regency Auction 26, the 27th sale offers several very important collections as anchors.

The RanJack Morgan Dollar Collection—a very high end quality collection of Philadelphia, San Francisco, and New Orleans mint Morgans. Many of these are among the FINEST known and all were hand selected by a very picky collector over the course of more than two decades.

The Aurora Borealis Collection—a few more select duplicates from this monster collection of amazing toned dollars.

The Liberty Sunrise Collection—a complete set of Peace dollars offering original toning. The degree of toning varies from light gold to superb bag toning. Many pieces were purchased at previous Legend Auctions.

The South Texas Collection—a partial 18th century U.S. type set assembled by a very fastidious collector and client of Legend Numismatics. Each coin was hand selected for the client by Laura Sperber, and every coin is PCGS-graded and CAC approved. Each coin in this collection is a highlight! The collector is now moving on to another area of numismatics.

The Pharma Collection—a selection of coins from a Legend Numismatics collector client who sold the majority of his collection previously. The coins in RA27 were retained as his favorites. He is now retiring and decided to sell all of these remaining highlights. What a great group of 19th century type coins! Again, since every coin was purchased from Legend, and hand selected by Laura Sperber, each coin is PCGS/CAC and has awesome eye appeal.

The Huron Hills Collection—selections from a collection that is now being refocused. Each coin is PCGS/CAC and very high end! This group's focus is Morgan dollars, Walkers, and commems.

The Chester Roche Collection—fresh to the market, this collection of 49 pieces is a wonderful holding of gold dollars and quarter eagles. The collector was active back in the mid to late 1990s and many of the coins are housed in old green tag PCGS holders.

The Steven Cook Collection of Patterns, Part 2—the final installment of this very extensive collection of pattern coins. A very diverse offering of issues, including many R-7 Judd numbers. Part 1 was sold in our May Regency Auction and was very well received. This second part has a neat offering of off-metal gold patterns and some GEM silver dollar patterns in copper.

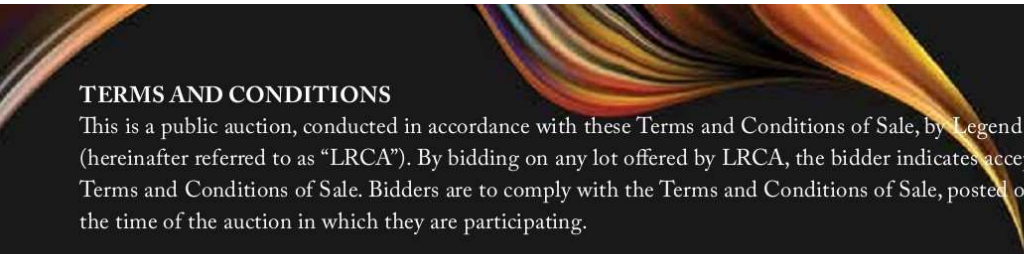

Other important consignments—as always there are hundreds of other very high end, hand selected, quality rare coins in all series. NOTE: We did reject over 100 coins to make the composition of this sale remarkable.

We invite you to take part in this very important numismatic event! The carpet will be rolled out to you in Las Vegas.

Happy collecting,

Julie Abrams

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of Pennsylvania are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-check Payments

E-check payments now available. Click [Here](#) to download form. Please email form to info@legendauctions.com

International Buyers

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

Extended Payment Terms

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

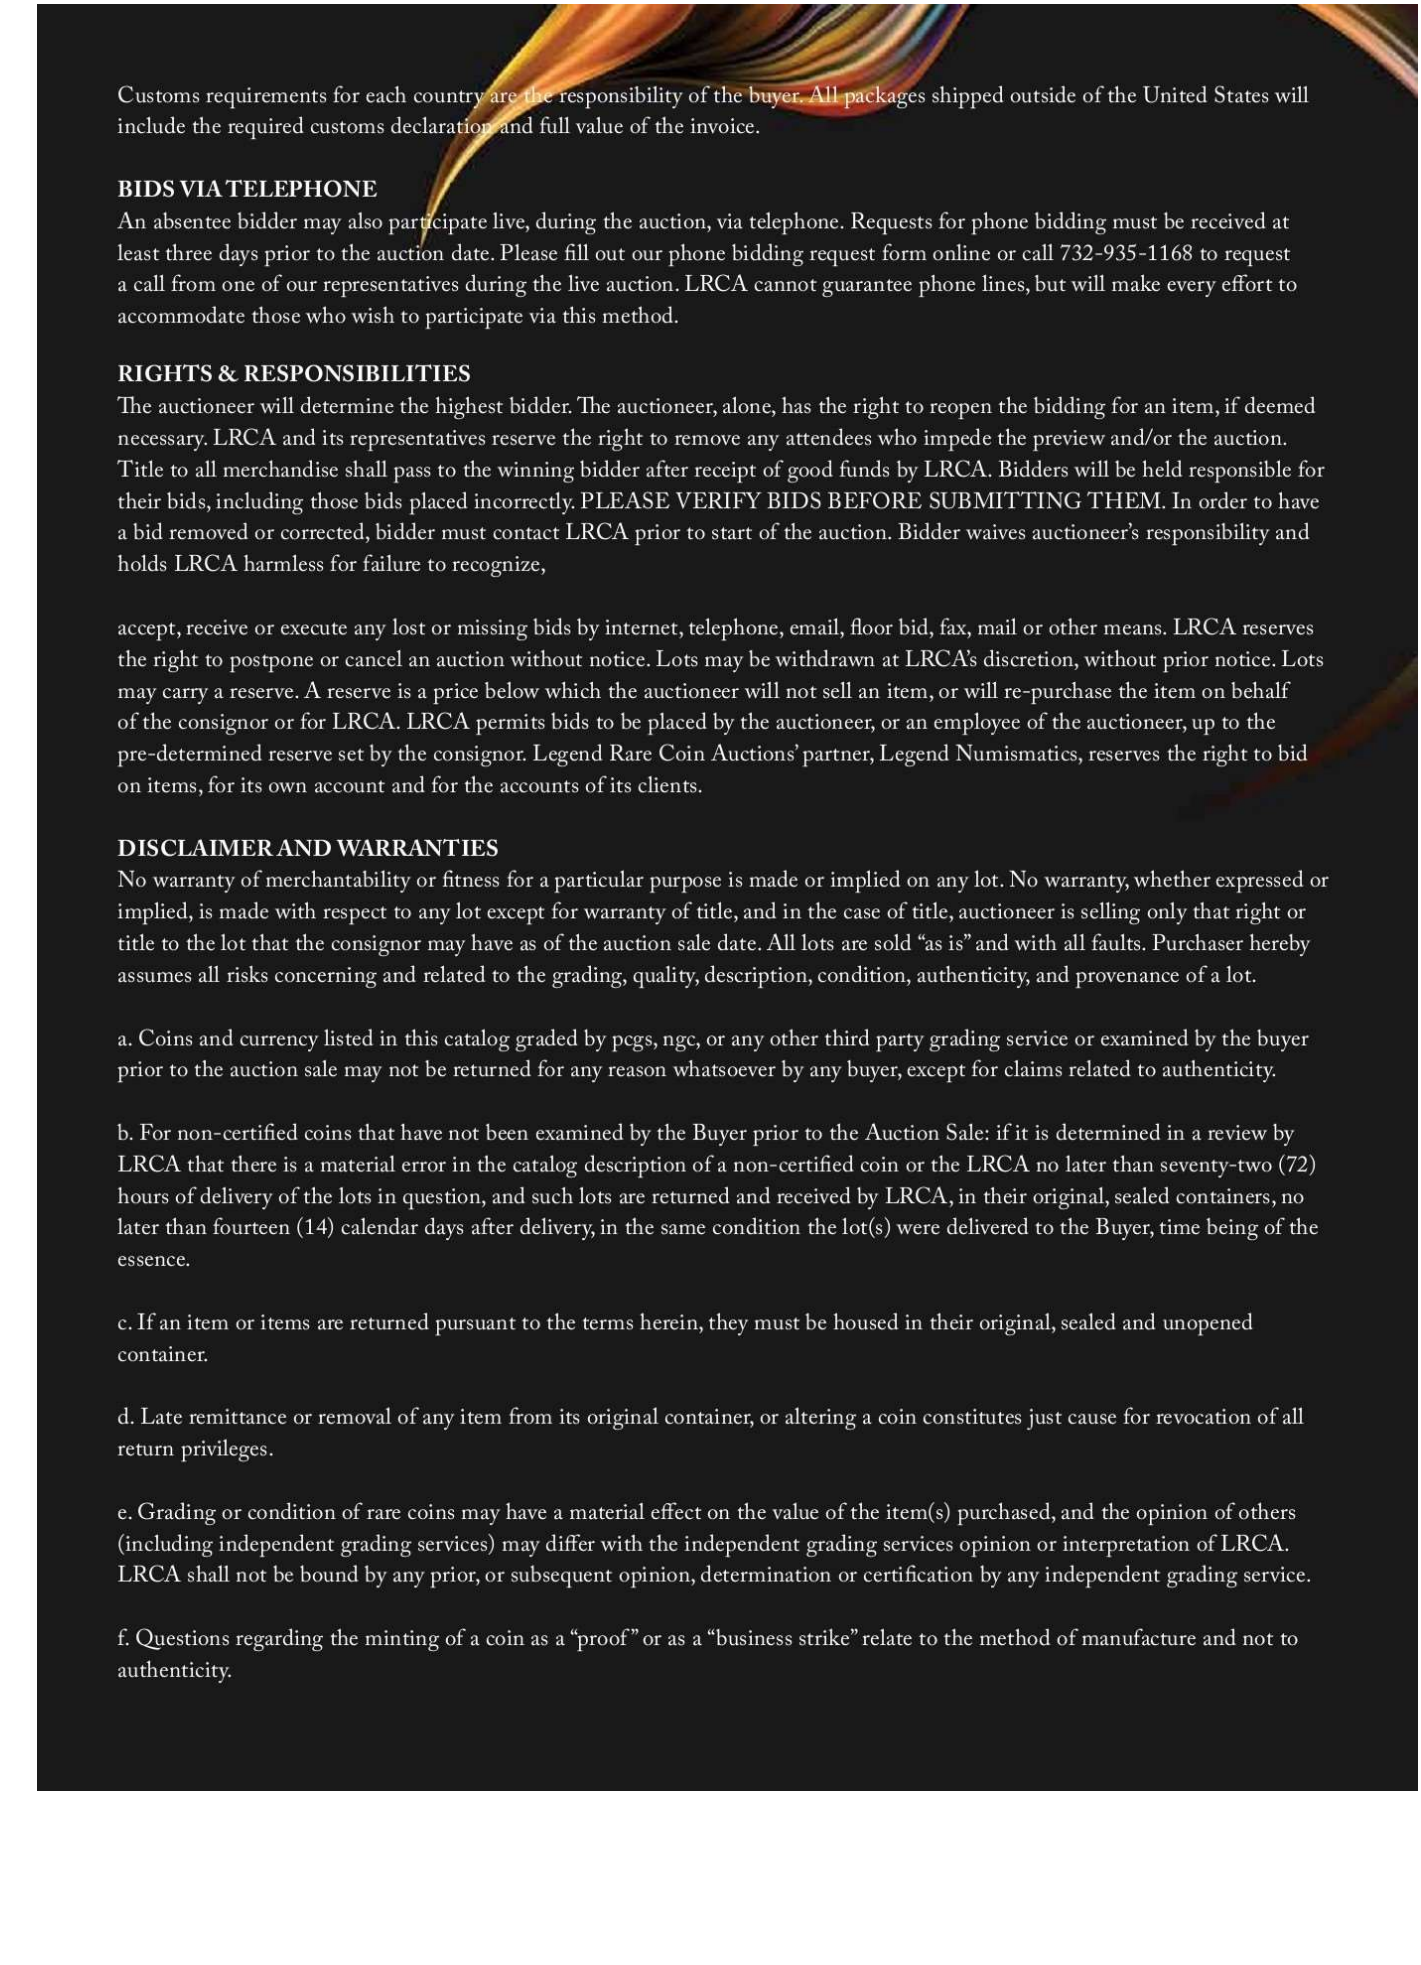

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

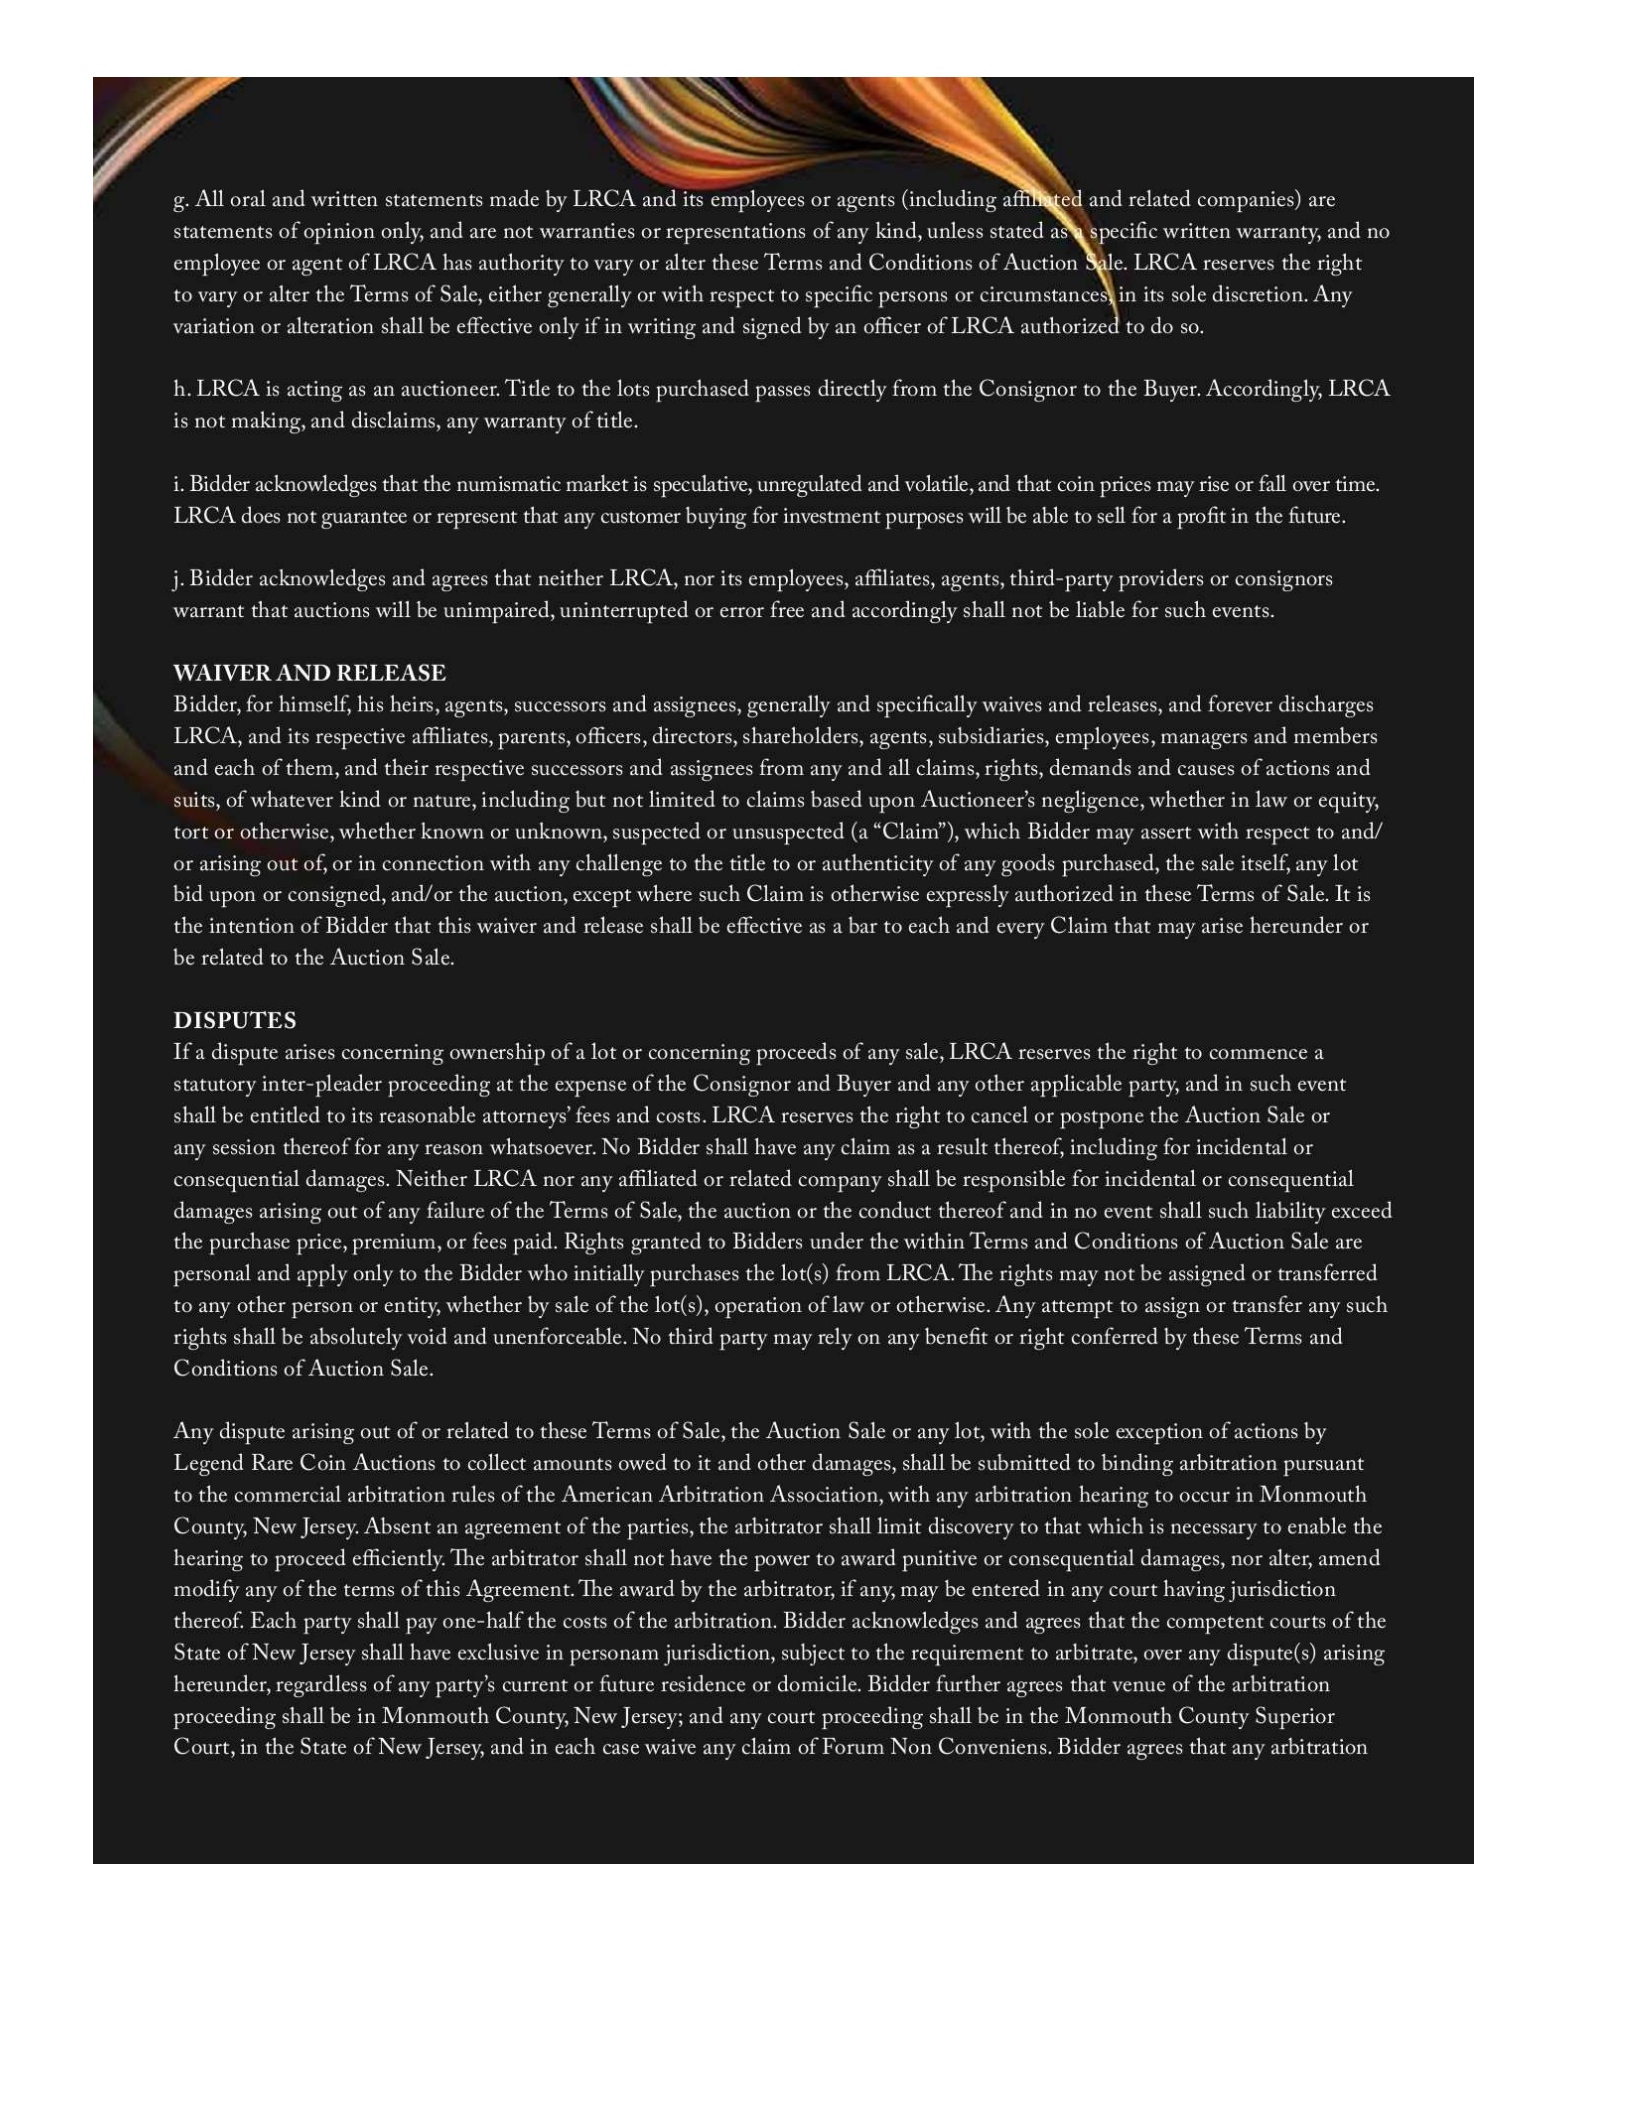

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. **PLEASE VERIFY BIDS BEFORE SUBMITTING THEM.** In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize,

accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by pcgs, ngc, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.

g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend or modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration

or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a “better” coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. Teletrade developed a unique coin trading method, utilizing state-of-the-art digitized voice board technology to run live auctions before the advent of the internet. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company. Her job responsibilities included continuing her role as CEO for Teletrade as well as marketing to buyers and consignors, with the goal of maintaining a balance between inventory and sales while growing the business.

In 2004 she joined Stacks-Bowers, an old world traditional auction house where she worked to expand their e-commerce presence, including the development of an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

I found interest in coins as a kid going to local shops and bid boards, filling holes in various albums. However, the interest faded out and in as I went through college and for some time thereafter. While on temporary assignment offsite in Seattle area in 94-95 started going to some of their local shows, some of which were a decent size at the time. Focus was on circulated Bust Halves and some certified Morgan dollars. This kind of revived the interest.

After returning home in '95 decided to start traveling to some regional and national shows which really got started in '96. Shows included CSNS, ANA, St Louis and Long Beach. Driving to all the shows at the time, this gave me a 'target' location to visit and often included places on the way including "outdoors."

Once at the shows, I really got hooked. After searching around, I realized my heart was in Morgan Dollars. I would cruise the bourse floor going from table to table looking through everyone's dollar inventory, I could not

wait to see what legendary dollar dealer Jack Lee had for sale. I could listen to him talk about dollars for hours. In fact, 80% of my time at shows was spent just jawboning with the many dealer friends I had developed over the years. I did attend lot viewing for every major dollar sale, but I preferred the one on one learning that comes with the dealer friends I had made over the years. I completed the initial set I wanted to build in 2007. Since then I have been focused on serious upgrades. For me quality and eye appeal have always been the most important attributes I sought out.

Even though its been a long and wonderful journey, I feel it is time for other collectors to enjoy these precious GEMs. You'll still see me at shows and I'll probably always look at Morgans, now it is just time to move on. I trust Legend Auctions will get the job done of selling my coins. So, the only tears i shed, will be tears of joy.

The RanJack Collector

THE RANJACK COLLECTION

LOT 1

\$1 1878 7 TF, REVERSE OF 1878. PCGS MS66+ CAC
Tied for FINEST PCGS-graded!

What a great first year of issue Morgan dollar! This superb GEM is sharply struck and its crisply rendered details are nicely frosted on both sides. A strong luster beams with a vibrant brilliance bringing out the cleanliness of the surfaces. The eye appeal is unmarred by any ticks or unsightly marks or lines, and is excellent!

PCGS 63, NGC 31, CAC 14. PCGS has graded 9 coins in 66+ and there have been three PCGS/CAC coins sold in auction. The most recent example realized \$15,275 in the 2017 FUN auction. The current PCGS Price Guide value is listed at \$14,000. NONE are graded finer at PCGS--making this a SUPERB choice for anyone building a high ranking set!

PCGS# 7074 | ESTIMATE: \$12,000+

THE RANJACK COLLECTION

LOT 2 \$1 1878 7/8TF STRONG. PCGS MS65+ CAC

Very high end quality--totally PQ!
Sharply struck and boasting a brilliant mint luster, the RanJack 7 over 8 Tail Feather has a completely untuned silver surface. Only when viewed with a powerful glass do the teeny, insignificant marks come to light, but none are singularly detracting, nor do they mar the overall SUPERB eye appeal.

PCGS 423, NGC 103, CAC
49. PCGS has graded 27

coins in MS65+, and only five

CAC-approved examples have sold in auction, the most recent realizing \$4,230 in April 2016. Keep in mind the finest are graded MS66, and none are CAC and the CU value is \$10,000 in MS66.

PCGS# 7078 | ESTIMATE: \$4,000+

LOT 3

\$1 1878-S PCGS MS67

This is a stunning near miss fully prooflike coin. We have no idea why CAC did not bean it-we appealed it and lost. Never had the chance to learn why.

First, there is nothing wrong with this sparkling SUPERB GEM. There are NO marks or lines on the full 4"+ deep mirrors. At first glance you think DMPL. When you twirl this coin all you see is the nearly blinding flash of the combined luster and mirrors. Both sides are white with a faint of gold. Miss Liberty and the details are sharply struck and are thickly frosted. There is strong contrast. The eye appeal is awesome!

PCSG 32, NGC 17. The last PCGS NO CAC piece to sell in auction brought \$7,200 in February 2018. As you know, the RanJack collector did not just buy any coin for his collection. This 1878-S IS better than most you will ever see. This coin will easily fit in any GEM PL or regular SUPERB GEM set. We strongly advise you view this coin if you buy NON CAC pieces.

PCGS# 7082 | ESTIMATE: \$6,000+

THE RANJACK COLLECTION

LOT 4

\$1 1879 PCGS MS66+ CAC

A SUPERB example with a vivacious mint brilliance that shines boldly on both sides. Well struck with frosty devices, Ms. Liberty's cheek is smooth, clean, and unmarred by any marks or scuffs. The eye appeal is exceptional!

PCGS 297, NGC 83, CAC 61.

There are 49 graded MS66+ and only six coins are finer. The current Collector's Universe value is listed at \$3,950 and examples have sold in the \$3,000 to \$4,000 range.

Keep in mind that a 67 is valued at \$42,500, so this lovely GEM is among the finest you will be able to add to your set!

PCGS# 7084 | ESTIMATE: \$3,250+

LOT 5

\$1 1879-O PCGS MS65+ CAC

Like all the other RanJack coins, the quality here is ULTRA high end. We HAVE seen worse in MS66 holders!

Outstanding surfaces are exceedingly clean and smooth.

All you can find is a scattered microscopic frost break or two; there are no bag marks. Not only does this coin exhibit a strong luster, the reverse is slightly semi prooflike. Both sides are an original creamy GEM white. Miss Liberty and the details are sharply struck and are thickly frosted. The eye appeal is totally wonderful!

PCGS 453, NGC 138, CAC 77. PCGS has graded 28 coins higher-of which only 5 are CAC. The last PCGS CAC MS65+ that sold in auction brought \$5,170 in August 2017. We assure you, this is NOT your typical 79-O MS65+! Opportunity knocks loud here for the picky Morgan Collector. We expect strong bidding here, so be ready!

PCGS# 7090 | ESTIMATE: \$4,500+

THE RANJACK COLLECTION

LOT 6

\$1 1879-S PCGS MS68 CAC

Sheer perfection! Everything about this 79-S is SUPERB!

A strong satin mint bloom with solid cartwheels swirls along both sides. All the details on Ms. Liberty and the eagle are fully struck and offer an extreme frost. Even under close inspection with a strong glass we cannot find any serious mark or tick anywhere. The cheek is satin smooth and so high end that even the pickiest of old timers will fall in love with coin's quality and eye appeal. Mostly untuned with just a

hint of iridescent toning with a frame at the peripheries.

PCGS 123, NGC 174, CAC 82. There are only seven coins graded finer, all MS68+. The current PCGS Price Guide value is listed at \$5,500 and in the 2016 FUN auction (taking place in a low valley in the recent market cycle) this coin sold for \$5,640. Keep in mind that the last MS68+ sold for \$32,900 in April 2016. Whether you are building a SUPERB Morgan set or just need one special coin for a type set, be sure to bid on this beauty!

PCGS# 7092 | ESTIMATE: \$5,500+

LOT 7

\$1 1880 PCGS MS66+

Tied for the FINEST graded for the date, and just a casual glance at this coin it is clear why!

Strong, bold, radial cartwheel luster shows off some semi-reflective accents hidden around the back of Liberty's head and around the eagle. Crisp striking detail to the devices stand out and are nicely frosted. Some frosty, iridescent, silver-white hues can be seen when rotated in a light. The surfaces are generally clean and free of any serious distracting marks. The eye appeal is quite nice.

PCGS 216, NGC 46. PCGS has graded 19 coins in MS66+ and NONE are finer! The most recent example to sell in auction realized \$3,055 in March 2017 and the other four, PCGS non-CAC examples have sold in the \$3,055 to \$3,760. The current Collector's Universe value is listed at \$4,000. With none graded higher, this GEM will see very spirited bidding from Morgan dollar enthusiasts! Good luck!

PCGS# 7096 | ESTIMATE: \$3,000+

THE RANJACK COLLECTION

LOT 8

\$1 1880 PCGS MS64+ PL CAC

Fully lustrous with strong Prooflike reflection. White, silver surfaces with frosted, fully struck devices stand out against the lustrous fields. For the modest grade the eye appeal is excellent!

PCGS 110, NGC 84, CAC 4. Only 5 have been graded in MS64+ at PCGS and only 32 have graded finer. Collector's Universe value is only \$415, but with this coin's great eye appeal we know it will sell for more.

PCGS# 7097 | ESTIMATE: \$500+

LOT 9

\$1 1880-O PCGS MS64+ CAC

A beautiful, lustrous GEM with a sharp, bold strike on both sides. The luster is clean and vibrant with sleek, radiating cartwheels on both sides. Smooth surfaces on obverse and reverse. You can overlook the few teeny ticks that we note on both sides, visible only with a powerful loupe, none of which affect the wonderful eye appeal.

PCGS 1609, NGC 958, CAC 217.

In 64+, PCGS has graded 149, NGC 24. We note that due to its rarity in full GEM grades, there

is likely much duplication in the population figures. In PCGS MS64+ CAC, these have generally sold in the \$3,000-\$4,000 range and the current PCGS Price Guide value is listed at \$3,750--the value jumps to \$17,500 in MS65. This coin is truly worthy of any world class Morgan dollar collection and we would not be surprised by a record price for the grade!

PCGS# 7114 | ESTIMATE: \$3,200+

THE RANJACK COLLECTION

LOT 10
\$1 1881 PCGS MS66+ CAC
EX NFL SET

A radiant, bold, lustrous, SUPERB GEM example of this conditionally scarce issue. Sharply struck devices are frosted and stand out against the lovely fields that surround. The eye appeal is very high end, and the few tiny ticks that are noted with a strong glass do not detract from the eye appeal. VERY RARE any finer, this beautiful, silver-white GEM is very high end!

PCGS 212, NGC 55, CAC 34.

PCGS has graded 22 examples in MS66+ and only five coins are graded higher. The last one sold for \$3,600 in February 2018. The PCGS value is listed at \$4,150 and it jumps to \$21,000 in MS67. Just a teenie tick or two from being an MS67! This coin is that high end!

Only the teeniest of ticks are visible using a strong glass and are widely scattered. Overall this coin is amazingly clean and satiny. The fields have a strong and bold luster that beams from all over. No question about this coin's originality. Both sides are a gorgeous snowy white. There is one tiny Mint grease stain at 7:00 on the obverse (proving this coin has never been dipped). Miss Liberty and the details are heavily frosted and have full strikes. Her cheek is totally virgin and rounded. The eye appeal is tremendous!

\$1 1884-S PCGS MS63

The 1884-S is one of the most famous condition rarities in the entire U.S. series. Although the generous mintage of 3,200,000 would make anyone believe that the 1884-S dollar would be a common issue. However, due to a high rate of circulation of the issue, this is one of the MAJOR condition rarities in the series. VERY RARE in choice, and virtually unobtainable in GEM or better grades. This is one of those issues that most collectors only dream of owning in Mint State--many opting for a high end AU58.

For the date, the present 84-S has a bold satiny luster that rolls brilliantly on both the obverse and reverse. A delicate pearly-gold color. There are a couple of tiny marks visible under a strong glass, but for a 63, the eye appeal is quite nice and even. You can tell that it was carefully selected by a fastidious collector with a refined taste in his coins.

This is a rare RanJack coin that did not CAC. For those of you who think Legend can get anything through CAC-this coin (which is more than deserving of a bean) has us appealing, holding our breath, and doing everything we can to get the bean. We can't figure why they did not want to bean it. They are tight-too tight here.

First, this coin narrowly misses a full prooflike designation. Only the typical area above the eagle's head lacks the full mirrors. Save for that area, all the mirrors are 4 " deep and are watery. You do not have to imagine the flash-as it nearly blinds you. Even though the coin has super flash, ticks and scuffs are nowhere to be found. Even using a strong glass only impresses you more. Both sides are an original white. There is strong cameo contrast. Miss Liberty and the details are frosted and are fully struck. The eye appeal is awesome!

This is NOT your typical 1886 in MS67! With a mintage of nearly 20 million, the 1886 is one of the most common dates in the Morgan dollar series. In SUPERB grades, as here, it is very scarce and prohibitively rare any finer.

Brilliant, superbly lustrous surfaces are essentially without flaw! Deeply impressed devices are crisp and bold, fully struck up from a late state of the dies, with the peripheries crumbling and extensive die cracks on both sides.

The eye appeal is superb, with this coin looking today as it did the day it fell off the dies.

PCGS 514, NGC 982, CAC 343. There are 66 coins graded MS67+ at PCGS, and only nine coins graded finer. You can tell Mr. RanJack handpicked his collection over several years. This 1886-O is a true near miss MS65! We would bet before slabbing this coin was sold as an MS65. We grade it MS64.9!

For an 1886-O, the surfaces are unbelievable. Using a strong glass all we could find are a few microscopic pockets of ticks. There are NO major marks or even frost breaks. Even more remarkable, this coin has a luster more like an 1882 than a 1886-O. We certainly have not seen many similar (and we did place the PCGS MS65 CAC in the Coronet set). Both sides are a full original white; this coin has not been dipped or messed with. Miss Liberty and the details are sharply struck and have gentle frost. The eye appeal is remarkable for an 1886-O!

PCSG 241, NGC 66, CAC 42. PCGS has graded 23 in MS64+. We'll challenge this coin vs any other. The last PCGS CAC MS64+ sold for \$21,150. In July 2017. In 2013, one sold for \$28,500. For a New Orleans date, the strike is sharp and the eye appeal is amazing. Liberty's cheek is remarkably clean for the assigned grade, as are the rest of the surfaces, with no singular mark worthy of mention. Certainly a VERY HIGH END example!

\$1 1891-O PCGS MS65

Surprisingly RARE in GEM grades, given its mintage of nearly 8 million! Very attractive for the date and grade, which we have seen come very lackluster. The luster is very flashy and high end on the obverse. The reverse has a light pearly overtone. The surfaces are generally smooth and clean for the grade, the cheek especially so!

PCGS 139, NGC 69. The most recent examples sold in the \$3,120 to \$4,080 range, covering all MS65s sold in 2017 and so far in 2018. The current CU value is listed at \$5,000. Only eight coins in MS65+ have graded finer at PCGS. A very important opportunity for the advanced Morgan collector!

Sharply struck, this GEM has a premium look. Even with a strong glass, we can only see a few teeny bag marks, none of which detract from the excellent eye appeal.

PCGS 276, NGC 82. PCGS has graded 18 in MS65+ and only seven coins finer. The most recent example in 65+ to sell was in the 2018 CSNS sale, realizing \$5,280.

Prior to that, one sold in June 2017 for \$9,400. The current Collector's Universe value is listed at \$7,750. Only eight coins graded finer and anything finer today would cost in the \$40,000-\$50,000 range! Bound for a fine set!

\$1 1892-S PCGS AU58

A MAJOR condition rarity, the 1892-S ranks as one of the rarest dates in the entire Morgan dollar series in Mint State grades. The vast majority of the 1.2 million coined went directly into commercial channels.

This AU58 example has a bold luster on both sides, with only the lightest hint of high point friction noted, keeping it from a full Mint State grade. Displaying the typical softness of strike in the hair curls above the ear, otherwise the details are fully rendered. A few tiny hairlines are noted for the sake of accuracy, but none are singularly distracting. There is also a delicate touch of the clearest gold tone. Finer than most you will ever encounter.

PCGS 136, NGC 134. VERY RARE in any Mint State grade, so we believe that the population figures in AU55 and AU58 are highly inflated by resubmissions looking for finer grades. The last one to sell realized \$11,400 in April 2018 and prior to that, we sold one in July 2017 for \$12,338 and one in January 2017 for \$11,750. The current Collector's Universe value is listed at \$13,500 and keep in mind any Mint State coin is worth \$35,000+! A real prize for any collector who still needs an example for their set. The 93-S is the undisputed KEY date Morgan dollar struck for circulation. Boasting the lowest mintage in the entire series at 100,000, the vast majority either disappeared into commercial channels and whatever may have been kept in storage was melted in 1918 under the auspices of the Pittman Act. Today, experts estimate about 10,000 survive in all grades, from very low grade and damaged pieces all the way to the amazing Vermeille-Coronet MS67. Every coin is a prize for the collector, from those of modest means to the ultra wealthy.

Any AU coin is a special coin. The presently offered coin has a very respectable look. Ample original mint frost survives on both sides. While this coin saw some time in commerce, it was pulled prior to being chewed up or heavily worn. There is a light friction on the highest points and in the fields, but there are no marks of consequence anywhere. The eye appeal is very nice, and better than the vast majority you will see.

PCGS 43, NGC 23. The most recent example to sell realized \$36,000 in the 2018 FUN auction. Prior to that, one sold for \$38,796 in July 2017. The current PCGS value is listed at \$42,500. We note a few tiny marks and a narrow hairline scratch on Liberty's cheek, but otherwise the surfaces are of essentially GEM quality and eye appeal. EXTREMELY RARE any finer!

PCGS 65, NGC 17. It is very interesting to note, that while looking at auction comps, most of the 64+s that have sold in auction displayed moderate, often mottled, uneven toning. Untoned, brilliant silver coins seem to be the exception, not the norm. An untoned example sold in September 2015 for \$12,925 (without CAC, as here); a CAC approved untoned example brought \$16,450 in the 2016 ANA auction. \$1 1895-O PCGS MS62

A CLASSIC issue in the Morgan dollar series. Starting with a low mintage of only 450,000, it is truly scarce in all grades and your typical survivor grades no better than AU. Mint State survivors are a RARE treat in the numismatic marketplace and when offered see considerable activity to bring them home.

The present PCGS MS62 was clearly hand selected by the collector. With the eye of a true expert in this series, this coin really is HIGH END. Well struck, even in the fine hair details above Liberty's ear. The initial appeal of this coin really is of a finer grade: Liberty's cheek is very smooth and we think for once on a Morgan dollar, the reason keeping this coin from a higher grade is the small number of insignificant, scattered contact on the reverse. Both sides display a bold, radiating luster and the reverse has just a gentle dusting of clear gold. The eye appeal is VERY nice for the grade, and we really do not know why CAC did not bean this one.

PCGS 42, NGC 19. The most recent example sold in auction three years ago, realizing \$24,675, in a July 2015 auction and that was the first one to sell since April 2012. Clearly these do not appear at auction with any real frequency. VERY RARE any finer, a PCGS MS63 will cost \$50,000+. There are MS67+'s and then there are MS67+'s like this killer GEM. We fully grade this coin an MS67.9! Really. If this coin was in an MS68 holder, we probably would not even flinch (no promises made).

The only flaw we could find-a single microscopic tick on the reverse. Hard to imagine, but this coin really is the epitome of perfection. We can only assume that 122 years ago this coin left the bank and was loving stored until it was slabbed. We assure you, even though others are graded, you will NOT see a twin to this. The surfaces are also satiny smooth. A strong luster beams from all over. The colors are totally original white with highlights of pale gold by the rims. Miss Liberty and the details are fully struck and have light frost. Her cheek is amazingly clean and smooth. The eye appeal is really perfect!

PCGS 224, NGC 72, CAC 73. PCGS has graded 26 in MS67+ and 2 in MS68 (both CAC). Too bad we can't compare all MS67+ CAC coins. We 'd make a huge bet this coin is superior to all of them. This is no hype, seeing is believing. The last PCSG CAC MS67+ to sell in auction brought \$6,168 in June 2014. That is four LONG years ago! Ultra satiny mint frost glows on both sides with a soft, pearly luster. Well struck and very pleasing.

PCGS 302, NGC 137, CAC 17. Looking at these population figures, two things are evident: 1-there is

clearly duplication trying to get a higher grade 2- those that are graded 63 are NOT high quality in general. The last PCGS/CAC coin sold in the 2017 ANA auction for \$9,988 and before that one sold in October 2015 for \$11,750. Certainly worthy of a bid in excess of the current CU value of \$8,000. PCGS 48, NGC 9, CAC 13. PCGS has graded only 8 coins MS66+. PCGS has graded only 4 coins finer. NO MS66+ pieces have ever been sold via auction. The current Collectors Universe value is \$9,500. The last MS67 to sell was NOT CAC and brought \$43,125 back in 2009. We assure you, this coin is closer to MS67 than MS66. RanJack took years to find the pieces, this coin is huge proof of how successful his efforts were (plus he really knows his dollars. Good luck!

\$1 1903 PCGS MS67+ CAC

A marvelous, SUPERB GEM that is tied for FINEST graded at PCGS. Exceptionally lustrous with full, blooming satin frost on both sides. The surfaces are free of any distracting marks, lines, ticks, or discolorations that would impede the outstanding quality. A light dusting of silvery-white attests to the total originality and looks today as it did when it fell from the dies. This really is a very beautiful example, and certainly worthy of its lofty grade!

PCGS 107, NGC 4, CAC 48. There are eight coins graded MS67+ at PCGS and NONE ARE FINER! The current PCGS Price Guide value is listed at \$6,250 and the ONLY one to sell realized \$7,638 in the 2017 ANA auction. We anticipate this jewel will bring more, so be prepared to do battle to bring this one home!

\$1 1903-O PCGS MS67 CAC

This amazing PQ SUPERB GEM is bested by only a single MS67+. Sharply struck for the date with full definition to the devices, even in the central portions of the design which are often the weakest areas. A fully brilliant luster glows all over on both obverse and reverse. Free of any serious marks that are visible to the unaided eye, this 03-O has an amazing eye appeal.

The 03-O was one of the major rarities in Mint State until bags were released in the 1950s and 1960s. Today, while no longer a rarity in lower Mint State grades, it is very scarce in SUPERB grades as here.

PCGS 86, NGC 49, CAC 22. The most recent PCGS/CAC MS67 to sell in auction realized \$8,519 in our December 2017 Regency Auction XXIV. The current PCGS Price Guide value is listed at \$4,000 and there is only a single MS67+ graded finer at PCGS. We anticipate that this one will bring a very strong price when the gavel finally falls.

\$1 1903-S PCGS MS66 CAC
Ex Bella; The Strike Set

First off, with a pedigree like this you KNOW the coin is going to be great! A strong, swirling mint luster rolls along both sides. The surfaces are of exceptional, high end quality, totally free of any singularly distracting marks. Only the slightest dusting of clear gold can be seen on the surfaces, but this magnificent GEM will fit nicely in any untuned set. The eye appeal is beyond exceptional for the date.

PCGS 41, NGC 8, CAC 11. This remarkable, high end coin sold for \$19,550 in the 2011 FUN auction.

Only a few coins are graded higher at PCGS, most being MS66+ (6), with 4 coins in MS67 and a single MS67+. The current PCGS Price Guide value is listed at \$16,000. Keep in mind that this coin sold for more than that seven years ago! Worthy of another AMAZING cabinet of Morgan dollars, as it has been for many years: Shrike-Bella-RanJack. Good luck!

Clearly hand selected for its eye appeal, the RanJack 1904 Morgan is bested by only three coins on the PCGS Population Report. Bold, swirling cartwheel luster rolls on both sides bringing out the subtle iridescent peachy-gold tone. Sharply struck and offering a frosted clean, smooth cheek, this GEM stands out from the crowd with a great eye appeal.

PCGS 34, NGC 9. The most recent example sold in auction brought \$5,229 in February 2017, which falls in the middle of the range of examples sold since 2016. The current CU value is listed at \$7,500 and there are only three coins graded finer. \$1 1904-O PCGS MS67

What a HIGH END looking coin! We have looked this coin over and again looking for a reason that CAC did not bean it. After searching high and low with a powerful glass, we think the reason is a pair of tiny planchet flakes above the 9 in the date. Otherwise, this coin has an amazing look! First, the details are deeply embossed by an exacting blow from the dies. The cheek is extremely frosty and smooth, devoid of any serious marks or ticks. A strong luster graces both sides bringing a strong brilliance in the fields. The eye appeal is exceptional for the date and no doubt that this SUPERB coin deserves being ranked among the FINEST graded.

PCGS 50, NGC 108. Prices realized going back to 2010 have ranged between \$2,640 and \$7,050, the majority between \$3,000 to \$4,000. The current PCGS value is listed at \$4,000. There are NONE GRADED FINER, so if you are building a top ranking PCGS Morgan Dollar set, this 1904-O, with its very good looks will certainly fill that hole finally!

Conditionally, the 1904-S is a very scarce date in GEM and extremely RARE any finer. A hint of striking weakness can be seen in Liberty's fore curls, but everywhere else in the design, the devices are nicely struck. Even using a strong glass, only a few teeny bagmarks are noted, but none detract from the overall superb eye appeal.

PCGS 160, NGC 30, CAC 22.

There are only NINE examples graded MS65+ at PCGS. Only two NON-CAC examples have sold via

One of the most common silver dollars in the entire series, however, in such a lofty state, even the ubiquitous 1921 is a very scarce coin!

Even Liberty's cheek is very smooth and devoid of any serious marks or even the slightest line and is the extreme in frostiness! The eye appeal of this amazing quality GEM is very high end and we rank this one in the top 1% of all 1921 dollars!

Any student of the Morgan dollar series knows that the 79-CC is very scarce in PL.

A very lustrous and high end looking 79-CC dollar. The fields show off a brilliantly reflective sheen that combine with a radial cartwheel luster. Contrasting against the well struck and highly frosted devices, the eye appeal is excellent. With the few teeny marks on the cheek and in the fields, we suspect this beauty was once housed in a GSA holder, before being cracked out for grading.

PCGS 95, NGC 67, CAC 9. NO CAC-approved MS63 PL graded by either PCGS or NGC has ever sold via auction. The last PCGS MS63 PL to sell brought \$6,600 in December 2017 and the current PCGS price is \$8,500. A PCGS MS63+ PL CAC sold way back in March 2012 for \$8,050. Oh, WOW X 100! Here we go-- Why isn't this coin a+? Be glad standards are so tight in this lofty grade. In our eyes this coin is seriously HIGH END.

Remarkable semi-prooflike surfaces on the obverse reveal virtually no marks. Only using a really strong glass can you find a few ticks. The reverse is really "sick": it is FULLY PROOFLIKE! We'd estimate the mirrors at 6" near DMPL

status. Further, the reverse has full contrast. When you twirl this coin all you see is a thick unbroken booming luster. Some moderate russet/blue frames the rims only. Miss Liberty and every detail are light frosted and are needle sharp in strike. The eye appeal is out of this world!

PCGS 160, NGC 68, CAC 120. Even though Collectors Universe Value is \$5,500, we know once everyone sees this magnificent coin bids will pass that range quickly! Even if you reject 99.9% of all Morgans you see, we assure you, this one you will not!

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

\$1 1892-O PCGS MS66+ CAC

This clearly amazing SUPERB GEM is more than worthy of its lofty designation. 30+ years after PCGS was started and 10+ after + came around, this is now the lone MS66+. Talk about rarity or how this date does NOT come. For this cataloger (the same person who wrote up the #1 Coronet Set), this coin was heart pounding love at first sight. How high end is it? We have handled the MS67, we can unhesitatingly tell you it is so darn close to FULL MS67! If we had to grade it, we call it a MS66.9+!

Amazing surfaces remind us more of an 1882-S than a 92-O. Overall the surfaces appear super clean and are satiny smooth. Only using a really strong glass can you find a microscopic tick or two. We assure you, this is one of the cleanest 1892-O's you will ever see. A strong luster glows from all over. The reverse has a ring of pale original reddish gold. There is a small toning dot in the A of America on the reverse. Both sides are an even and totally original creamy white color. Miss Liberty and the details are fully struck and have light frost. Her cheek is beyond amazing when it comes to cleanliness.

We just can't say enough about this coin's incredible eye appeal!

PCGS 5, NGC 5, CAC 1. This is the ONLY MS66+ ever graded. It has never been sold via auction before. PCGS has only one coin graded higher-which is not coming out for a very long time (if it did, our guess is it would be worth closer to \$150,000). We laugh at the current Collector's Universe value of \$49,500. How can that be when NONE ever traded? We do expect this coin to realize a much higher price. Any serious Morgan or New Orleans collector should want this amazing piece in their collections. Fresh and better date Morgans like this rarely hit the market. We expect intense bidding here, so be prepared.

\$1 1895-S PCGS MS65

A brilliant GEM Uncirculated example of this rare date. Like many dates in the 1890s, the mintage was low, only 400,000 were struck and most of these went right into commerce, or were stored in treasury vaults and were melted in 1918. Either way there are very few coins that grade in such lofty states of preservation.

A bold luster swirls around well struck and frosted devices. The surfaces are untoned, and offer a bold flashy look. The eye appeal is

very pleasing overall with no serious marks, lines, or discolorations.

PCGS 39, NGC 10. A similar looking coin sold in April 2017 for \$17,625. The most recent coin had an uneven, somewhat splotchy toning that brought only \$12,925--this one is much more attractive and the current PCGS value is listed at \$19,000.

This remarkable 01-O, while not noted on the holder, is from the famed Jack Lee Estate Collection, which was sold in December 2008.

DMPLs are quite scarce, surprisingly so considering the large mintage of the 1901-O. Housed in an old NGC "Fatty" holder, this GEM has deep reflective fields and a watery appearance that contrast nicely with the fully struck and frosted devices. The centers are mostly untuned, while the peripheries have a band of lovely original toning.

PCGS 11, NGC 23. In the Jack Lee Estate sale, this coin sold for \$3,220 and since then has reappeared on the market a few times, ranging in APR from \$3,231 to \$5,404. The most recent appearance was in June 2017 where it realized \$3,995. There is only 1 DMPL graded finer at NGC, a 66 that sold 12 years ago. The last PCGS MS65 DMPL to sell was back in June 2011, making this the finest available on the market today! Good luck!

Sorry, didn't really care for the MS67 04-O (which is not beaned).

For an 04-O, the mirrors are way beyond what you typically see. These are legit super deep 8"++++ mirrors (the reverse looks full 10"++). The mirrors have great clarity and are ultra clean. When you twirl the coin the mirrors look like those you would find on a proof coin. Plus, they do roll around like liquid mercury. This piece is untuned and unmessed with. The contrast is crazy bold. Miss Liberty and every detail are fully struck and have iridescent silvery frost. The eye appeal is totally jaw dropping!

An amazing, HIGH END toner! Remarkable in many ways. At first glance you would think you were looking at a full GEM grade coin. The surfaces are very clean; even the cheek does not show any serious signs of contact. The fully struck devices are beautifully frosty and stand out against the ultra reflective, flashy luster. As for the toning, the obverse displays a progressive spectrum of rainbow color. Starting with a broad swath of rich magenta with teal-blue accents, blending to rose, cobalt, gold, and emerald. The color really is very high end, we rate it a 9+ on our 10 point color scale. Even the reverse gets into the act with a beautiful frame of peripheral rainbow.

This coin is ultra high end quality for the grade. In recent years, our consignor has been offered as much as \$4,500 from dealers--that is how impressive the beauty of this GEM really is. OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

A stunning original ring of blue/violet opens into lightly flaming tangerine centers. Miss Liberty and the details besides being fully struck and frosted offer stunning contrast vs the colors. The eye appeal is phenomenal!

PCGS 333, NGC 175. Forget about regular prices guides for this piece. It has peacock like colors makes it totally different in value (much more)! We think there will be a bidding war over this colorful DMPL!

LOT 138**\$1 1921 MORGAN. PCGS MS64+ CAC**

Ready for a major rarity among toned Morgan dollars?

After a 17 year hiatus in the minting of silver dollars, the mint was instructed to restart production. The original hubs were no longer useable and a new hub, in slightly different relief was made, making the 1921 technically a one year sub-type. The preparation of the planchets also was slightly different, so unlike dollars struck 1878-1904 that can come with spectacular works of art from mother nature's pallet, the 21s, like the Peace dollar series to follow RARELY comes with beautiful color. This one is the exception. With a stunning melange of obverse color, this GEM rates a 9.5 on our color scale for the date.

Off the market and unseen by anyone since our consignor purchased it in 1995, he considers it one of the FINEST toned 1921 Morgans that exist and we would have to agree! We would not be shocked by a world record price for the grade when this one crosses the block. Be ready!

**LOT 139****\$1 1883 PCGS PR67**

SUPERB in every way!
Bold, watery mirrors offer a dramatic flashy look. Rich overtones of totally original, multicolored toning in shades of teal, rose, mauve, blue-slate, and gold. The devices are sharply struck and the surfaces are very smooth and free of any defects. Even using a powerful glass, we cannot find any imperfection whatsoever. The eye appeal is very nice and high end. A real prize.

PCGS 3, NGC 13. Only three coins are finer in the designation, none of which have ever sold in auction. Only two PCGS PR67s have ever sold in auction, both being CAC-approved-the most recent selling for \$16,450 and the current PCGS Price Guide value is listed at \$20,000. It is hard to imagine a finer coin! What a great Proof Morgan dollar! Good luck!

\$1 1884 PCGS PR65 CAM CAC

A borderline DCAM! The mirrors are really deep, bold, clean, and show a really strong clarity. They really do beam from all over and provide a strong, brilliant contrast against the sharply struck and totally frosty white devices. Close inspection with a strong glass does reveal a tiny hairline or two, but these do not detract from the SUPERB eye appeal!

Only 875 were struck. PCGS 8, NGC 14, CAC 6. The last PCGS coin to sell was NOT CAC and sold for \$8,225 in the 2016 FUN auction, a sale that took place during the market downturn. Today, the market is stronger and we could see this one bringing more. Good luck!

\$1 1886 PCGS PR64 CAC

Flashy mirrors beam from around the sharply struck devices. Mostly untuned save for the lightest dusting of clear gold tones, a strong glass reveals a few ancient lines that account for the grade. The eye appeal is decent and there is a slight contrast.

Only 886 Proofs were struck. PCGS 45, NGC 62, CAC 5. Relatively scarce in this and higher grades, more so than the mintage would suggest. Only one other CAC approved PCGS coin has ever sold in auction--the Teich Family coin that sold for \$4,113 in the 2013 FUN auction. The current PCGS Price Guide value is listed at \$4,000. A nice looking coin for the collector, good luck!

THE LIBERTY SUNRISE COLLECTION

Though I have never lived in New York City, I have visited often over my lifetime, and the Statue of Liberty in New York harbor has always struck me as one of the most beautiful, inspiring, man-made sights I have ever been privileged to behold.

Ever since France gifted the copper monument to the United States in 1885, as a symbol of her friendship for the American people, the Statue, has served as an inspiration to millions of immigrants from around the world, who have come here seeking a new life in this land of freedom and opportunity. The head of Lady Liberty in New York harbor has always reminded me of the crowned, female visage on the obverse of our U. S. Peace Dollar. Though the designer of the coin, Anthony De Francisci, is said to have modeled the image after the face of his wife, I've no doubt but what the fanciful embellishments to that face derived their inspiration from the stunning monument on Ellis Island.

Early morning haze or fog frequently obscures the head of Lady Liberty in New York harbor, yet once sunrise comes and the vapors burn away, that awesome Lady is

usually bathed in a magical golden glow (to match the golden torch she holds aloft). Depending on the make-up of colors in each individual sunrise, the colors reflected on Liberty's face can also vary tremendously, just as they do on the coins I have put together in the Liberty Sunrise Collection. Unlike originally-toned Morgan silver dollars, where variegated or multiple rainbow colorations are quite commonly found, such is definitely not the case with the Peace Dollar series. The toning of Peace Dollars (when found) is usually pretty uniform, and in dull shades of tan, brown, or gray. The brighter, more colorful shades of yellow, orange, gold, or pink are much less common, and coins boasting more than two colors simultaneously are very scarce, indeed.

The coins I've assembled in this collection range in grade from MS 63 to MS 67 CAC. A couple are only very lightly toned (pale gold), and one has a golden-orange halo around the brilliant silver face of Lady Liberty. The rest, however, offer substantial coloration that will delight the most passionate and devoted of Peace Dollar collectors. It has been my great pleasure and great joy to put this beautiful set together over the past five years.

\$1 1921 PEACE. NGC MS65

Impressively well struck up for the date, this 21 Peace dollar is a true GEM in every sense. Delicate pastel iridescent toning on both sides. As you rotate the obverse in a light, the subtle blue-green and golden peach hues blend over ultra smooth and satiny surfaces on the obverse. The reverse is blanketed in a brilliant golden color that is quite nice for the grade.

Spectacular toning for a Peace dollar, and a fitting example for this set. This coin also happens to be a moose of a GEM to boot. The toning pattern reminds this cataloger of one of Monet's garden paintings, with bold emerald, gold, crimson, peach and rose iridescent hues. A bold luster brings the colors together beautifully across the obverse. We do rate the colors an 8.5 overall, but for a Peace dollar, it rates a 9. With beautifully toned Peace dollars much rarer than Morgan dollars, we know a full fledged bidding war will erupt when this GEM crosses the block!

This coin last sold in our May 2017 sale. Here is how we described it:

"THIS 27-S IS LIKE NO OTHER THIS CATALOGER (with 35+ years experience) HAS EVER SEEN! It is BOTH the ultimate in quality and eye appeal! First, we marvel at why PCGS did not grade this coin at least an MS65+. We make NO promises, but we have looked at this coin over and over and see NOTHING wrong. The surfaces are as clean and smooth as you will EVER see. Even using a strong glass, the quality will NOT disappoint you. A strong luster does illuminate the colors. Totally original shades of russet/brown/amber/soft green/pale violet are visible all over. Miss Liberty and the details are frosty and are sharply struck (way better than the average 27-S strike). The eye appeal is jaw dropping for sure!"

PCGS 86, NGC 82, CAC 21. This is a totally FRESH coin to the market. We doubt if anything similar has ever been sold via auction. The last PCGS CAC piece to sell in auction brought \$8,225. OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

THE SOUTH TEXAS COLLECTION

This amazing group of coins dating 1792-1799 was built for a very picky collection exclusively by Legend Numismatics. His goal was to build a "GEM" early Type set. By GEM we mean even his AU coins are SUPERB and are seriously above average. He had zero tolerance for marginal or doctored coins. In the end, he did build a collection he tremendously enjoyed and loved to look at every day.

To this collector's credit, he knew PCGS CAC for these early coins was the only way to go. There is no question whatsoever about any of the coins originality, quality, or eye appeal.

Looking at the set all spread out on a table-all we can

say is WOW! Even though we LOVE all the coins, our favorites by far are the H10C 1796 13 Stars. MS65+, the 25C 1796 PCGS AU53, and the out of this world 50C 1795 PCGS MS64+. You really can't locate similar coins today.

The South West collector is a very successful entrepreneur. He also enjoys fishing and raising two pretty neat turtles (yes turtles). The only reason why these coins are for sale, he has become smitten by another area in coins. So, he is not leaving at all. The collection he already has assembled is totally world class and then some. Legend Numismatics is honored to have worked with him all these years, and Legend Auctions is honored to sell these coins in our July Auction.

LOT 171

1/2C 1793 PCGS AU53 CAC

A "GEM" of an AU! Among the first coins struck for circulation from the fledgling Philadelphia mint, the 1793 half cent is a very important and extremely popular issue, a one-year only type that is highly sought by collectors in all grades, from environmentally damaged low grade examples to GEM Mint State. Very RARE in high quality collector grades like this, even more so with such amazing eye appeal.

This coin has only the lightest traces of circulation. A few stray marks can be seen on otherwise smooth, hard copper surfaces. Unlike most of the examples of this date we see either in auction or on the bourse, which come with extensive wear or environmental issues, this coin has a very pleasing medium brown coloration, with only a touch of wear. There are a few tiny marks and scratches that can be seen under a glass, and they mostly blend into the surrounding chocolate brown and olive iridescent toning. The devices are sharply impressed into the planchet, the eye appeal is superior to the vast majority of the known survivors of the date. The 35,334 half cents struck in this first year were all coined between May and July 1793. The design, featuring Liberty's head facing left with a liberty cap on top of a pole is directly related to the 1781 Libertas Americana medals struck in Paris on designs suggested by Ben Franklin. According to Walter Breen, a who's who of early mint employees are thought to have worked on the designs, including David Rittenhouse, Robert Birch, and Adam Eckfeldt. The present coin is from the Breen-3, Cohen-3 die pairing.

PCGS 13, NGC 10, CAC 1. This coin has the incorrect PCGS # on the insert, listed as 1001 for a 1793 with the RB designation. No CAC-approved example has ever sold in auction in AU53. The current PCGS Price Guide value is listed at \$40,000 and with its CAC-endorsement and high end look, this coin should realize in excess of that! A very desirable numismatic trophy from the infant years of the republic. Bound for a wonderful collection of half cents or early type coins.

1/2C 1797 1 OVER 1, PCGS AU55 CAC

One of the most identifiable early half cent varieties, with the errant 1 punched well above its proper location. Deep brown-mahogany surfaces show some ebony accents, although the glossy luster generates enough life to fields and devices to keep it from looking dark. Sharply struck from a rusted state of the dies, there are raised areas where the dies pitted before striking. The eye appeal is excellent.

PCGS 3, NGC 3, CAC 2. No CAC-approved AU55 ever sold in auction-- and there was only one PCGS example to sell, in April 2018, but that coin had nowhere near the exceptional eye appeal of the presently offered coin. We think this one will sell for close to the current Collector's Universe value of \$11,000. While somewhat common in lower grade, this variety is VERY RARE in this or finer grades. Good luck to all the EAC collectors who will vie for this popular issue!

L1C 1793 VINE AND BARS. PCGS MS63 BN CAC

A marvelous fully CHOICE 1793 Wreath cent. An impressive Condition Census grade S-8. Visually one of the higher end examples of this R-3- variety easily identifiable by the horizontal twig on the branch of leaves under Liberty's truncation and the triangle shaped bow on the reverse wreath. It goes without saying just how RARE these are in Mint State grades, especially so with CAC-approval and the amazing eye appeal that this coin possesses.

Sharply struck on both sides, Liberty's flowing tresses are sharply defined, standing out with full 3-D effect. Likewise, the details of her profile are deeply rendered, with full definition in her eye, nose, and lips. Each bead at the border is complete and well centered on the planchet. The reverse design elements are also very crisply struck up. Both sides exhibit smooth, hard copper surfaces, without any evidence of corrosion, pitting, or other environmental damage. A close examination reveals a single contact near the rim by hair curl 2. The coloration ranges from rich, milk chocolate brown to pale olive-tan in areas with pleasing golden accents that come to life in a light. The eye appeal is exceptional!

PCGS 7, NGC 3, CAC 1. The most recent PCGS MS63 BN to sell was in the 2018 Central States auction and realized \$78,000 (it was NOT CAC). Prior to that, one sold in November 2008 for \$115,000. Clearly these DO NOT appear with any frequency and the current Collector's Universe value of \$100,000 may well be exceeded when this beauty crosses the block. We know that early types like this will always command strong bidding from type and early copper collectors alike. What a wonderful coin for an advanced type set!

Ex Lord St. Oswald. This is one of the most MAGNIFICENT 1794 large cents you will ever see! An amazing, WORLD CLASS SUPERB GEM 1794 large cent with a provenance that traces back to the time of issue! This S-59 ranks high in the condition census for the date, not just the variety.

A bold cartwheel luster blazes on both sides as you rotate this GEM in a light. Ample, ORIGINAL RED

color clings to the smooth, hard surfaces. The fields are devoid of any singular detracting marks, or evidence of any sort of line, contact, or other defect. Sharply struck on both sides, the devices are crisp and fully defined throughout; Liberty's hair curls are especially well separated and the eye appeal is stunning!

When it comes to early coins, the Lord St. Oswald pedigree is one of the very finest. Taking a V.I.P. tour of the young United States, the English nobleman traveled throughout the states visiting with such notables as Washington, Jefferson, and others.

A polymath, he was a collector of coins and medals, and during his stay in Philadelphia, he retained a number of large cents, half dollars, and a silver dollar. Each of these coins were carefully brought back to England and remained part of the property of the noble family until a 1964 Christie's sale in London. Dubbed the Lord St. Oswald Collection, it is one of the most important offerings of early coins from the early days of the republic offered overseas. From the 1964 Christie's sale, it went to Lester Merkin, Dorothy Paschal, Douglas Smith, Dr. Bob Shalowitz, Del Bland, Dr. Shalowitz, David Berg, William Freeman, John Adams, Bertram Cohen, intermediaries, the present consignor. This coin is the Breen Encyclopedia and PCGS CoinFacts Plate Coin.

PCGS 7, NGC 0, CAC 4. There are three coins graded MS66+ BN at PCGS, and NONE FINER in the BN designation. There are no records for a PCGS MS66+ BN having been sold in auction, and there is enough of a glowing red color that would justify us including coins in the RB designation in our pricing data. The Adams, Halpern, Martin Logies, Jim O'Neal PCGS MS66 BN CAC sold in April 2014 for \$117,625 and the Naftzger-Pogue PCGS MS66 RB sold for \$211,500 in March 2017.

Today, in MS66+ BN, the Collector's Universe value is listed at \$225,000. Where this impressive SUPERB GEM hammers at will be determined by the collectors who battle it out to the end. With its amazing look, high end quality, and excellent pedigree, there is no doubt we will see fierce bidding and a very strong price realized. Bound for a great early type set or a WORLD CLASS cabinet of early copper. Good luck!

An exciting, original GEM from the famed Nichols Hoard. One of the finest certified examples, it is one of the top dozen graded at PCGS in the BN designation. It boggles our minds how this coin has survived so pristine over 221 years!

Glossy luster graces both sides of this GEM. The surfaces are smooth and free of any distractions in the fields. The surfaces show off a delicate iridescent sheen that

can be seen when rotated in a light, giving the presently offered coin a great look. The colors and high end surfaces contrast nicely against the sharply struck design elements. Ms. Liberty's hair curls and drapery are fully defined on the obverse, and the wreath is boldly defined on the reverse. Much original red luster clings to the recesses of the dentils on both sides. The eye appeal is spectacular, as should be expected for a PCGS/CAC MS65.

PCGS 9, NGC 1, CAC 4. This coin has been off the market for nearly a decade. The current PCGS price is \$31,500 and the most recent PCGS MS65 BN to sell in a major sale was NOT CAC, realizing \$28,800 in November 2017. With its bold eye appeal and high end condition, it will entice strong bidding from specialists. No doubt there will be lots of action on this GEM!

Ex Col. Green and Eric Newman
Collections.

Legend Rare Coin Auctions is pleased to present one of the most historically significant issues in early U.S. coinage with one of the most significant pedigrees--what a package!

Many pages have been written over the years about the historical nature of the 1792 half dime. Over the years it has attained a mythical

stature in the chronicles of American numismatic history, making it one of the most desirable coins. Directly linked to such founding luminaries as George Washington, Alexander Hamilton, Thomas Jefferson, and David Rittenhouse, holding a 1792 half dime in ANY GRADE is a portal back to those early days, shortly after the April 1792 Act of Congress that established a federal mint at Philadelphia, and struck before the first buildings were even completed. The legend is that the Washingtons personally contributed their household silver to be refined and struck into the planchets, although that myth has been generally debunked, but still provides an excellent story to tell. About 1,500 half dimes were struck in John Harper's cellar. The entire emission was delivered to Thomas Jefferson, who as Secretary of State oversaw the mint, and he delivered them to George Washington at Mount Vernon on his way to Montecello.

The Colonel E.H.R. Green- Eric P. Newman coin is the "PERFECT" collector grade half dime. Many of the known examples (about 150 or so examples) have significant problems such as heavy scratches, holes, environmental damage, or other problems that preclude numerical grading, or are much lower grade, clearly these did circulate as George Washington noted in his 4th address to Congress, where he stated, "There has been a small beginning in the coinage of half dimes: the want of small coins in circulation calling the first attention to them."

The even wear is generally problem free and the pewter-dove patina is rich and original with some deeper blue-slate patina clinging to the obverse legends. There are a few ancient scrapes noted but can be overlooked in the context of the great eye appeal the present "GEM" XF possesses.

PCGS 5, NGC 5, CAC 3. This coin's pedigree prior to Col. Green is unknown; however it was part of the Green Estate purchased by Burdette Johnson and Eric Newman (who paid \$125). This coin had been retained by the Newman Numismatic Educational Society (EPNNEs) as part of a type set, then consigned and sold in November 2017, where as an NGC/CAC coin it sold for \$132,000. This coin has a lot to offer the collector. It is a major numismatic rarity, ranking among the top 20 in the top 100 U.S. coins compiled by Jeff Garrett. It's historical significance as the first regular issue coin struck under the auspices of the Mint Act of April 1792 that established the U.S. Mint. It's provenance is famous and impressive. Bringing it all together, this is one of the most important rare coins we have had the pleasure of offering! A world class coin that will excite strong bidding!

Lovely! Very eye appealing and beautiful, this near-GEM LM-8 is housed in an OGH. Bluntly struck on both sides, typical of the date, with some hints of weakness in areas. A light satiny luster blooms on both sides in the silken smooth fields. A pearly lustrous surface accents the icy blue and lilac accents that blend with the antique golden toning. Very original.

PCGS 26, NGC 35, CAC 10. The most recent one to sell was the Gardner LM-10 which sold for a very strong \$36,425. Prior to that one, this coin realized \$22,325 in February 2014. An exquisite GEM LM-2! There are not enough adjectives to properly convey the superb qualities of this early half dime. To think a coin like this could survive in such PRISTINE condition boggles the mind!

Obverse dies were prepared with 13, 15, and 16 stars. Sharply struck on both sides, this pleasing GEM has a strong luster that comes out with a brilliant vibrance that glows in the light and underlies a sumptuous, original patination. Golds, blues, greens, blend over pearly-silver surfaces. The design elements are very sharp overall with only some minor and typical weakness in the central devices of the eagle. Struck from clashed dies, parts of the reverse wreath are seen in the field in front of Liberty's portrait. The eye appeal is exceptional and the quality is stunning!

PCGS 2, NGC 2, CAC 1. This is the single MS65+ at PCGS, and there are only two coins finer at PCGS. We cannot find an auction record for this coin, and the last time a PCGS MS65 sold was back in January 2005, where one sold for \$82,800. More recently the Lawrence Stack-D. Brent Pogue MS66 sold for \$123,375 in November 2016. In MS65+, PCGS lists a value of \$122,500 in their current Price Guide. This GEM has a wonderful look and freshness to the market that should elicit fierce bidding from specialists. Worthy of a world class cabinet of early type coins!

ALWAYS a popular date, the first year of the denomination struck, and highly sought after in all grades. Usually seen either in low grade or with problems, the present AU58+ has a great look and offers a lot of coin for the money.

There is a distinctive "flash" in the fields, with a neat semi-reflective luster, on both sides. A delicate teal, olive, gold, and blue iridescent toning frames the devices, giving it a nearly cameo look. The Robert Scot's design elements are nicely struck up. A close inspection with a powerful glass does reveal a few, tiny stray marks hidden by the outstanding, original luster. What a great example of this "Blue Chip" rare coin! Easily identified as a JR-1 thanks to the die cud at Star 1.

PCGS 25, NGC 30, CAC 6. This is the ONLY AU58+ graded at either service. This coin has not appeared in auction as an AU58+. Only a single PCGS AU58 approved by CAC has ever sold in auction, a JR-4 that sold for \$27,600 in the 2012 ANA auction. A PCGS MS61 (no CAC) sold in March 2018 for \$39,600. The current PCGS Price Guide value is listed at \$21,250 and we expect that this GEM AU will sell for that, or more! A real prize for anyone working on an early dime or type set! Worthy of a strong bid!

A very pleasing, super high end example of this early dime overdate. RARE in Mint State, PCGS estimates perhaps 25 examples exist in all MS grades. Clearly the population figures include duplication.

A rich underlying luster shines under a powder blue and lilac patination. Boldly impressed devices show off full details of Robert Scot's Draped Bust, Large Eagle design. A few teeny marks are noted for the sake of full disclosure, but none of these detract from the excellent eye appeal.

PCGS 7, NGC 10, CAC 3. The most recent PCGS-graded coin sold over nine years ago-- a clear sign as to how often these are offered. The current PCGS Price Guide value is listed at \$22,000 and when this coin crosses the auction block we think that level will be bypassed immediately. When is the last time a GEM AU CAC piece was offered?

Of the silver denominations authorized by the April 1792 Act of Congress that established the U.S. Mint, the dime and quarter were the last to be struck and introduced to circulation. In all only 6,146 quarters were struck, and this emission was the entire mintage of quarters until 1804. In any grade, the 1796 is an important "Blue Chip" rarity, in high demand from

low grade problematic examples all the way to the few GEM Mint State survivors.

The present "GEM" AU B-1 is a superb example, offering an amazing eye appeal on an issue that usually comes with evidence of cleaning or other defect. This one is the exact opposite of what is usually encountered. A bold, underlying luster has a distinctive flash, exhibiting a light reflection which suggests that when minted, it would have had the Prooflike surfaces that some of the Choice and Gem Mint State coins possess. After a brief stay in commerce, it was saved and lovingly cared for by generations of collectors where it was able to acquire a beautiful, antique patina on both sides. The sharply struck devices are a delight to behold and show only the slightest hint of rub on the highest points. We cannot locate even the tiniest of ticks or lines even after close inspection with a powerful loupe. For an AU, this coin has an eye appeal suggestive of an even higher grade!

PCGS 8, NGC 5, CAC 5. You can go ahead and toss out any pricing info for this coin! The last PCGS coin in AU53 to sell was back in August 2006--a dozen years ago! Even then that coin sold for \$50,600--way back then! As a PCGS/CAC in today's market, this coin should sell for much more, and should surpass easily the current PCGS Price Guide value of \$56,000. With all the cleaned, ugly, and artificially toned AUs out there, this original beauty is a real prized for the collector and will find itself at home in a great type set or early quarter set. Either way, we know many people will enthusiastically compete to have the winning bid!

Legend Numismatics believes that this is by far one of the finest 1795 50C that exists!

Legend Rare Coin Auctions is proud to be able to offer arguably the **FINEST** O-131 in existence! Actually, this coin is one of the very **FINEST** 1795 half dollars of all varieties combined! What an **AMAZING** coin that is the definition of **GEM** quality! Prior to the Pogue Collection sale in May 2015, this was **THE FINEST** 1795 half dollar you could ever hope to own!

Far superior to the highest ranking coin in the Overton Census, although the Tompkins Census lists a pair at 63. In terms of quality, the closest peer for the O-131 variety is the coin sold as lot 482 in Stack's March 1998 auction. Very similar in appearance, the central devices of the presently offered Simpson coin are possessing of a much fuller strike, with nearly complete definition to the eagle's breast feathers. Copious frosty mint luster blooms all over the smooth, defect free surfaces on both obverse and reverse. Highly attractive toning clings mainly to the peripheral devices, displaying shades of clear gold, violet, amber, and olive-tan. Struck from a later state of the dies, this **GEM** displays die damage across the central obverse, as well as some minor die cracks at the lower reverse legends. We also note some die clashing. The eye appeal is **AMAZING**, a coin that is truly a delight to behold and superior in quality to the vast majority of 1795 half dollars of any of the 32 different varieties cataloged by Al Overton.

PCGS 2, NGC 5, CAC 4. This is the **ONLY** MS64+ graded at either service and is bested by only a pair of MS65s graded at PCGS for finest. The Pogue Coin, which was ex Norman Stack and Lawrence Stack Collections realized \$411,250 three years ago--that coin replaced this **GEM** in the Bob Simpson Collection. No PCGS MS64 has ever sold via auction. This is a very important opportunity for the advanced early half dollar or type specialist to acquire one of the absolute **FINEST** 1795 half dollars that survives. A hearty congratulations in advance to the winning bidder; you are adding a **SUPERB** trophy of early American numismatics to your cabinet--vaulting it to a nearly unrivaled echelon!

Visually STUNNING and virtually MINT STATE! This GEM AU has just the slightest hint of friction on the highest details, keeping it from a full BU grade. It really does rank high among those graded 58, and is Premium Quality!

Both sides have an essentially full satin, frosty mint luster, although the obverse definitely has some Prooflike tendencies when rotated in a light. Dove and olive patina blend together with accents of russet-tan and clear gold attesting to the originality of the surfaces. The surfaces are likewise unmolested and even using a strong glass we cannot find and marks worthy of mention. All the devices are crisply defined, with Liberty's hair tresses fully and deeply embossed, and there is just the slightest hint of weakness at the central reverse. The eye appeal is exceptional and VERY HIGH END for the assigned grade. In the old days, this coin would likely have been described as Uncirculated.

PCGS 21, NGC 6, CAC 4. The most recent AU58 graded by PCGS to sell in auction realized \$84,000 in March 2018. B-5, BB-65. Ranking among the FINEST known examples of this early dollar variety, this coin is a borderline Mint State piece that has a distinctive Prooflike flash that arrests the eye.

Sharply struck from an earlier state of the dies where the die flaw above the I is lighter than usually seen. The definition on both obverse and reverse is exceptionally crisp and full throughout Robert Scot's classic design. All of Liberty's curly locks and drapery folds on her bust are completely visible. The usually weakly struck eagle's breast feathers likewise are boldly rendered from an exacting blow from the screw press. A delicate, mottled toning frames the peripheries, while a gentle, clear gold dusts the more central areas of the design. Only the slightest touch of highpoint friction can be seen, and more than likely acquired from previous owners removing it from an envelope or from jostling in an old collector cabinet, rather than from circulation. As far as marks are concerned, we note only a few microscopic ticks that are well hidden and are visible only under a powerful glass. Needless to say further, the eye appeal of this GEM AU coin is SUPERB and totally original. Only a few examples of this die marriage are known in such lofty grades, Dave Bowers in 2013 estimated perhaps 10-20 coins in AU50 and up. This does not match the Corrado Romano, Garrett, or Eliasberg specimens listed in his list of Notable Specimens. We also know it is not the Alto-Queller coin that was in a MS61 NGC holder last time it sold (April 2008).

PCGS 1, NGC 0, CAC 1. The only relevant auction record we could find in our research was the Cardinal-Hesselgesser Collection coin, a PCGS AU55 CAC that sold in September 2011 for \$36,800. This coin is sharper, offers a more intense looking luster, and better overall eye appeal than that coin. We know that when this Prooflike GEM AU58 crosses the block, it will exceed the current Collector's Universe value of \$37,500. Expect intense bidding from specialists of early types, silver dollars, and collectors of "sexy" coins--perfect for a box of 20, or any other HIGH END collection!

Frosty luster gleams from under a dusting of pearly iridescence. Blue and amber-gold hues frame the peripheries on both sides, fading to a pewter-silver color with tan and olive-gold accents in the center on the obverse and golden-crimson on the central reverse. Both sides have crisp strikes, with full definition to the hair curls and eagle's feathers. Even under the close inspection with a strong glass there are only a couple of the teeniest of ticks evident, and no traces of even the slightest cabinet friction. The eye appeal is excellent.

Ranking among the finest enumerated in Dave Bowers' 2013 list of Notable Specimens behind the Stellar-Morelan; Fairbanks-Ostheimer; and Virgil Brand-T. James Clarke specimens.

\$2.50 1871 PCGS MS65 CAC

An amazing coin! VERY High end in every possible way. Needless to say, this is a RARE date in all grades and this one is tied with one other example at MS65 at PCGS as FINEST known. One of about 200 estimated to survive in all grades from an original mintage of only 5,320. This coin was placed with a picky collector by Legend in 2011.

As usually seen on such lower mintage dates, the fields offer a distinctive Prooflike flash to the luster. Sharply struck devices on both sides are nicely frosted and razor sharp. Superb GEM quality surfaces yield only a few tiny marks when viewed with a strong glass, but none of these detract from the amazing eye appeal, and are not out of the ordinary for a coin of this lofty designation. Not only is this coin prooflike-it has bold cameo contrast. The eye appeal is breath taking for sure!

PCGS 2, NGC 1, CAC 1. By far the FINEST approved by CAC. The last example to sell was the ex. Walter Childs' coin that sold in February 2007. Eleven years between auction appearances is a lifetime! If you are an advanced collector of RARE U.S. gold coins, specifically working on Liberty Head quarter eagles, this coin is a MUST! Do not let this opportunity pass you by!

If you think in this amazing condition this is a commoner coin-you are so wrong! This coin has insane positives. And yes, it is EXCEEDINGLY high end.

Out of this world original "skin" is clearly visible and you will find ZERO imperfections on it ANY WHERE. A mega wild thick satiny luster beams from all over. There are even faint traces of semi-prooflike mirrors. A MONSTER glowing mix of totally original orange gold/deep yellow gold/pale reddish/greenish gold colors swirl all over. Of course there are no spots or discolorations. Miss Liberty and the details are sharply struck and display some serious frost. The eye appeal is so out of this world incredible that we urge the new owner to buy a drool bucket! WOW!

PCGS 31, NGC 13, CAC 14. PCGS has graded 2 coins in MS67 and neither are beamed. The last one to sell in auction brought only \$19,975 August 2017. This coin is 100X more eye appealing! The current Collector's Universe value is \$26,000 (which is more appropriate for this coin). If you seek a really stunning toned (not just pretty) \$3 gold piece, look no further.

WOW! This coin was created solely by the numismatic gods for their own desires. We rank this coin an MS67+ easily (but make no promises). The coin is the epitome of ULTRA HIGH END quality.

Supreme and impeccable surfaces beyond even what you will see in a few MS67+s! Even using a strong glass, there is nothing to find. The surfaces seem to have a creamy texture vs satiny. There are some faint hints of semi-prooflike mirrors. A full booming luster beams from all over. Both sides are a stunning SUPERB GEM original orange gold color. There are NO spots or discolorations anywhere. Miss Liberty and the details are pinpoint sharp in strike, stand out, and have good frost. The eye appeal is totally jaw dropping!

PCGS 4, NGC 9, CAC 4. The only coin graded higher by PCGS is a MS67+. Legend Numismatics hand picked this coin for the Type set they were building for the consignor. So you know when they have a free hand, they pick on the VERY best possible. No question, this coin is! We won't make any guarantee, but we could see this coin one day as a 67+. This coin sold in the January 2011 Goldberg sale where back then it realized \$23,000. We expect it to sell for much more today! There simply are NO accurate pricing guides.

We like to call this: "the not so common, common date" in GEM. Not only is coin a stud muffin GEM, it's EXTREMELY high end too!

Awesome-not just remarkable surfaces are such a joy to behold. There are not even microscopic ticks to be found. The right reverse is as impressive as we've ever seen (and we have handled an MS68 \$5 Indian! The texture is actually satiny. A powerful yet gorgeous luster beams from all over. Both sides are a phenomenal and totally original pale orange gold color. There are NO spots or discolorations anywhere. All of the details are sharply struck and enjoy delicate frost. The eye appeal is really gonzo! We have seen MS66's that don't come anywhere close to this piece.

PCGS 106, NGC 54, CAC 18. PCGS has graded 6 in MS66+. We will challenge this coin vs any in a MS65+ or even MS66 holder! Disregard the published prices, this coin is miles better than any "sheet" priced coin. Seeing is believing!

Instead of saying OGH, we should have said OMG! While we won't make any promises, we could see this coin in a MS66+ holder one day. This coin is far closer to MS67 than just being an MS66. No question this coin is the real deal!

Unbelievable surfaces are the ultimate in satiny texture and cleanliness. Use a strong glass and look forever and you will find NOTHING. Even frost breaks are held to almost non-existent status. There is a killer thick and headlight type glowing luster beaming from all over. The colors are GEM Original and lightly two-toned-deep yellow gold/pale orange gold. Of course, there are ZERO spots or discolorations anywhere. Miss Liberty and the details are frosted and are fully struck.

If you buy better \$20 Libs, you will know just how special this coin is. If you don't, look around, you will never see another like this! The eye appeal is out of this world!

PCSG 3, NGC 1, CAC 1. The last time a PCGS 1906 \$20 MS66 was auctioned was back in 2006! The current Collectors Universe value is \$80,000. We fully expect this coin to yield a record price. LOT 196**TOKEN 1833 I TAKE THE RESPONSIBILITY. PCGS MS66 BN**

HT-70 Struck in copper. Beautiful! Brilliant cartwheel luster blooms from all over, accenting the light golden-brown patina and ample hints of ORIGINAL mint RED color. A superb eye appeal is unmarred by any distracting marks or ticks.

One of Andrew Jackson's goals was to rid the nation of the Bank of the United States. Established during Hamilton's time at Treasury, many southern and western politicians felt the bank was unconstitutional, so when the charter came up for renewal during Jackson's administration, he vetoed it. Without a central bank, the economy became shaky and became very much hard money focused. Satirical tokens and banknotes (along with broadsides and political cartoons) lampooned Jackson for this act. This token shows Jackson protecting the treasury, sword in hand, while the reverse explains his thinking for the charter veto, and a donkey, which became the symbol for the Democratic party.

PCGS 3, NGC 3. Rarely seen in such lofty grades at auction, this token overall is fairly common in lower grades. A SUPERB GEM like this will delight any hard times token collector, or collector of political Americana.

**OUR ESTIMATES**

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

L1C 1794 HEAD OF 1794. PCGS AU58 CAC

A "GEM" AU58 S-65. While a relatively common variety, it is very scarce in such a lofty grade. For a 1794 large cent, this coin is ever so close to a full Mint State grade, and possesses an extremely high end look.

First, the surfaces are solid and hard, devoid of any serious pitting or corrosion that often comes on large cents of the 1790s. The details are fully struck up with crisp, clean definition in Liberty's hair curls and facial features. Pleasing, even, medium brown with golden and chestnut highlights show off a lovely glossiness. There are no serious marks, ticks, or other issues that affect the overall eye appeal of this HIGH END piece.

Very choice and extremely eye appealing.

PCGS 44, NGC 12, CAC 7. This is the coin that sold in the 2012 ANA auction for \$21,150. There really is a wide range of APRs for PCGS graded AU58s sold in auction, depending on variety, pedigree, and eye appeal. The current PCGS Price Guide value is listed at \$15,000 which is a suitable average, and this one will yet again see bidding in excess of that level when the hammer drops. What a great E.A.C. coin for an advanced type or date set!

1C 1909 V.D.B. MATTE PROOF. PCGS PR66 RB CAC

This coin is VERY High end and is closer to PR67 RB than just being a PR66. Why PCGS did not + it, will be forever a mystery.

If you are the pickiest Lincoln Cent Collector in the world, you WILL love this coin. Perfect immaculate surfaces are all over. The Matte texture is crystal clear and is unbroken. Even using a really strong glass and looking hard, there is nothing to find. A stronger than usual luster beams from all over. Both sides enjoy a fully ORIGINAL and GEM faded zesty red/pale gold/pale brown color mix. Lincoln and every detail lock like they were chiseled from a fresh block of copper. Yes, indeed they are needle sharp and stand out! The eye appeal is remarkable!

PCSG 12, NGC 4, CAC 3. The last one to sell in auction was not as nice as this yet it still brought \$41,125 in March 2017. We've always been a huge fan of this date, so we know how rare these are to find. This coin really is all there and then some-it's not us hyping it. A PR67 RB CAC would easily be worth \$125,000+ today. The only coin higher is the ex NGC PR68 with out of this world colors that sold for \$250,000 in 2014. If you buy only the VERY BEST, then this coin is a “no brainer” must buy! We absolutely grade this coin a PR67.9+!

No question this coin was securely saved since it left the Mint 104 years ago. Full GEM Matte surfaces are perfect. You can use a neutron microscope and there is nothing to be found of any size or anywhere. A strong shine does flow off the surfaces. Both sides are an original deeper coppery color mixed with shades of purple and faint red. We

think it is the deeper toning on the reverse that is all that is keeping this GEM from a PR68 designation. Lincoln and the rims look like they were chiseled by a surgeon’s knife. The eye appeal is perfect!

PCGS 6, NGC 5, CAC 4. This is the LONE PR67+ RB graded, there are no PR68’s. The current Collector’s Universe value is \$16,500. A PR67 RB NO +, sold for \$13,513 in July 2017. If you are building the VERY BEST Matte Proof Lincoln set, then this coin is for you!

**LOT 220****1C 1915 PCGS PR67 RB CAC**

One of the FINEST 1915 Proof cents that exists, and certainly in terms of eye appeal, this MONSTER is off the charts!

The sandblast fields are exceptional and virtually flawless. Lincoln is sharply struck with all of the details finely impressed into the coin. The satin-like finish from the matte surfaces have a tremendous “glow” that really helps bring out all the wonderful hues in the totally original toning. Bright red accents blend with a lovely magenta, violet, and azure that cling toward the rims.

PCGS 4, NGC 2, CAC 4. There are NONE finer in the RB designation, and only 2 graded PR67 RD finer. Only two PR67 RB CACs have ever sold in auction, the most recent in our July 2017 Regency Auction XXII, where a less toned example sold for \$14,688; the one before that sold for \$14,100 in June 2016. This coin is superior to both in terms of eye appeal. Note the CU value is listed at \$17,000 and neither of the PR67 RDs have ever appeared in auction, making this one of the highest graded pieces that may hit the market in the near term. Do not let this opportunity pass you by! What a great coin to add to, or start a collection of Matte Proof cents!

YOWZER! What a coin! When we saw this we had to buy it. Deep mirrors beam boldly from all over. The mirrors are super clean, super clear, and have a super reflection. If you twirl the coin, the mirrors have a wavy roll. Both sides are a superb GEM Mint Red color. There are NO spots or even the tiniest stains. Lincoln and ever detail are fully struck and are frosty. The eye appeal is tremendous! PCGS 2, NGC 3, CAC 2. The last time one of these had been auctions-2003! The extreme rarity of this GEM can not be overstated. After 35 years of operations, PCGS has only graded 2 (with none higher). That says an awful lot! If you are building a top or even a Registry set, this coin not only will fit the pickiest buyers collection, it will be a star!

1C 1938 PCGS PR67+ RD CAC

Ultra deep red mirrors reflect the light from across the room! The surfaces reveal some very pale iridescence as you twirl this SUPERB GEM in a light. The mirrors are icy, clean, and amazing in quality and eye appeal. It is hard to imagine a nicer coin.

PCGS 51, NGC 22, CAC 19. Only three are graded PR67+ RD; two sold in 2016, one in our December 2016 Regency Auction for \$3,878 and another for \$4,700 in a September 2016 auction. The current CU value is \$5,000. If you are specializing in PR Lincoln cent, bid on this GEM.

LOT 224

1C 1940 PCGS PR67 RD

This RED GEM has superb, bold, flashy, and highly reflective mirrors shining from all over! The surfaces are devoid of any of the flaws that you usually see: there are no spots, flecks, lines, or haze anywhere to be seen. The eye appeal is superb!

PCGS 16, NGC 7. The most recent PCGS graded example sold in January 2017 for \$3,760 and the current CU value is \$4,500. There are NONE graded finer at PCGS, making this a real prize for the Proof Lincoln cent collector. Do not let this SUPERB coin slip past you.

PCGS# 3347 | ESTIMATE: \$2,700+

LOT 225

1C 1941 PCGS PR67 RD CAC

One of the FINEST examples of this WWII era Proof cent, that is surprisingly rare in such high grade. Most 1941 proofs have a very funky look from poor storage, and this one is tied for FINEST graded!

The color is AMAZING, the surface quality SUPERB, and the overall look sublime. The ultra bold mirrors beam from all over with extreme clarity and brilliance. There is not a flaw anywhere to be found on either side. The eye appeal is beyond description!

PCGS 10, NGC 12, CAC 6. In our December 2016 Regency Auction, the most recent example sold, realizing \$14,688; Only two other CAC coins to sell realized \$14,100 in April 2016 and one realized \$28,200 in November 2013. The current PCGS Price Guide value is \$12,000. Bound for one of the BEST sets of Proof Lincoln cents and worthy of a very strong bid!

PCGS# 3350 | ESTIMATE: \$12,000+

LOT 226**1C 1942 PCGS PR67 RD CAC**

Tied for FINEST graded in the category, this bold, reflective RED GEM has brilliant, flashy mirrors. This is a truly beautiful example of the date, fully worthy of its lofty grade and CAC accolades!

PCGS 6, NGC 4, CAC 2. No CAC-approved example has ever sold in auction. The most recent non-CAC PCGS coin sold in the 2018 FUN auction for \$2,300 and before that, one sold in April 2017 for \$3,055. The current PCGS value is listed at \$3,000 and with its CAC-approval and exceptional eye appeal, this one could easily break that level. Good luck!

FS-102 (FS-033). There are two DDO varieties for 1971-S and this one is the RARER of the two. This coin is a POP 1 NONE FINER at PCGS and it offers an amazing deep red color with strong doubling at IN GOD WE and LIBERTY. Essentially perfect, we find zero flaws.

PCGS 1, NGC 0. This coin has never been in auction before. It is the SOLE FINEST graded as FS-102. We can find a record

LOT 228**2C 1866 PCGS MS66 RB**

Bested by only a single MS66+ RB at PCGS, this beautifully toned GEM is rather high end to be sure. Rich orange red luster glows on both sides, with golden color at the peripherals. Die cracks encircle the lower obverse, but the strike is strong. We think the only reason CAC didn't bean is a single tiny spot on the reverse that does NOT impair the eye appeal.

PCGS 14, NGC 9. There hasn't been an example sold in four years. The current PCGS value is listed at \$3,000 and this GEM may exceed that amount. Extremely rare in RED, with the last MS66 RD selling for \$24,675 in April 2017. Good luck!

LOT 229

2C 1866 PCGS MS66+ RD CAC

This coin is not deservingly tied for FINEST graded-as it should be the absolute FINEST KNOWN for the date!

The quality is as HIGH END as you can get!

Remarkable surfaces are unlike so many you will ever see. The smoothness and cleanliness is unheard of. No question this coin sat somewhere for 152 years being carefully saved. A very good luster for the date (these do not come with booming cartwheel luster) beam from all over. This coin is 1000% original. Both sides are a SUPERB GEM Original faded Mint Red (there is NO toning). The eye appeal is totally fabulous!

PCGS 12, NGC 7, CAC 2. Here are two interesting price facts: A PCGS MS65 RB NO CAC, sold for \$24,675 in April 2017. An MS66+ RD PCGS NO CAC sold for \$15,275 in July 2017. The current Collector's Universe value is \$20,000. We can't imagine this important and possibly finest known 1866 RD 2C piece not selling for substantially more. Good luck!

LOT 230

2C 1867 PCGS MS66 RB CAC

Tied for FINEST graded in the RB designation. A brilliant mint luster shines through mellowing RED surfaces. The color is very eye appealing overall and the devices are sharply struck. We note only one or two tiny marks, but nothing is distracting or takes away from the strong visual allure. This date is EXTREMELY RARE in RED designation.

PCGS 16, NGC 14, CAC 9. No PCGS/CAC coin has ever sold in auction and the current CU value is \$2,650. Keep in mind a 66 RD would cost around \$15,000! Good luck!

The mirrors are bold and glittering and although toned down, there is an exceptional reflection. Shades of iridescent toning grace both sides, giving it a fantastic look.

Only 500 are thought to have been struck in the final year of issue. PCGS 6, NGC 5. The last coin was CAC approved and realized \$5,170 in the 2016 ANA auction. The market today is somewhat stronger, and the current CU value is listed at \$6,250. With just a single PR66+ BN finer in the category.

3CS 1857 PCGS MS66 CAC

One thing we know, due to our sister company Legend Numismatics being the #1 dealer in GEM Mint State 3CS pieces, is how rare every date and grade are. This coin is not only SUPERB, but it is extremely high end and beautiful!

Wonderful surfaces are clean, smooth, and do exhibit some faint Mint caused die clashing. There are NO hits or problems. A surprising strong luster beams from all over. Totally original album like toning of blue/purple/deep violet/pale green swirl all over. Every detail is sharply struck and actually does stand out. The eye appeal is really great!

PCGS 13, NGC 12, CAC 8. PCGS has graded only 3 coins higher. The current Collector's Universe value is only \$6,250. Two sold for \$6,500 in 2016. Considering how popular Mint State 3CS are and how pretty this coin is, we easily expect this coin to blow by that number before the gavel hits!

A lovely GEM three cent silver. Brilliant, satiny, untuned silver frost glows on both sides. Sharply struck from heavily clashed dies. A really neat looking coin that aside from the clashmarks (mint made), the surfaces are clean and free of any distracting marks. The eye appeal is very nice.

PCGS 31, NGC 28. The last NGC-graded MS67 to sell in auction realized \$3,760 in April 2017. That coin was deeply toned. This three cent silver is a very popular Civil War issue and among the finer pieces known.

3CS 1871 PCGS MS66 CAC

From the Chester Roche Collection.

A very low mintage issue, with only 3,400 struck. As usual on a lower mintage coin, the mint luster has a distinctive, reflective, semi-PL flash. On the surfaces, a lovely, original icy-blue, pearly iridescent toning that really pops when the reflection hits the light. The eye appeal is SUPERB on this PQ GEM! Housed in an OGH.

PCGS 25, NGC 35, CAC 16. The last one to sell in auction realized \$2,585 in the 2017 FUN auction, and prior to that, we sold one in our September 2016 Regency Auction for \$4,818. The current Collector's Universe value is listed at \$3,600. With a strong eye appeal and high end quality, this one will realize a strong price. It is bound for a high end Registry Set.

3CS 1866 PCGS AU50 CAC

VERY SCARCE in all grades as the 22,000 mintage would suggest! Totally original and eye appealing, this coin has the eye appeal of a higher grade coin, with very little perceptible wear. Thick toning on both sides adds to the eye appeal.

PCGS 6, NGC 2, CAC 1. No AU50 coins have ever sold in auction. In January 2012, a PCGS AU53 CAC sold for \$1,380. An underrated rarity that should delight any collector of circulated 3CS.

3CS 1863 NGC PF67 EX PITTMAN COLLECTION

From the Chester Roche Collection.

A SUPERB example of this very scarce Civil War era Proof issue, boasting an excellent pedigree: John J. Pittman.

A medium, multi-hued iridescent toning with beautiful teal-blue dominating with accents of gold and rose supporting the bold eye appeal. Only a few micro-lines are noted using a very powerful glass, noted only for accuracy. Ex David Akers' sale of the John Pittman Collection, Part 1, lot 412; earlier ex French's February 1961 auction, lot 635.

Only 460 Proofs were minted. PCGS 0, NGC 8. The last one sold in a bad market, where in February 2016 one sold for \$5,405. There is no Collector's Universe value. Keep in mind that anything finer, will be a five figure coin.

LOT 238

3CS 1863/2 PCGS PR66 CAM CAC

This out of this world SUPERB piece is among the top half dozen FINEST KNOWN. The quality is VERY HIGH END and beautiful!

Deep, strong mirrors beam all over. They really are crystal clear, smooth, and have a strong reflection, especially on the obverse. There is one area where there is a die chip on the obverse, as made, otherwise the surfaces are essentially FLAWLESS. Clearly this coin sat for a long time in the original holder, as the obverse is totally untuned, while the reverse is drenched in a wonderful moderate and totally original mix of iridescent, pastel colors. Every detail is sharply struck. The eye appeal is great!

Only 460 Proofs were struck. PCGS 4, NGC 0, CAC 5. Clearly a coin upgraded to 67 or something and did not get taken off the population report at CAC. The current PCGS Price Guide value is listed at \$42,500. There hasn't been an example sold in over three years, and only four coins are finer. Bound for one of the FINEST sets of three cent silvers. Good luck!

LOT 239

3CS 1863/2 PCGS PR67 CAM

This SUPERB GEM is tied for FINEST KNOWN! We really do not see why CAC has not beamed it, it really is a visual knockout!

Deep mirrors beam strong all over. The mirrors are crystal clear, smooth, and have a strong reflection.

There is one area where there is a die chip and a small line which can only be seen with a strong glass (and maybe why CAC did not beam it). Both sides are drenched with a beautiful and totally original mix of blue/green/gold/purple/pale violet colors. The toning in no way is dark or impairs the bold reflection to the mirrors. These colors would make a peacock jealous! Every detail is sharply struck. The eye appeal is great!

LESS than 460 were minted. PCGS 2, NGC 0. It is critical to note that the lone PCGS PR66 CAC sold for \$29,375 April 2015. The current Collector's Universe

Value is \$67,500. This is your ONLY opportunity to buy a full SUPERB GEM PR67 piece-the other is locked away on the Hall of Fame FINEST EVER Legend Collection. Opportunity is shooting off like a cannon here if you are a serious Proof three cent silver collector!

Among the FINEST known--NONE are graded finer at PCGS. Spectacular eye appeal! This GEM has a bold high end look with strong luster over smooth, nearly flawless fields. The devices were sharply struck up from heavily clashed dies.

PCGS 18, NGC 10, CAC 8. Do NOT let the pops fool you! These do not come up for sale with any frequency. The last one to sell was in the 2013 FUN auction--over half a decade ago--selling for \$1,645. The current CU value is \$1,500. Think about it this way; here is a totally GEM quality obsolete type, ranked among the FINEST, all wrapped up for \$1,500! Seems cheap to us!

LOT 241

3CN 1865 PCGS PR66 CAM CAC

An incredible SUPERB GEM! Deeply mirrored fields beam with intense clarity. The sharply struck devices are frosted and stand out with nearly fully DCAM contrast. Looking at the coin with a glass you see all sorts of interesting artifacts from the dies, including die lines, and repunching of the date, especially the 65. The eye appeal is awesome for the grade!

Only 500 proofs were struck of this first year of issue, and it is the RAREST date of the series in Proof.

PCGS 37, NGC 19, CAC 15. The most recent example to sell in auction realized \$6,300 in November 2017 and that was also a Doubled Date. The current PCGS Price Guide value is listed at \$5,900. There are only four coins finer, so if you are working on a superb set, this coin should be a contender! We know this coin will be a highlight in any set!

3CN 1868 PCGS PR67 CAM CAC

No question this coin is seriously a borderline PR67 Ultra Cameo. We can not imagine a finer 1868!

Superior deep mirrors beam intensely from all over. The mirrors are not only bold, but they also have incredible clarity and are outrageously clean. If you turn the lights off the you can still see the flash. If you twirl the coin, the mirrors look like a freshly formed sheet of ice. The contrast is bold. Miss Liberty and every detail are thickly frosted and are fully struck. The eye appeal is totally jaw dropping!

ONLY 600 were minted. PCGS 3, NGC 9, CAC 3. The last one to sell in auction brought \$9,106 in April 2017. We expect strong bidding on this fabulous piece. We cannot stress enough how rare and UNDERvalued coins this are. It is a top GEM from and obsolete Mint, it has only 600 graded, its 150 years old, etc. You're simply NOT going to see many others ever offered!

A popular Proof Only date. Both sides of this GEM show nice contrast between the frosted reliefs and the icy-reflective, chrome-like mirrors that beam all over. A delicate dusting of clear gold adds to the visual allure and attests to its originality.

PCGS 41, NGC 34, CAC 23. PCGS has graded 4 in PR66+ CAM and NGC has graded 2. The most recent PCGS/CAC PR66+ CAM sold in February 2017 for \$999, and the current CU value is listed at \$950. The market really has hit these beautiful, obsolete coins and building a set at today's levels would be an affordable challenge for any collector looking for a new direction.

A SUPERB example with a strong eye appeal! Sharply struck throughout, the mirrors have a lovely watery texture and both sides boast a delicate pastel iridescent blue that is just ever so gently dusted on the surfaces. The eye appeal is superb. The final year of the denomination, and very RARE finer!

PCGS 72, NGC 51, CAC 34. Two sold in February 2018 for \$900, but every other PCGS/CAC coin has sold for \$1,175 to \$1,586. The current CU value is \$950 and we know this jewel will be bid beyond that level. Only four have been graded higher at PCGS!

A VERY RARE Shield nickel variety, and this is the FINEST graded!

A frosty, satiny mint bloom shines around boldly struck devices. The overdate is seen under magnification. The obverse die has a number of die cracks which might explain the rarity of this variety. Light gold, lilac, and rose hues can be seen when rotated in a light. A few light lines and ticks can be seen under a glass, but are fine for the assigned grade.

PCGS 1, NGC 1. An NGC-graded example sold for \$18,800 in the 2017 FUN auction. This extremely rare variety is very popular among specialists in the series. Good luck!

 No question this coin is SUPERB in every respect!

Superior surfaces are super clean overall. There is one visible tick at 3:00 on the obverse by the stars. Besides having a strong luster, there are traces of semi prooflike mirrors. Both sides are a beautiful pale lilac/silver/pale champagne color. There are NO spots. Miss Liberty and the details are well struck. The eye appeal is great!

PCGS 41, NGC 16, CAC 13. PCGS has graded 26 in MS66+. The last PCGS-CAC piece to sell in auction prior to this coin brought \$14,100 in September 2014. Even a NON-CAC MS67 brought \$30,000 in February 2018. The forever demand/popularity of this date in the higher grades remains strong. This is actually a series you can build a set of in GEM.MS65/66. 5C 1918/7-D PCGS AU58 CAC

One of the RAREST of Buffalo nickels in any grade, and in GEM AU, as here, it is highly desirable!

The present coin has barely a trace of perceptible wear. Indeed, there is just a hint of friction that is toned over by a lovely rose and golden-tan coloration. A bold, brilliant underlying nickel luster brings the colors to the fore and accents the well struck devices. Clearly cared for since it was plucked from circulation by a sharp eyed numismatist, and its subsequent custodians have lovingly cared for it. Sharply struck and totally original, this example has a very strong eye appeal!

PCGS 38, NGC 26, CAC 7. The most recent example sold in February 2015, realizing \$25,850. There are only two other APRs are listed, representing one coin, selling for \$27,614 in March 2012. OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

5C 1923-S PCGS MS65+ CAC

Tied for SECOND finest certified by PCGS--this coin will certainly be a highlight in any advanced set of Buffalo nickels. It really is a delight to behold, and a real GEM example!

A smooth satin glow on both sides is just the beginning of how to describe this GEM. The strike which is often soft, is bold, with nearly all details fully rendered. The surface quality truly stands up to close inspection with a strong glass, revealing no marks or flecks of any consequence.

PCGS 61, NGC 35, CAC 11. There are only five MS65+s and three MS66. While the current PCGS Price Guide lists a value of \$21,500, this impressive GEM is finer than your average 65+. A non-CAC MS66 sold for \$32,200 back in September 2013. If you are putting together a top notch set of Buffaloes and do not want to wait for one of the 66s to appear, you should really consider this beauty. Good luck, as this opportunity will not repeat itself again anytime soon!

LOT 258**5C 1926 PCGS MS67 CAC**

An exceptional SUPERB GEM 1926 nickel with a beaming, vibrant mint bloom that accents ultra smooth surfaces and boldly struck devices. A beauty that looks as if it just came off the coining presses.

PCGS 46, NGC 16, CAC 11. There are 3 coins graded MS67+ finer at PCGS, the most recent of which sold for \$15,600 in a September 2017 auction. This magnificent coin sold in the 2016 ANA auction for \$4,465--well above the current CU value of \$3,00--a testament to the AMAZING quality and visual allure! If you are working on a world class set of Buffalo nickels, do not forget to bid on this GEM.

Can a Buffalo be a moose as well? If it is this SUPERB GEM, sure it can!

TIED for FINEST GRADED! Clearly this coin has been kept safe from any possible damage since the moment it came off the dies and boasts a wonderful eye appeal. The luster booms from all over accentuating the well struck devices. Except for some minor flatness on the Indian's hair, every detail is bold and chiseled! A clear, icy-powder blue and soft lilac and gold tone adds to this coin's SUPERB eye appeal.

PCGS 21, NGC 11, CAC 5. The Collector's Universe Price is \$6,000. This is the ONLY CAC-approved example to ever sell in auction, bringing \$6,756 in our December 2016 Regency Auction. If you are building a top set of Buffalo nickels bid liberally for this moose!

What a lovely Matte Proof Buffalo! Original surfaces with nice pastel accents give this premium quality GEM a great look. Sharply struck throughout both sides. What an awesome, short series to collect, especially when they look like this!

PCGS 153, NGC 124, CAC 45. Only four coins are graded MS66+, and the most recent one to sell brought only \$2,040 (seems a little cheep to us) the other two to sell brought \$2,468 and \$2,820. The current PCGS value is listed at \$3,000. Remember the last PCGS 67 CAC sold for \$6,000.

WOW! This coin has VERY deep, VERY reflective, bold, and beaming mirrors on both sides. The surfaces are impeccable in terms of cleanliness and the mirrors are the epitome of brilliant reflection, you cannot imagine a more eye appealing example! A touch of golden tone can be seen at the peripheries add to the outstanding eye appeal.

PCGS 38, NGC 60. Going back to 2003, there has been a very wide range of prices from \$4,113 to \$24,675. The current PCGS Price Guide value is \$7,250. There are just TWO examples finer, one in 68+ and the other in 69, neither of which have ever sold in auction. Bound for an amazing set of Proof Buffalo nickels!

5C 1939 REVERSE OF 1938. PCGS PR68 CAC

Among the FINEST graded examples of this early Jefferson nickel proof. Highly reflective mirrors beam like liquid mercury on both sides and have taken on a gentle, icy blue toning that really comes to life in a light. The eye appeal is SUPERB and very high end.

PCGS 13, NGC 3, CAC 8. We have had the pleasure of selling two other examples in the last two years, one selling in July 2017 for \$4,348 and the other in December 2016 for \$9,400. The current Collector's Universe value is listed at \$6,750. There are NONE finer, so this one is bound to find its home in a very high ranking PCGS Registry Set. Who knows when the next one will appear!

5C 1942-P TYPE 2. PCGS PR66 CAM CAC

We can't say enough WOW's to describe this monster WOW coin! We are shocked that PCGS did NOT + this piece.

Sensational mirrors beam boldly from all over. The mirrors are crystal clear and have zero impairments. When you twirl the coin, you see an electric rolling liquid mercury look. This coin does have tremendous flash. Jefferson and all of the details are thickly frosted and are fully struck. Coins like this are few and far between. The eye appeal crazy!

PCSG 9, NGC 1, CAC 7. The current Collector's Universe value is a low \$1,850. In PR67 Cameo CAC one sold for \$14,100 in 2014 and probably would bring \$20,000 today. In our very strong opinion, these are vastly UNDER-valued (especially looking like this)!

LOT 264

H10C 1803 SMALL 8. PCGS AU55

LM-1- the only die marriage for the Small 8 variety. This is a high end example of this RARE R-6 variety. Rarely ever offered in high grade, this freshly graded example ranks among the FINEST known examples.

Indeed, PCGS has only graded two coins finer, including the D. Brent Pogue coin which is AU58 and a MS63 that has never sold in auction.

Medium tan, olive, slate, gold, and russet tones are seen on both sides, with accents of original mint bloom that comes out when the coin is tilted in a light.

Nicely struck up on both sides, there is only a touch of weakness on the lower reverse dentils. The obverse has a doubled profile and evidence of die clashing.

We note only a few old scuffs that are mostly hidden by the pleasing original patina and they do not detract from the overall outstanding eye appeal of this fresh to the market rarity.

PCGS 3, NGC 1. PCGS CoinFacts estimates about 30 examples survive in all grades, and is UNIQUE currently in Mint State. The Pogue AU58 that sold in

May 2015 for \$49,938 is also the NGC MS61 that sold for \$86,250 in April 2009. Sharper than the other PCGS AU55 that sold in November 2016, this lovely AU55 will see spirited bidding from specialists when it crosses the block. This is the first time it is appearing in auction, after being discovered in a small grouping of coins in an old estate holding. If you are a serious collector of Early half dimes and need a high grade example of this VERY RARE Red Book variety, be sure to bid liberally to take home this prize! Good luck!

**LOT 265****H10C 1839 NO DRAPERY. PCGS MS65 CAC**

Totally original and HIGH END for the grade! This jewel has a remarkable look for such a teeny coin! Richly toned with lavender-dove, slate, and rose patina on ultra smooth, GEM quality surfaces. The devices are crisply struck up and offer full definition. A very nice early Seated half dime housed in an OGH.

PCGS 23, NGC 36, CAC 8. The most recent example to sell in auction realized \$1,763 (2017 FUN Auction) and the current PCGS value is \$1,750. A lovely GEM for any type set or Seated half dime set!

**LOT 266****H10C 1839 NO DRAPERY. PCGS MS66 CAC**

Ex Arthur E. Young.

An impressive, high end GEM with a strong silver luster that glows below attractive iridescent and gold toning. The details are sharply struck and the fields are smooth, free of any serious marks. There are few spots of darker color. The eye appeal is excellent!

PCGS 21, NGC 20, CAC 13. The last PCGS/CAC coin to sell in auction was the one in our December 2015 sale, ex Simpson Collection, that realized \$4,230. Other APRs for PCGS/CAC coins are: from October 2015 (Gardner) at \$5,405 and one sold in July 2014 for \$4,700. The current PCGS value is listed at \$4,500. VERY RARE any finer, this is a great type coin for any collector!

H10C 1850 PCGS PR64 CAC EX PITTMAN

This is a remarkably RARE and of GEM quality! Boasting a classic look, as well as a classic pedigree, this 1850 Proof half dime has an incredibly awesome and original look!

Both sides are have a bold flashy look to the fields. The sharply struck devices really do stand out with razor sharp definition. Shades of blue, teal, green, slate, and gold glow when rotated in a light. Both sides show heavy die polish lines are visible, showing the care taken to prepare the dies prior to striking the 7-10 Proofs. The present coin is among the FINEST known, of four graded by both services and it is quite possible that this one is also graded by NGC.

PCGS 1, NGC 1, CAC 1. This coin sold for \$33,000 in the October 1997 sale of the John Pittman Collection.

He bought it in 1952 from David Bullowa. More recently as an NGC PR65, it sold for \$57,500 as part of the Kaufman Collection of Early Proofs in the 2008 FUN auction. A different NGC PR65 sold in January 2009 for the same \$57,500. This is an EXTREMELY RARE opportunity to acquire a very important early Proof half dime rarity. Good luck!

10C 1798 LARGE 8. PCGS VF25

JR-4. A scarce, popular early dime.

Displaying an even wear pattern, which is often NOT the case on these early issues. Medium gray color is balanced across the surfaces. Generally wholesome looking, close inspection reveals a few ancient scratches and hairlines, but are taken into account by the grade.

PCGS 8, NGC 9 (in all VF grades). The most recent one was struck from an earlier die state without the crack from Y to Liberty's nose. That coin realized

\$3,263. Prior to that, a PCGS/CAC coin sold for \$4,113 in April 2014. The current Collector's Universe value is listed at \$4,000. These infrequently come up for auction in these moderate collector grades, take advantage of the opportunity.

10C 1809 PCGS MS63

From the Midwest Collection.

The 1809 dime represents the first year of issue of John Reich's Capped Bust design on the denomination. Only 51,065 were struck, and they clearly went directly into circulation, where they disappeared. Today, the experts at PCGS CoinFacts estimate about 20 coins survive in all Mint State grades!

The present coin is fully CHOICE! Richly toned with mottled blues, roses, and oranges on both sides. A rich, underlying luster brings out the subtle hues and glows around the sharply struck devices. The eye appeal is excellent.

PCGS 4, NGC 3. Want evidence to the rarity of this date? The D. Brent Pogue Collection lacked an example--think about that, in the decades that the Pogues were collecting, they could not find a high grade piece they liked! The A.J. Vanderbilt Collection, sold in March 2018 was the first PCGS MS63 sold at auction since 2003! That coin brought \$11,700. The Gardner Collection had the Pittman coin, (a PCGS/CAC MS64) that sold for \$31,725 in June 2014. What a great rarity for the early dime collector! If you need an example for your collection, do NOT let this one pass you by!

LOT 270**10C 1829 SMALL 10C.****PCGS MS65 CAC**

A glorious JR-7 in GEM, clearly among the **FINEST** of the variety, as well as the date. Generally the surfaces are razor sharp in strike with virtually every detail is rendered to nearly full definition. A pale pearly, champagne tone graces both the obverse and reverse, brought out by a satiny luster. There is a lint mark on the reverse that will serve to forever identify this piece. Since proofs were struck of this date, it is not surprising the die shows a lint mark, where the dies had been polished prior to striking. This GEM has an amazing eye appeal!

PCGS 6, NGC 1, CAC 5. Prior to selling in our Regency Auction in December 2017, this coin has been off the market since November 2011, where it realized \$7,475 and more recently only one other sold in auction, realizing \$7,638 in a May 2013 auction. Very few coins are graded finer, and the MS66 Pogue coin sold for \$18,213 in February 2016. In MS65, the current Collectors Universe value is \$8,500. If you are collecting Bust dimes by variety, or just need a GEM for your type set, this one will certainly fit both!

**LOT 271****10C 1854-O ARROWS. PCGS MS65**

A satiny GEM that glows with a pearlescent brilliance in the smooth fields. Sharply struck throughout, the devices are crisply defined from an expert blow from the dies. Accents of original pearly iridescent toning in lavender-pale gray- stealy teal add to the visual allure.

While the mintage of more than 1.75 million might suggest this being common, very few were saved at the time of issue, and very few GEMS survive for collectors to enjoy today.

PCGS 9, NGC 10. The current PCGS Price Guide value is listed at \$5,500 and the most recent PCGS coin to sell, a CAC-approved GEM brought \$6,000. Only two coins are graded finer at PCGS, a single coin at each MS66 and MS66+. What a great coin for the collector or Seated dime specialist!

Tied for FINEST graded at PCGS, and boasting the greatest pedigree in American Numismatics, Eliasberg! The 1860-S dime represents the final issue with Stars on the obverse, and featured a low 140,000 mintage--most of which went into circulation; Mint State survivors are incredibly RARE!

A delicate, clear-gold overtone is brought out by a vibrant satiny luster. Crisply rendered devices show full definition to Ms. Liberty and the wreath. We note, under a strong glass some minor contact marks. The eye appeal and pedigree cannot be beat! Housed in an old green tag holder.

PCGS 2, NGC 0, CAC 2. The other coin was the Bob Simpson Collection, coin that sold for \$37,600 in May 2015 as part of the Gene Gardner Collection. The current PCGS value is listed at \$36,000 and we think this coin will hammer for more than that! A real prize for the advanced Seated dime collector--remember NONE are graded finer at PCGS!

VERY HIGH END and just sensational!

Remarkable surfaces are super satiny and are super clean. Even using a strong glass will net you NO imperfections. You will see some light die clashing. A full booming luster beams from all over. Both sides are gorgeous satiny original white. Miss Liberty and the details are frosty and are well struck. The eye appeal is really sweet!

PCGS 7, NGC 12, CAC 3. We see no records of any PCGS MS66 ever selling at auction. We can ramble on forever how tough and date and grade this coin is. Opportunity knocks loud here!

Snow white frosted devices boldly stand out against the deep, icy mirrors that beam with a bold depth and clarity. A dusting of light white iridescence blends with a clear gold that creates a strong visual allure.

Only 460 Proofs were struck. PCGS 10, NGC 11. The last one sold in December 2015 for \$1,528. The market now is a little stronger, and the current PCGS value is listed at \$2,100. Still seems too cheap for a popular Civil War GEM with such a low mintage to be valued so low. Now is a great time to put coins like this away!

LOT 274

10C 1878-CC PCGS MS62 CAC

The final dime issue from the Carson City mint saw a mintage of 200,000 and PCGS CoinFacts estimates that in all grades 700 survive today, with only 100 or so in Mint State. The present coin has a bold, flashy luster with traces of PL reflection in the fields. Deeply toned, we note only a few stray marks that account for the MS62 grade, and the quality is very nice, thus the CAC-endorsement.

PCGS 5, NGC 4, CAC 1. The most recent PCGS MS62 to sell in auction was in May 2005 for \$1,495. Since then a PCGS MS61 (no CAC) sold in July 2007 for \$2,415 and a PCGS (no CAC) sold for \$2,468 in April 2014. Essentially SUPERB in EVERY WAY!

A very impressive example of this conditionally rare Mercury dime. Sharply struck, the bands are fully separated, and the satin luster billows from under very attractive old album toning at the rims. This exceptional GEM is among the top examples of the date certified by PCGS.

PCGS 27, NGC 9, CAC 7. Only three 66+ FBs appear on the PCGS Population Report, and the most recent MS66+ FB CAC to sell brought \$9,300 in February 2018; this coin realized \$9,694 in our September 2016 auction. Only 5 MS67 FBs are on the population report and the most recent of those to sell was NOT CAC approved, and realized \$23,500 in August 2012. Even with the aid of a powerful glass we are unable to find even the tiniest tick or frost break anywhere. You can study the surfaces for hours and not find any flaw worthy of mention, anywhere! Needless to say this coin is clearly worthy of its lofty grade and its technical quality is off the chart!

A touch of toning graces the right obverse field. The eye appeal is very high end. It really is amazing to contemplate that so many SUPERB gems have been graded, considering that the Stock Market crashed in October, setting off the worst financial depression in history, and a dime had real value (consider the song "Brother, Can You Spare A Dime").

PCGS 87, NGC 17, CAC 25. Prior to the two most recent sales, these were selling for \$2,000+ in auction and the current PCGS price Guide value is listed at \$1,700. Only 7 are finer, and anything finer will be much higher in price---a great coin for any advanced set.

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

25C 1825/4/(2) B-2. PCGS MS65 CAC EX POGUE

This is the famed GEM Eliasberg-Pogue B-2.

Described in the first part of the D. Brent Pogue sale as follows:

"Bright powder blue peripheral toning is present on both obverse and reverse, the obverse center chiefly brilliant with a blend of deeper silver gray and faint rose, while the reverse is a warmer combination of rose and gold. Both sides are thoroughly lustrous, showing strong cartwheels, and soundly struck, with fine details from center to rim. Some light abrasions are noted on Liberty's cheek, and some light milky encrustation is hidden among the reverse legend and denticles at MERICA. An important specimen of this die variety, struck from the perfect state of the dies."

Brent Pogue Collection, Stack's Bowers Galleries/Sotheby's, May 2015, lot 1075, which realized \$32,900.

Three pairs of dies were used to strike quarters dated 1825. For years, these different dies were identified as 25/2, 25/3, or 25/4. More recent study has revealed that these were struck using a left over die with the 1824/2 overdate. The B-2 variety is the more "common" of the 3 die pairings, but with its great provenance and lofty grade, this coin is anything but common!

PCGS 2, NGC 4, CAC 2. There are two examples graded MS66 finer at PCGS. This is a very rare opportunity for any advanced collector to have a second chance to purchase a Pogue coin in the after market; it is a known fact that the vast majority of the coins in the Pogue collection sold to collectors. It may well be a long time until you have another chance to own a GEM Pogue quarter.

B-4. Beautiful, and of essentially GEM quality. Brilliant underlying luster blooms from below a layer of very pleasing iridescent toning. Shades of teal-blue, rose-gold, and olive-gold color blend over smooth, problem free, lustrous surfaces.

Sharply struck from a later state of the dies, we note a number of extensive die cracks on the reverse. A couple of teeny ticks are all that keeps this beauty from a full GEM grade.

PCGS 42, NGC 40, CAC 11. This is one of only two coins graded MS64+ at NGC, the other being the Newman coin that sold in November 2013 for \$17,038. Collector's Universe lists a current value of \$12,500. VERY RARE any finer, this is a great coin for a Mint State type set!

**LOT 288****25C 1861 PCGS MS65**

Totally ORIGINAL and wonderfully toned! A GEM example from the first year of the Civil War. Sharply struck with fully defined devices. Teal and cobalt blue tones drape the periphery, while an apricot-champagne-golden-orange dominates the central portions. The visual allure is wonderful and we are not quite sure why CAC did not sticker this GEM.

PCGS 41, NGC 30. The most recent one, at \$1,800 was a very weak sale, as ever other example since the year 2000 examples have sold in the \$2,100-\$3,600 range! The current Collector's Universe value is listed at \$2,950.

25C 1847 PCGS PR66 CAC

Legend Rare Coin Auctions is proud to have been chosen to auction this **FINEST KNOWN** extremely rare Proof Seated Quarter. We consider this coin a real numismatic treasure. There is no question we rank it **VERY** high end.

This is one of those coins where there are far more dings on the holder than the coin (they are not horrible at all).

The mirrors are outstanding and are really deep. The mirrors also display incredible clarity and cleanliness. The flash is tremendous. When you twirl the coin, the mirrors look like a fresh sheet of ice glistening in the sun. We think the **ONLY** reason this coin is not a PR66+-there is a touch of slight irregular toning on the obverse. **ALL** the toning is 100% original. The obverse has shades of blue/gold/pale violet/deep tangerine while the reverse is more a greenish blue/gold color. We do not believe this coin has ever been messed with Miss Liberty and the details are frosty and are fully struck. There is some moderate contrast. The eye appeal is adorable!

TOTAL MINTAGE: 10! That is **LESS** than an 1894-S 10C or a 1804 \$1. PCGS 1, NGC 1, CAC 1. There are **NONE** finer. The current Collector's Universe Value is \$60,000 It's funny how they come up with these numbers when non have sold via auction and the total mintage is only 10. We expect a record to be set here. Good luck!

LRCA is proud to offer the FINEST DCAM 1877 quarter that exists. Crack out your darkest sunglasses, you will need them to protect your eyes from the bold, blazing flash! The mirrors are deep, smooth, highly reflective and have an exceptional clarity. Contrasting against the mirrors are the amazingly

frosted devices that stand out in full 3-D effect. Both sides are totally untuned, and have zero haze anywhere. Clearly this immaculate SUPERB GEM has been lovingly cared for since the moment it came off the dies! Even using a strong glass we cannot find any singularly distracting post mint issue (a few mint made die polish lines and traces of planchet roughness can be seen on the reverse but are naturally occurring during the minting process and do not detract from the wonderful look).

Only 510 Proofs were struck. PCGS 1, NGC 0, CAC 1. The current PCGS Price Guide value for a regular PR66 DCAM is \$10,000 and is unlisted in 66+ DCAM. We challenge you to find a bolder, more attractive 1877 quarter—we doubt with \$25,000 you could! Good luck!

25C 1911-S PCGS MS67+ CAC EX ELIASBERG

A SPECTACULAR, SUPERB GEM example that is arguably the FINEST KNOWN 1911-S quarter that exists!

Immaculate surfaces are the epitome of sheer perfection. Clearly this coin was lovingly cared for by whoever collected it before ending up in the Eliasberg Collection (likely John Clapp, who would have purchased it directly from the San Francisco Mint). The surfaces are free of any marks, indeed, there are no visible imperfections even using a powerful glass. Delicate, pearly iridescent patina graces both sides and is brought out by a bold, satiny luster that truly glows. The eye appeal is very high end for sure!

PCGS 9, NGC 6, CAC 6. There are only four in MS67+ with NONE FINER. This coin was NGC MS68, the sole finest graded at either service. When it sold in the April 1997 Eliasberg Sale, it realized \$9,900--just showing you how high end it is. One of the most popular KEY date issues of the 20th century, the 1916 Standing Liberty quarter was struck to the tune of only 52,000, all produced in December 1916. The first design featured a bare breasted Liberty, which was changed part way through 1917, where she was covered up with chain mail.

In demand from collectors in all grades, this very pleasing, totally original AU53 has a great look. Well struck, only the slightest hint of friction appears on the highest points. A delicate golden tone clings to both sides, attesting to originality and adds to the visual allure.

PCGS 50, NGC 14, CAC 7. The current PCGS Price Guide value is listed at \$10,250 and the last PCGS/CAC AU53 sold in April 2017 for \$10,575. This example has a similar look and is worthy of a strong bid for sure!

25C 1916 STANDING LIBERTY. PCGS MS66 FH CAC

This coin is totally original and is totally a SUPERB GEM!

Outstanding surfaces are as fine as you can dream of.

We used a strong glass and looked really hard and found NO imperfections of ANY size, ANY where. It clearly appears this coin left the bank 102 years ago and just sat somewhere safely undisturbed ever since.

The luster is good and can be seen easily. Both sides are blanketed by a totally original moderate mix of pale champagne/golden brown colors with some russet borders. No question this coin has never been dipped or messed with. Most important, Miss Liberty and the details are well struck. You do not need a glass to see the rivets in the shield or the full head. The eye appeal is great!

PCGS 19, NGC 19, CAC 5. The last PCGS CAC piece to sell in auction brought \$54,050 in January 2017. Prior to that, no PCGS CAC pieces had been sold via auction since 2012.

The 1919-S is a very RARE date in GEM grades, regardless of designation. The presently offered example is boldly lustrous with a fiery vibrance in the fields that accent the nicely struck devices. The shield is nearly fully struck up with all brads visible. Liberty's head is very close to full, with just some slight weakness in her hairline. A delicate dusting of iridescent toning, gold dominating on the obverse, and the similar golden hue blends with peach and icy-blue on the reverse. The eye appeal is wonderful and both sides are clean and free of any distracting marks.

PCGS 39, NGC 31. The present PCGS Price Guide value is listed at \$7,750 and the most recent example to sell brought \$8,400 in a November 2017 auction. The two prior to that sold for \$7,050. A totally original "gem" XF example of this early overdate Draped Bust half dollar. This is the Overton-102 variety, considered to be Rarity-3, and is in the Overton/Parsley Condition Census. Beautifully satiny for the grade, with pewter, silver, golden tan, and slate-blue highlights. We note some tiny marks in the fields, but otherwise the surfaces just show light, honest wear. Exceptionally well struck for the issue, and with this look, we expect considerable participation from the Bust Half Nuts when this piece crosses the block.

PCGS 22, NGC 15. The current PCGS Price Guide value is listed at \$5,850. A coin with some distinct marks sold in April 2018, selling cheap for \$3,480. This coin has a far better eye appeal. 50C 1807 DRAPED. BUST NGC AU58

A lovely, high Condition Census O-103. A brilliant frosty luster glows on both the obverse and reverse. A dusting of pale pearly-silver, gray and gold toning takes up the majority of the surfaces, while the peripheries, especially on the right sides show a deeper rose, gold and light blue iridescent toning. As typical for the date, there is some light weakness of strike in the center of the obverse, but the corresponding area of the reverse is fully rendered by a precise blow from screw press. Struck from a heavily clashed state of the dies, but before the dies began to crack, as listed for O-103a.

PCGS 68, NGC 77. We believe this to be the Queller coin, listed as CC#2 in the Spring 2018 revision of the AMBPR. The two most recent NGC AU58s were a different variety, both selling in 2014 for \$6,463. The current PCGS Price Guide value is listed at \$7,250. Keep in mind, these are very scarce in Mint State.

Among the finest O-105s, ranking near the top of the Condition Census. Richly toned with steely blue overtones with gentle rose toning on both sides. The bold underlying luster really shines in a light adding to the excellent eye appeal. The strike is exceptionally bold, especially for an 1807, with really crisp and sharply defined devices. Only under with a strong glass can you find any tiny lines, which account for the grade, but the eye appeal is amazing!

PCGS 16, NGC 18. EXTREMELY RARE any finer. The current PCGS Price Guide value is \$29,500 and since this coin is fresh to the market, we know that level will likely be exceeded. Remember that no MS65 has sold since 2005 and a 65+ sold for \$141,000 in April 2016. This near-GEM is worthy of a great type set or inclusion in an amazing early half set!

A very scarce overdate, one of the most popular in the series, as it is so evident to the naked eye; seemingly the die sinker did not even attempt to efface the 3 from the die before punching the 7 in.

While not rare, the O-101 is always in demand, but it is a rarity in Mint State. The present example is deeply, yet attractively toned. A gleaming luster glows from under the toning, providing a wonderful backlight and bringing the surfaces to life. The devices are sharply struck with full definition to Liberty's hair

curls, stars, and eagle. Some very tiny ticks on the obverse blend in, and are not distracting in anyway, or take away from the grade. For a 62, the eye appeal is strong, especially since so many 17/3s we have seen in the past have been dipped out and flat.

PCGS 2, NGC 6. The last PCGS MS62 sold in May 2001, so that APR is irrelevant in today's market. More recently a PCGS MS61 sold for \$8,813 (March 2015) and we sold a PCGS MS63 in September 2016 for \$27,025. This coin will sell in that range, and very likely for more than the \$10,500 that Collector's Universe currently lists as the value. 50C 1834 LARGE DATE, LARGE LETTERS. PCGS MS65 CAC

O-102. A lovely, totally original GEM that ranks high up there in the condition census. Nicely struck with only a touch of high point flatness in the usual areas of the Bust, cheek, and top of the cap.

Dove, slate, and battleship iridescent hues gracefully blend over clean, satiny surfaces imparting a strong eye appeal.

PCGS 10, NGC 5, CAC 6. No CAC-approved MS65 has ever sold in auction. A PCGS MS65 example of O-102 in a first generation OGH sold in January 2014 for \$18,213. The current PCGS Price Guide value is listed at \$8,500 and there are only five coins graded finer at PCGS. What a neat early type coin for a GEM set!

50C 1829 NGC PF63 CAC

O-111a. The only PROOF known from these dies.

As anyone who has studied early proofs knows, Capped Bust half dollars are exceedingly rare and highly desirable. These were struck to such a tiny amount that some dates have fewer than 5 known in all grades. There are perhaps five or six 1829s known, across five different Overton varieties.

The present coin is highly reflective and very high end for the assigned grade. A vibrant, watery flash really captures a wonderful reflective brilliance under a dusting of light blue, gold, rose, and subtle pastel hues that really create a strong eye appeal. Clearly, as a proof, the details are extremely crisp in strike and stand out vividly. A very impressive rarity, one that will delight any collector of type coins or early proofs.

PCGS 1, NGC 2, CAC 1. This coin has been sold in several sales, going back to Stack's December 1998. Its most recent appearance was in April 2017, where it realized \$39,950. NOTE: there is an APR from April 2011 where it sold for \$48,875. With a coin this rare, and this high end, we anticipate very strong bidding for sure! This coin really does deserve a spot in a very prominent collection of coins! Good luck!

A magnificent example of this conditionally rare date. While over 2 million were produced, most saw the ravages of antebellum commerce; extensively worn examples can be found quite easily, but high grade examples are very few and far between. Repunched Date, FS-303. The present example is highly lustrous with distinctively prooflike nature in the fields. The PL mirrors are flashy and smooth. The strike is razor sharp in definition. Both sides have a great patina and boast a totally original look. Also impressive is the pedigree: Grant Pierce Collection, Stack's, May 1965, lot 858; Stack's Session of

Auction '89, lot 1725; Queller Collection, Stack's, October 2002, lot 488; A.J. Vanderbilt Collection, March 2018, lot 10200.

PCGS 9, NGC 7, CAC 4. This coin brought \$7,200 in March 2018, and the PCGS/CAC coin before that was the Richard Jewell coin sold in the 2013 ANA auction for \$8,812. Only six coins are finer at PCGS. What a great coin for any advanced collection of Seated halves.

50C 1861 C.S.A. SCOTT RESTRIKE. MS64 CAC

A very impressive example of this popular and historic piece. Produced in 1879 when J.W. Scott, a prominent numismatist at the time purchased the original Confederate half dollar die from Ebenezer Locke Mason. Mason, in turn, purchased it from the former chief coiner of the New Orleans Mint, Dr. B. F. Taylor. Upon his purchase of the die, Scott produced 500 Confederate Half Dollar Restrikes by planing the reverse off 1861-dated half dollars. Scott then produced 500 of these "store card" tokens in white metal. This is one of the better known examples of the issue. A bold, flashy, Prooflike, luster beams from all around sharply struck and fully frosted devices.

PCGS 19, NGC 12, CAC 5. The most recent example to sell in auction realized \$5,640 in a very weak FUN auction in 2015. Prior to that, it had sold for as much as \$7,475. VERY RARE any finer!

50C 1873 ARROWS. PCGS MS65

A coinage act in 1873 increased the weight in silver dimes, quarters, and half dollars, as massive amounts of silver poured from the mines in Nevada, coming from the Comstock Lode. This same act killed the silver dollar and introduced the Trade dollar, all ways of dealing with the flood of silver. As a way to indicate the new weight standard, arrows were placed at the date, as had been done twenty years earlier.

While not rare in an absolute sense, these were not saved in GEM grades. Frosty satin luster glows from below a layer of very pleasing toning, especially on the reverse. The devices are sharply struck up and the surfaces are of generally high quality with just a few teeny ticks noted under a strong glass, none of which hurt the wonderful naked eye appeal.

PCGS 15, NGC 5. PCGS coins have sold between \$8,000 and \$13,000 between 2011 and 2017 and the current PCGS Price Guide lists a value of \$12,000. Excessively RARE any finer, and keep in mind that the next grade up will cost \$32,000+. It may be a while before another GEM comes up for sale! Good luck!

An incredible, SUPERB CAMEO GEM that ranks among the absolute FINEST graded at either service. Here is a coin that has an impressive look. Deep, intense mirrors beam with a bold clarity. Both sides look like a perfectly polished piece of glass! Ms. Liberty and all the details are razor sharp in strike and are fully frosted, standing out with exceptional contrast from the icy, beaming mirrors. The obverse has a bold crescent of azure toning that adds a vivid touch of color. The eye appeal is amazing!

Only 800 Proofs were struck. PCGS 2, NGC 3. This is the ONLY 66+ CAM graded by either service, and NGC and PCGS have only each graded one coin finer. This coin has only had three owners in nearly a century, and it has been nearly five years since the last time it sold, realizing \$18,213 in November 2013.

Why in the world did PCGS not + this coin? We unhesitatingly grade it a PR66.8+. Its closer to a 67 than a 66 for sure!

Incredibly deep mirrors are really close to ultra status. The mirrors are remarkably clear and are exceedingly clean. We used a strong glass and found nothing even tiny to report. When you twirl the coin the mirrors look like a watery sheet of aluminum. Pretty neat. We do believe this coin is totally original. The contrast is above average and is bold. Both sides have identical and original gorgeous rim toning of blue/violet/gold bands by the rims. Some light violet/gold bleeds into the parts of the centers. The eye appeal is stunning!

ONLY 1000 were minted-but most were melted due to poor sales. PCGS 5, NGC 3, CAC 4. Surprisingly PCGS has graded 4 (1 PR66+, 2 PR67) coins higher. This coin does not compare to many that have been graded. We are NOT hyping it, this coin has THE look!

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

Beginning in 1907 there was a rebirth of coinage designs. While gold was the focus then, in 1909 the cent was redesigned; 1913 the nickel. It was not until 1916 when silver designs were changed. Barber's Liberty head, which appeared on all dimes, quarters, and halves since 1892, were now replaced, and Adolph Weinmann's beautiful, graceful depiction of Liberty striding toward a rising sun.

The present GEM is boldly lustrous with blazing surfaces. Nicely struck devices are generally fully defined with full outlines to Liberty's hand and full details in her drapery. Mostly untoned, there is a touch of the palest, clear gold visible when the luster hits at certain angles. Here is a SUPERB GEM 43-D with a very bold, strong luster and total originality with a dusting of iridescent toning and a band of magenta, sunset orange, and crimson at the obverse rim. Sharply struck and beautifully preserved.

PCGS 338, NGC 308, CAC 162. While the current PCGS value is only listed at \$635, this marvelous SUPERB coin sold for \$1,293 in the 2017 FUN auction a clear indication of its high end status! Fewer than two dozen coins are graded higher, and this one has such a great look, that it will fit nicely in any SUPERB set!

First, we are not really sure why CAC did not bean this coin. The devices are sharply struck up and the surfaces beam with a bold mint luster. As to be expected, if the A.B. Collector owned this coin it must have some beautiful toning! A pastel blue, gold, and rose band rings the obverse and frames a brilliant silver center. Very eye appealing indeed!

**LOT 351****50C 1946-S PCGS MS67 CAC**

From the Huron Hills Collection.

A sharply struck SUPERB 46-S Walker with strong mint luster that deeply shimmers in the light. Arcs of toning at the rim suggest long time storage in an album where this coin lovingly rested before certification. The blue tones really stand out against the more burnt sienna orange accents. The eye appeal is very high end.

PCGS 77, NGC 76, CAC 33. This is the coin that sold for \$1,998 in October 2016; earlier it sold for \$4,700 in November 2012. Only four coins are graded finer. We suspect that this SUPERB GEM will entice strong bidding from advanced toned Walker collectors.

50C 1936 PCGS PR65 CAC

After a hiatus of 21 years, the mint resumed striking Proof coins for collectors in 1936; only 3,901 sets were struck. Watery mirrored fields have a strong reflection and good clarity that surround sharply struck devices. There is a pearly iridescence on the obverse with accents of gold. This GEM has a very nice look.

PCGS 532, NGC 360, CAC 93. The last two PCGS/CAC coins realized \$2,820 (April and June 2017), and the current CU value is listed at \$3,000. Always popular as the first Proof Walker struck, this is neat coin to start a set, 1936-1942.

50C 1936 PCGS PR67

A dramatic SUPERB GEM 1936 Proof Walker! Liberty is striding toward a beautiful sunset as evidenced by the intense toning on both sides. Clearly this SUPERB coin sat unmolested in an old album or other place where it was allowed to sit and acquire the amazing colors. The mirrors are very flashy, offer a real depth and clarity and do not display the typical haze. The eye appeal is amazing!

PCGS 48, NGC 83. There are only five coins graded finer. The last one to sell in auction realized \$6,600 in the 2018 FUN auction, but it had a much more typical look for the date. The current PCGS Price Guide value is listed at \$8,500. It would not be a shock if this coin's outstanding eye appeal vaulted it to a level beyond that before the hammer falls.

A glorious SUPERB Proof Walker. Both sides are delicately toned with iridescent hues that are deeper gold at the rims. The mirrored fields are watery and smooth, standing against the sharply struck up devices. The eye appeal is excellent, and the quality is attested to by the CAC bean of approval and the PCGS + grade.

PCGS 269, NGC 252, CAC 116. There are only 21 graded PR67+ at PCGS, the most recent selling for \$4,260 in April 2018. The current CU value is listed at \$3,100. Remember fewer than a dozen examples are graded finer and a PCGS PR68 is valued at \$15,000! A totally original superb coin will fit nicely in any high end set.

Outstanding quality in every way! This cataloger is drooling over this marvelous GEM. Deep mirrors are boldly reflective and have great flash. They are also mostly crystal clear with just some pale iridescent toning and have zero imperfections. Miss Liberty and the details are generously frosted and have razor sharp strikes. The eye appeal is tremendous--totally worthy of its lofty grade.

PCGS 46, NGC 97, CAC 21. The last 1939 PCGS PR68 CAC to sell in auction brought \$5,170 in April 2017. The current PCGS price is \$4,500 and keep in mind that we sold the ONLY PR68+ (the finest) for \$19,388 in our July 2017 Regency Auction. This coin will be a great fit into any top proof Walker set! A lovely, original example with flashy, watery mirrors that beam from all over. A hint of iridescent toning graces the peripheries on both sides, and even under a strong glass, we cannot find anything worthy of mention. The eye appeal is very nice and better than usually encountered for sure.

PCGS 390, NGC 479, CAC 194. PCGS has graded 26 in PR67+ and NGC has graded 25 in 67+. Fewer than 30 coins have been graded finer at PCGS. The last PCGS/CAC example realized \$1,680 and before that one brought \$1,800 in November 2017. This would make a wonderful addition to any Proof Walker collection. Good luck!

Tied for FINEST graded at PCGS, the 50-D is not a rare coin in the broadest sense of the word, but with the FBL designation it is very scarce in 66 and unknown in any grade higher than MS66+ in the FBL designation.

A band of beautiful sunset toning is seen at the periphery, deepest and most striking at LIBERTY. A billowy satin frost is seen on both sides, accenting the toning, bold strike, and generally clean surfaces. The eye appeal is very strong.

PCGS 17, NGC 3. Neither service has graded any coin finer. The most recent example sold for \$3,840 and there records approaching the low five-figures. The current PCGS Price Guide value is listed at \$5,250. Bound for a high ranking Registry Set of Franklin halves.!

WOW! A beautiful and totally fresh to the market GEM that is simply beyond SUPERB quality! Our consignor purchased an original Proof Set, and this was the half dollar in the set. It is remarkable that such wonderful coins are still "out in the wild." Deep, icy mirrors beam from all over. The totally original toning starts as a pale white/silver iridescent hue with clear, baby blue accents depending on the angles. At the periphery, a pastel green and pink frame both sides, really bringing out the sharply struck devices.

PCGS 27, NGC 25, CAC 28. The last one to sell realized \$5,288 in February 2018. Prior to that, one sold in June 2017 for \$16,450. The current PCGS Price Guide value is listed at \$6,500. There are only two PCGS PR68+s graded finer. As one of the prettiest and most original examples we have seen in some time, we know it will bring a very strong price when the hammer falls! Resting comfortably at the top of the PCGS Population Report is this SUPERB GEM, tied with three others for the distinction of FINEST GRADED.

Beautifully toned on the obverse, shades of pale olive blend into a rich orange and golden-rose palette of color. Highly lustrous and displaying sharply impressed details, this 52-D has a superb eye appeal. Even using a powerful loupe all we can find are a couple of tiny ticks on the reverse.

PCGS 4, NGC 1. THERE ARE NONE GRADED FINER! The last one had a more mottled look, selling for \$14,100 in May 2016. A mostly untoned example sold for \$18,800 in November 2018. Currently listed at \$18,800 in the PCGS Price Guide, we would not be shocked at a final realization around that level when this jewel is hammered down. Another SUPERB coin destined for a very high ranking PCGS Registry Set.

**LOT 361****50C 1955 PCGS MS67 FBL****CAC**

Franklin Half Dollars are very challenging in these lofty grades, indeed, this is one of only half dozen graded so high, and NONE ARE FINER!

A bold, satin mint frost glows below a rich layer of toning, likely imparted from long term storage in an original cardboard Mint Set holder. The surfaces are clean and totally devoid of all but the most insignificant ticks, visible only with a glass. The eye appeal is exceptional.

PCGS 6, NGC 4, CAC 2. Neither of the two PCGS coins that have been sold in auction match the presently offered SUPERB GEM, and neither were CAC approved. One sold for \$7,200 in April 2018 and the other sold for \$14,100 in January 2016. The current PCGS Price Guide value is listed at \$12,500 and remember, NONE ARE FINER. \$1 1840 NGC PR64 CAC EX SWEET COLLECTION

An ultra-rare early Proof dollar. Somewhere between 15 and 20 examples of this first year of issue Proof dollar were produced, at a time when there were very few active coin collectors in America, and fewer still who had access to acquire a proof coin directly from the mint.

This near GEM offers a bold look. Both sides exhibit a dappled burnt-orange, olive-tan, and golden russet patina that shows off pale blue accents when rotated in a light. The majority of the surfaces though have a pleasing lilac-silver patina that sparkles when the light hits the watery-mirrored fields. Save for some very faint lines in the fields, the surfaces are as smooth as a freshly polished ice rink. Ms. Liberty and all the devices are pristine in their execution, crisply rendered from a powerful blow from the dies. The quality and originality combine for a seductive eye appeal.

PCGS 2, NGC 7, CAC 3. We believe that there is some duplication of submissions at NGC. This is also the ONLY CAC-approved example to ever sell in auction, realizing \$34,500 back in the 2012 FUN auction.

Remember a PR65 will cost approximately double what this near-GEM is worth! What a great opportunity for the advanced Seated dollar collector! Do not let it pass you by!

LOT 367

\$1 1851 RESTRIKE. STRUCK OVER O-MINT. PCGS PR63

UNIQUE! Mysterious. A coin that really invites the advanced collector to try and figure this one out! It has intrigued numismatists since it was first discovered.

We know according to mint records that no silver dollars were struck at New Orleans in 1851. No Proof 1851 dollars were struck, and once collecting became more popular in the next decade, restrikes were made for sale to collectors, mintage estimates are very low, ranging from 35-50. Clearly, at some point, a New Orleans mint silver dollar was placed into the coinage press in perfect alignment, showing the "O" mint mark in its correct placement under the stem of the olive branch. Since the designs are exactly the same, the only traces of the host coin is the slightly flattened mintmark.

Excellent quality, watery mirrors are gleaming in the light. They are of very pleasing quality and surround the sharply struck devices. Ms. Liberty, the eagle, and all the details are razor sharp in strike. Multihued iridescent toning is quite attractive and shows a predominate blue, gold, and amber patina that is somewhat dappled but even pattern. The eye appeal is excellent!

PCGS 1, NGC 0. This coin is UNIQUE. There is an auction record from June 2008 when this coin sold for \$373,750 as part of the Husky Collection and the current Collector's Universe value is listed at \$375,000. This coin is UNIQUE, and once it sells, who knows when it will reappear on the market. If you want your Seated dollar set to really stand apart from every other set of Proof Seated dollars EVER assembled!

LOT 368**\$1 1855 PCGS PR63 CAM**

SUPER HIGH END! This is a most dramatic coin too! Incredible deep mirrors beam from all over. The mirrors are the ultimate in clarity and are remarkably clean for just a PR63. You have to use a strong glass to see the few light wispy lines in the fields. The mirrors are so intense you really need Ray Ban shades on to view the coin with. A killer band of navy/gold/violet frames the obverse peripheries. The reverse just has some gold. The centers are an intense deep silver color. Miss Liberty and the details are so sharply struck and heavily frosted they look sculpted. The eye appeal is insane-really!

ONLY 50 pieces were ever minted. PCGS 1, NGC 1. There are NO PCGS auctions records for date and grade in Cameo. A regular NON CAC PCGS PR63 sold for \$11,750 in 2017-and we assure you the coin looked NOTHING like this one! It is also important to note this coin has been off the market in major midwest collection for many years. We certainly do NOT see ANY dates in the 1850's looking like this. What an opportunity!

**LOT 369****\$1 1857 PCGS PR62 CAM CAC**

A very RARE early Proof Seated Dollar. The mintage of Proofs struck prior to 1858 were extremely limited, and in 1857, the year before Proof Sets were produced for the general public, only 50 Proof dollars were coined. Today, PCGS estimates perhaps 36 examples extant. The present coin is of CHOICE quality. Highly reflective mirrors are flashy and untuned. A few tiny lines scattered about account for the assigned grade. Ms. Liberty is well struck up with full detail on her drapery and the eagle is nicely struck with only some minor weakness at the highest part of the wing. The devices on both sides are fully frosted and stand out with bold contrast, imparting a strong eye appeal.

PCGS 1, NGC 0, CAC 1. Off the market since 2012, this lovely coin realized \$10,638 in the FUN auction. Rarely available in any grade, this coin will fit nicely in any set of Proof Seated Dollars. The current PCGS Price Guide lists a value of \$9,500.

Sharply struck up, the details on both sides of this HIGH END dollar are crisp and expertly rendered by an exacting blow from the dies.

Only 550 were minted. PCGS 28, NGC 47, CAC 7. The ONLY CAC example sold in auction sold over three years ago in the 2015 FUN auction for \$6,169. The current PCGS Price Guide value is listed at \$6,500 and there is no doubt that this near-GEM will realized a price in that range.

\$1 1875-S/CC PCGS MS64 EX LINDA COLLECTION

A very important Trade dollar variety and tied for second FINEST graded at PCGS. This is a very popular variety and one of very few major varieties for the series; the partially effaced CC mintmark can be seen by the unaided eye under the S mintmark. A radial cartwheel luster swirls on both sides. A light champagne tone dusts both obverse and reverse, the reverse a little deeper in tone, with accents of richer apricot-gold. There is some darker tone that outlines Ms. Liberty on the obverse. The devices are crisply and fully struck on both sides. Ms. Liberty and the details are sharp and bold, as is the reverse eagle. Close inspection with a powerful loupe does reveal some insignificant lines in the fields and a toning spot here and there. Clearly condition census quality.

PCGS 8, NGC 2. ONLY ONE COIN IS GRADED FINER at PCGS. This coin last sold for \$21,600 in December 2017 and before that, one sold for \$24,675 in May 2015 (that was the first one sold since January 2008!). The current Collector's Universe value is listed at \$28,500. The one PCGS MS65 has never sold in auction, so this is likely the highest grade example you will be able to add to your set in the foreseeable future. Because of that, we believe that there will be fierce bidding competition once this one crosses the block. Good luck.

An exquisite coin with a bold, exacting strike with full definition to the details. Every device is expertly impressed by a precision blow from the dies. A rich, velvety luster really blooms under a pale silver-pewter, rose, and gold patina. While under a strong glass we see a few tiny ticks, that are hidden and do not detract from the beautiful and totally original eye appeal.

PCGS 1, NGC 1. The only other MS65 to ever sell was the Jack Lee III Collection, sold in November 2005 for \$69,000. The current Collector's Universe value is listed at \$80,000 and **NONE** are finer at NGC. There is one coin finer at PCGS, a MS66 that has never sold, but would likely sell for \$150,000! Full disclosure here, Legend Numismatics owns this coin, and yes, we did send it to CAC. We had NO trouble buying it. We still scratch our heads as to what CAC was thinking. This coin is a TRUE ORIGINAL SUPERB GEM piece.

Real and easy to see deep mirrors beam from all over.

The mirrors do have great clarity and are super clean. When you twirl the coin, the mirrors look like a freshly formed sheet of glass. Typical to the date, both sides are enriched by a deeper but totally vibrant mix of original azure blue/purple/tangerine colors. This is NOT a dark or drab coin. Miss Liberty and every detail are sharply struck and do stand out. The eye appeal is really nice!

ONLY 700 were minted. PCGS 2, NGC 6. PCGS has 2 PR66+ and none higher. We do NOT see ANY evidence this coin has ever been sold via auction. It came to Legend via a dealer who took it in trade from a collector. The lone PCGS CAC piece last sold for \$22,325 in April 2014 (we think today it is an easy \$25-\$30,000 coin). We know we bought this coin really right. You're simply not going to be able to find another PCGS 1874 Proof 66! Good luck!

A VERY RARE DCAM 1881 Proof Trade dollar. Blazing mirrored fields are deep, and blindingly chrome-like in their reflection. They are devoid of any haze, or serious lines or ticks, or any other flaw that might hinder its strong clarity. The fully struck devices are blast white and brilliantly frosted, standing out in stark contrast to the seeming blackness of the mirrors. Offering beaming, ultra deep cameo contrast, the present GEM 1881 has a marvelous eye appeal.

Only 960 proofs were struck of this Proof only date. PCGS 3, NGC 0, CAC 2. There has not been a PR65 DCAM sold in auction since March 2004--that is over fourteen years ago! More recently a PR65+ DCAM CAC sold for \$18,800 in April 2013. In PR65 DCAM the current Collector's Universe value is listed at \$13,500. LOT 383
50C 1922 GRANT, STAR. PCGS MS65+

One of the KEYS to the Classic Commem series, the Grant with Star half dollar is a popular Civil War themed coin that has always appealed to collectors. From a mintage of only 4,256 it is a date that rarely appears in such high grade, most often seen in MS63 or MS64. The obverse shows a plethora of die polish lines, a characteristic of the type. Rim toning at the top and bottom of that side attest to the originality and both sides show extremely well struck devices. The eye appeal is very nice!

PCGS 183, NGC 228. The Pop in 65+ is 6 at PCGS, 3 at NGC. The current CU value is \$6,200 and the last MS65+ to sell in auction brought \$5,040 in April 2018. Nice for any high grade commem set.

LOT 382
50C 1922 GRANT. PCGS MS66 CAC
 From the Huron Hills Collection.

Exceptionally fresh looking with a bold pearly iridescent toning gracing both sides. A lovely satin luster shows on silky smooth surfaces.

PCGS 309, NGC 218, CAC 101. A lovely GEM like this is certainly worthy of a strong bid, this type is quite scarce any finer!

PCGS# 9306 | ESTIMATE: \$1,000+

LOT 384
50C 1935 HUDSON. PCGS MS66 CAC
 From the Huron Hills Collection.

With a mintage of 10,008, the Hudson half dollar is a scarcer issue. The palest of clear, iridescent toning graces both sides of this PQ GEM. Very pleasing and original, this is an issue where few survive finer.

PCGS 288, NGC 157, CAC 111. Back in April 2010, this GEM sold for \$2,463 but more recently sold for \$1,320 in February 2018. The current Collector's Universe value is listed at \$1,400. With its Premium Quality, we suspect this 66 will bring a strong bid.

PCGS# 9312 | ESTIMATE: \$1,200+

LOT 385
50C 1918 LINCOLN. PCGS MS67 CAC
 From the Huron Hills Collection.

While popularly called the Lincoln half, this issue was commissioned to commemorate the centennial of Illinois Statehood. Immaculate surfaces are free from any serious marks. Sharply struck devices are fully and crisply rendered standing out in full 3-D effect against the satin smooth and lustrous fields. Both sides have a lovely iridescent tone, mostly seen at the top of the obverse. A great looking coin in every way!

PCGS 112, NGC 74, CAC 53. VERY RARE any finer! The most recent example sold for \$2,400, and this one sold \$2,520 in a February 2018 auction. A SUPERB looking coin for any high end cabinet of classic commems.

 From the Huron Hills Collection.

Among the finest graded, there are only three coins that are reported higher on the PCGS Population report. Shimmering pearlescent surfaces show off a satiny under glow that really brings the sharply struck devices out. The eye appeal is excellent!

PCGS 126, NGC 65, CAC 58. There are 16 coins graded 67+ at PCGS, and only 3 finer. The last one to sell realized \$2,640 in April 2018, well above the current CU value of \$1,850. None of the finer examples have sold in auction, but will certainly cost in the \$12,000-\$15,000 range.

SUPERB! One look at this coin's impressive eye appeal and you know it is totally worthy of its lofty grade, and rank among the finest graded. A strong mint frost glows from below a wonderful golden tone. These are not easy to find so nice!

PCGS 70, NGC 93, CAC 49. The most recent example to sell realized \$2,400 in March 2018 and the current PCGS Price Guide value is listed at \$1,950. Only 11 coins are graded finer, all MS67+, and we had the pleasure of selling the last one for \$7,638 in our December 2017 Regency Auction XXIV. A high end coin like this will see spirited bidding.

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

MS68

Yikes! save for an exceedingly tiny tick, this coin borders on sheer perfection. We can live with the MS68 designation. We are sure this coin was sent to CAC. The surfaces are sleek and are loaded with luster. They are impeccable looking to the naked eye. A full booming luster beams from all over bringing out a delicate mist of vivid pastel colors beam for the obverse and parts of the reverse. All of the details are sharply struck. The eye appeal is terrific!

PCGS 6, NGC 6. The last PCGS piece to sell in auction brought \$10,063 in September 2013. These certainly do NOT grow on trees! This coin will be a pleasing addition to any GEM set.

LOT 389
50C 1937-D OREGON
PCGS MS68 CAC

From the Aurora Borealis Collection, Ex Bruce Scher.

Our consignor named this remarkable SUPERB GEM, "the Masterpiece." It really is Mother Nature's gift to Oregon Trail commem collectors!

The colors are absolutely stunning on BOTH sides and is presented in a very unique pattern. While sometimes words like dappled,

variegated, and mottled have a negative connotation, in this coin's case, it describes the Jackson Pollock-esque way the colors are distributed across the surfaces. Both sides show a lovely melange of pinks, greens, and blues that really amplify the sharpness of the strike. A bold underlying mint luster brings the entire masterpiece together. Honestly in this cataloger's eyes, this is one of the most beautiful, original, and high end Oregons that has ever crossed his desk!

PCGS 58, NGC 77, CAC 36. A different coin, also pedigreed to the Bruce Scher Collection, sold in January 2013 for \$10,375. In light of this coin's great looks, you really need to toss out all other references and just bid appropriately.

A very scarce SUPERB GEM survivor of only 3,005 minted. Sharply struck with every minute detail fully rendered—even the infant riding in the conestoga wagon is fully defined. Some very pale, pearly iridescent gold is brought out by the strong satin-like luster. The eye appeal is very strong.

PCGS 120, NGC 104, CAC 66. The current PCGS Price is listed at \$1,100 and these are VERY RARE any finer—PCGS has graded 21 coins finer. A very pleasing SUPERB coin for any 50-piece type set or 144-complete set.

Beautifully toned! The Pan-Pac half dollar is one of the most endearing designs of the entire series, and sometimes, they take on a great palette of color. Blue, gold, russet, olive, and tan toning grace both sides of this PQ GEM. Well struck and very nicely preserved, this one is worthy. Outstanding eye appeal defines this GEM.

PCGS 307, NGC 240, CAC 113. The most recent example sold for \$2,280 in March 2018. The present coin sold previously in April 2009 for \$3,220 before selling in the 2018 FUN auction for \$2,400. The current CU value is \$2,750. A lovely GEM for any Classic Commem Set.

50C 1926 SESQUICENTENNIAL. PCGS MS65+ CAC

From the Huron Hills Collection.

The Sesquicentennial half dollar is one of the hardest early halves to find nice, regardless of grade. Unlike other early commems, the silver surfaces did not tone nicely. Likewise, the low relief design rarely comes fully struck up. The presently offered PQ GEM is the flip opposite! Washington and Coolidge's portraits are crisply defined, as are the details on the Liberty Bell reverse. Exceptionally vibrant luster for the type brings out the subtle rainbow peripheral toning. The eye appeal is excellent!

PCGS 377, NGC 301, CAC 90. There are only 17 coins graded MS65+ at PCGS and merely twelve graded finer. The last one to sell brought \$7,500 in April 2018. Prior to that these were consistently selling in the \$3,500 and \$4,700 range. Keep in mind that the last PCGS/CAC MS66 to sell brought \$22,325 in our December 2017 Regency Auction.

This coin is destined for a SUPERB set of commemorative halves.

Flawless! The surfaces are clean and free of any distracting marks. The luster is bold and giving off a strong flash under the beautiful iridescent toning, which is particularly eye catching at the peripheries. Sharply struck, this coin clearly ranks among the nicest examples out there.

PCGS 71, NGC 40, CAC 32. This coin sold for \$1,440 in December 2017, and the current CU value of \$1,000 is way too cheap. Only six coins have graded finer, including the MS68 that we sold for a record shattering \$43,475 in our May 2018 Regency Auction.

One of the FINEST graded Vancouvers and a coin truly worthy of its lofty grade and accolades! A billowing, brilliant mint bloom sets both sides of this SUPERB coin aglow. Sharply struck up, the devices stand out against essentially PERFECT surfaces. A dusting of original toning on both obverse and reverse adds to the strong visual allure!

PCGS 78, NGC 63, CAC 34. There are only a dozen coins graded MS67+ at PCGS, with three finer. The only PCGS/CAC example in 67+ to ever sell in auction realized \$4,772 in September 2015. This remarkable coin has a similar look, and should realize that or more. PCGS lists a value of \$5,750. With only three coins finer, this is a great opportunity to add one of the FINEST examples to your set!

We love the look of this GEM! We are not sure why CAC did not bean it—its got great eye appeal, especially for this type!

Both the obverse and reverse are framed by narrow bands of intense rainbow toning. Sharply struck devices are brought out by the satiny pearlescent luster from all over. The eye appeal is amazing.

PCGS 385, NGC 266. As is always the case with classic commemorative halves, the prices realized at auction are all over the place, but the current PCGS Price Guide value is \$1,000. With its beautiful toning, this one should sell in excess of that!

G\$1 1903 L.A. PURCHASE, MCKINLEY. PCGS
MS67+ CAC

A visually and technically STUNNING superb GEM. This little jewel is just oozing with rich originality. Among the finest graded by PCGS, this piece boasts a brilliant golden surface that drips with a reddish hue over exceptionally gorgeous gold color. Every tiny detail is struck up with full precision and is exacting in its definition. Even the tiny mint made die polish lines are visible in the fields, suggesting an early striking before they wore off the surface. Although 125,000 were initially authorized, the reported net mintage is listed at 17,500 and the remaining pieces were melted due to poor sales.

PCGS 128, NGC 123, CAC 65. PCGS has graded 10 in MS67+ with a mere two coins finer (the most recent MS68 to sell brought a robust \$25,850 last year). The current PCGS Price Guide value is listed at \$8,000 and this coin is truly worthy of a premium bid! \$5 C. BECHTLER 150 GRAINS, 20 CARAT. PCGS AU55

This EXTREMELY RARE Bechtler \$5 was struck between 1831 and 1834 in North Carolina. This variety is K-15, which is listed as Rarity-7. It is among the finest graded examples and a variety that is not often seen!

For the most part, this coin is well struck, just showing some weakness at the centers. A bold, somewhat reflective luster can be seen among the peripheral lettering which accents even the most minute scuffs. Clearly this coin was struck not long after the dies were polished.

The Bechtlers were prolific in their minting of private gold coins during the first U.S. gold rush in the 1830s.

Their reputation, unlike some of the firms that came around in California, was impeccable, and even when the Federal mints at Dahlonega and Charlotte opened, the Bechtlers continued to strike coins that circulated along side their Federal counterparts. This series is among the first issues produced by the firm.

PCGS 6, NGC 1. This is the Dr. Seymour Dexter coin, sold in May 2013 for \$64,625 and again in over December 2017 Regency Auction for \$61,688. Dr. Dexter was a specialist in southern territorial gold.

While no prior pedigree is noted, he was actively collecting in the 1970s. More recently in the April 2014 sale of the Riverboat Collection and coin sold for \$82,250. Before this coin sold in May 2013, another example appeared in auction twice, once in 2008 for \$74,750 and again in April 2012 for \$78,200. The current PCGS Price Guide value is listed at \$90,000. This is a major rarity in the Territorial or Pioneer series, a variety that is rarely offered in auction. This is an opportunity not to be missed!

Lovely khaki gold shows light olive gold accents at the rim, while deeper coppery-orange patches can be seen on Liberty's face, among the stars, and in spots on the reverse. Softness of strike, as normally seen in the central obverse portions of the design, but the peripheral

details and the reverse are boldly defined. A surprising amount of luster survives in the protected areas. The eye appeal is excellent for a coin that sat over 130 years at the bottom of the ocean!

PCGS 6, NGC 1, CAC 1. This is not the coin that sold for \$10,063 in the 2012 FUN auction, the most recent auction sale for any Moffat \$10 in any VF or XF grade. Housed in the original gold label PCGS holder. What a RARE and historically significant coin for the collector!

PCGS MS64

A newly discovered and certified example of this R-7- variety. Fresh out of an old European holding, this coin was submitted once to PCGS and came out TIED FOR FINEST graded. PCGS CoinFacts estimates 14 examples survive in all grades, and the 2003 update of the Breen-Gillio reference enumerates 12 examples.

Struck by Christopher Ferdinand Mohrig in San

Francisco, the charming design features a large Indian head on an Octagonal planchet. 1 DOLLAR in wreath CALIFORNIA GOLD above. The die was originally produced and struck with the 1872 date, and then in a very crude attempt to re-engrave the 2 to a 3. The surfaces have a stunning, flashy, prooflike luster with sharply struck devices.

A fantastic run of ORIGINAL Proof Sets from 1936, 1937, 1938, 1939, 1940, 1941, and 1942. While in an absolute sense, these are not rare, what is exciting here is that every coin is PCGS and CAC certified, which we rarely see. Also it is clear that these seven sets are from an old holding, each coin is well matched and has a very similar, totally original look.

1936:

1C Satin PR64 RB. Pleasing original toning over lovely near-GEM satin surfaces. PCGS # 3331
5C Satin PR66. Delicate pastel toning over smooth, very high end surfaces. PCGS # 3994
10C PR65. Glittering, brilliant mirrors shine with just a few minute toning dots. Totally original. PCGS #5071
25C PR63. Original, boldly reflective, and conservatively graded. PCGS # 5975
50C PR65. Rich, flashy mirrors beam all over on both sides. Original surfaces do not show any serious lines or flaws. PCGS # 6636

1937:

1C PR65 RD. Exquisite, brilliant RED mirrors beam from all over. No mellowing anywhere, or any spots. PCGS # 3338
5C PR66. Ultra reflective mirrors are the ultimate in clarity. Sharp and beautiful! PCGS # 3996
10C PR66. Totally original! Pleasing toning graces both sides but does not impede the strong reflection in the fields. PCGS # 5072
25C PR66. A delicate iridescent toning dusts the ultra reflective mirrored fields. Outstanding! PCGS # 5976
50C PR65. A high end GEM with only the most minute toning dots seen in the fields. Strong eye appeal! PCGS # 6637

1938:

1C PR65 RD. Deep, beaming RED color with just some microflecks. The eye appeal is very high end. PCGS # 3341
5C PR66. Exceptional, icy blue and clear gold color on ultra reflective mirrors. SUPERB! PCGS # 4175
10C PR66. Really high end! Deep, brilliant mirrors flash with just a touch of original toning. PCGS # 5073

Legend Rare Coin Auctions is proud to present the Chester Roche Collection. Mr. Roche focused primarily on Gold Dollars and Quarter Eagles; in all, the collection features 49 coins, 46 of which are gold. Assembled over the course of several years, these coins have been off the market for at least 15 years. Now that the time has come to sell, knowing all the options for selling at auction, Mr. Roche chose LRCA because he knew with our boutique venue, his coins would stand out.

There are many green label PCGS holders. None of these have been submitted for grade reconsideration. The quality, eye appeal, and FRESHNESS of this collection is wonderful!

LOT 404 G\$1 1849 NO L. PCGS MS65

Here is a lovely GEM example of this first year variant without Longacre's signature L on the bust, only 1,000 of these were struck. A bold, radiant mint luster has a bold satiny texture that stands out against the frosted devices. Well struck and truly of GEM quality. Rich two-tone golden surfaces delight the eye and are very original. Housed in an OGH.

PCGS 34, NGC 23. The most recent example to sell brought \$3,995 in our most recent Regency Auction and the current PCGS Price is \$6,000. Prior to that one sold for \$5,405 in the 2016 ANA auction. Only a dozen coins are graded finer at; the last MS66 to sell was an NGC coin that brought \$9,600 in April 2018 (no PCGS MS66 has sold since 2012). A great way to start a GEM gold dollar set!

LOT 405 G\$1 1849-C CLOSED WREATH. PCGS MS63

A VERY RARE choice Mint State Charlotte mint gold dollar, one of the FINEST known examples, bested by perhaps two or three coins at most. The typical survivor encountered by collectors grades VF or XF.

This coin is beautiful! Sharply struck devices on both sides stand out against the highly lustrous devices. The surfaces show the typical mint made die striations on both sides. Even with a strong glass we cannot find any major marks on the surfaces that are not of mint origin.

PCGS 6, NGC 6. There has not been a MS63 graded by either service since 2010. They both sold for \$12,075. Prior to that, one sold in January 2008 for \$17,825. The current PCGS Price Guide value is listed at \$21,000 and considering that back in 1999 and 2000 there are records around \$20,000 this beauty could contest those levels. Keep in mind only a single PCGS MS64 is finer at that service, last selling in the 2015 ANA for \$49,350. This Condition Census example is worthy of any specialized gold dollar set.

An extremely RARE Mint State survivor from an original mintage of 8,382, indeed it is one of the rarest, and yet underrated and undervalued Dahlonega mint gold dollars.

Displaying a sharper strike than usually encountered, Liberty's hair curls are all visible, although lacking in crispness. Utilizing the aid of a strong loupe, there are some tiny marks, but they are in no way excessive or detracting. Also of note is the bold luster that brings out the original orange-yellow gold color.

PCGS 4, NGC 5. There are only five coins finer at PCGS. There has not been a PCGS MS61 sold in auction since May 2004--a coin that brought \$8,913. The current PCGS Price Guide value is listed at \$11,500. Better in strike and luster than the PCGS MS62 CAC that sold for \$12,338 in the 2017 FUN auction, this coin is a real prize for any advanced gold dollar or D-mint collector. Good luck!

Very pleasing and very scarce. This pleasing Mint State example has a strongly defined strike and a satiny, brilliant luster. The minor ticks are accounted for in the MS61 grade. Bright yellow-gold surfaces are very eye appealing. A low mintage of only 14,000.

PCGS 16, NGC 47. The most recent example to sell realized \$2,640 in

March 2018 and prior to that the APRs were consistently in the \$2,000-\$2,500 range. The current Collector's Universe value is listed at \$3,200. Very rare finer, only 27 coins have graded finer at NGC. We expect strong bidding for this scarce gold dollar. Just seems cheap at today's level.

PCGS 5, NGC 20. No PCGS MS61 has ever sold via auction, so hopefully the following comps are helpful: a PCGS MS60 realized \$5,500 back in November 1995; an NGC MS61 sold in September 2017 for \$4,320, and a PCGS MS62 sold for \$7,638 in February 2015. Conditionally very scarce issue, even though it is considered one of the most "common" Charlotte mint gold dollars in an absolute sense. Only 9,434 were struck, many of which went into circulation.

Sharply struck devices have a strong satiny luster on both sides. The strike is incredible for this date with fully formed hair definition, stars, dentils, and wreath.

The fields show a natural roughness that is typically seen on for the date. The surfaces show a light greenish-gold overtone with rich yellow-orange gold overall. The eye appeal is very high end, unmarred by the tiny scattered ticks. For the collector who understands how this date usually comes, they will realize that the present example is a real moose!

PCGS 11, NGC 12. Going back to 1994, there have been only five auction sales of a 52-C in NGC MS63. Since 2003, these have sold between \$6,000 and \$8,000. Garrett and Guth wrote in 2006: "In Mint State, however, the 1858-S is a serious rarity. Currently, fewer than 20 have been graded in Mint State." Today, between PCGS and NGC there are about 25 graded in all MS grades, and most are clustered at 61 and 62, suggesting a few duplicate records.

Rich, orange-gold toning is really brought out by a superb underlying satin luster that really glows. The devices are crisply rendered by a bold, exacting strike. Under close scrutiny, with a powerful glass, we do note some minor scuffs in the fields, mostly hidden by the rich toning. The eye appeal is very nice, indeed!

Tied for FINEST graded of this LOW MINTAGE date. Only 5,000 were struck for circulation, and today, perhaps 400 survive in all grades, with 20 estimated in Mint State.

The present coin is VERY high end for the grade. A rich golden bloom with bold orange accents making the devices stand out. The devices are sharply struck, which is the exception to the how this date normally comes. The details are strongly struck, with only the slightest touch of bluntness in only a couple of areas. Only a few minute marks are seen under a strong glass, but none detract from the exceptional eye appeal.

PCGS 6, NGC 1, CAC 1. This coin has been long off the market, and is making its first auction appearance in decades. The last PCGS coin to sell realized \$8,225 in the 2014 FUN auction. As the ONLY PCGS/CAC coin we know that there will be very strong bidding to take home this FINEST set of Liberty quarter eagles. If this series is your specialty, prepare for record bidding! Good luck!

WOW! What a wonderful example of this VERY RARE Liberty quarter eagle. Demand for the denomination dropped so low in 1885 that only 800 were struck.

As expected from a coin of this low mintage, the surfaces are very reflective in the luster. Sharply struck on both sides, the devices are very bold and are nicely frosted. Rich, medium

gold with accents of richer orange really are a delight to behold! This coin also happens to be the current CoinFacts Plate.

PCGS 4, NGC 2. There are only 10 listed as finer on the PCGS Population Report. OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

A SPECTACULAR GEM Type 2! Everything about this coin SCREAMS originality and HIGH END quality!

The first thing that catches your eye when viewing this beauty is the vivid satiny frost. The luster is thick and presents a full radiating glow. The toning is rich orange-gold with soft rose and lilac accents that come out when twirled in the light. What really sets this coin apart is the strike. This cataloger has never seen a Type 2 with this bold a strike. Every detail is crisply rendered. We note lots of die rust impressed on the coin, a feature that is very rarely seen because of the poor quality of strike normally seen. The eye appeal is off the charts!

Conditionally rare, very few type 2 gold dollars were saved in Mint State, and most Mint State coins exist in lower grades (below MS63). In GEM, they truly are VERY RARE.

PCGS 49, NGC 21, CAC 21. We suspect, especially given the lack of auction appearances, that this many MS65s do not exist, and that there is much duplication. We love everything about this unquestionable true GEM! We do know it was sent in once for crossover. We do not know what PCGS was thinking. There is nothing wrong with this coin.

At first glance, you think it's a GEM commoner date because it is so nice. Save for one small obverse tick, the surfaces on BOTH sides are insanely immaculate. We cannot stress enough how clean (which is highly unusual) the dreaded right reverse is. The luster is moderate -but this coin is totally original and has never been dipped. Both sides are an even moderate gold color. There are NO spots or discolorations anywhere. All of the details are sharply struck and are visible to the naked eye. The eye appeal is great!

\$4 1879 FLOWING HAIR. PCGS PR64 CAC

Legend Rare Coin Auctions is proud to offer this wonderful, original, and near-gem quality example of this important rarity. The \$4 or Stella gold piece is technically a pattern coin, but its placement in the Guide Book of United States Coins, and its relatively high mintage, they have traditionally been collected as a regular issue.

The present beauty is nearly of GEM quality. Both sides have bold, reflective mirrored fields surrounding well struck devices. There are mint made die striations that can be seen with a strong glass, but they do not detract from the outstanding eye appeal. Clearly this coin is ORIGINAL, which is a very pleasant exception to what is often seen: "conserved" dipped and stripped examples with overly bright yellow gold.

By 1879, for at least a decade, various proposals for an international coinage had been tested. In 1868, there was a pattern \$5 / 25 francs struck; in 1874 Dana Bickford proposed a \$10 gold piece that had the conversions into various European currencies. None of these made it any further than a few coins struck.

In 1879, John Kasson, the ambassador to Austria suggested a \$4 gold coin to be struck in a Metric gold composition. Kasson had connections, and the resulting proposed \$4 gold piece was the closest an international coinage got to mass production. Two distinct obverses were created, one with a Liberty head with her hair flowing down, designed by Charles Barber, and the other with Liberty's hair coiled up on of her head by George Morgan. The 1879 is the most "common" with 425 reported struck. Legend has it that many of these were distributed to congressmen to show what the coin would look like and some of them ended up spent in Washington brothels.

PCGS 67, NGC 36, CAC 6. Only a single CAC-approved PR64 has sold in auction, realizing \$184,000 back in April 2011. PCGS-graded PR64s without CAC have sold between \$158,625 and \$207,000. Anyone adding a Stella to their sets automatically vaults their collection to a higher stratosphere.

BD-2, Normal Date. R-4+ with perhaps 70-90 examples known in all grades.

A lovely, original Brilliant Uncirculated example of this very scarce die marriage. Struck from a late obverse die state, with a bisecting die crack that starts at the rim below the 0 in the date, crossing entirely through Liberty's head to the rim between LI. A bold luster blooms on both sides accenting the brilliant yellow-gold color and sharply struck devices. There are a few mint made adjustment marks running across Liberty's neck, but they are easily overlooked in light of the otherwise wonderful eye appeal.

PCGS 21, NGC 6, CAC 5. Only one CAC-approved coin has ever sold in auction, realizing \$17,625 back in July 2013--that is half a decade ago! The current Collector's Universe value is listed at \$20,000. Keeping in mind that there has not been a MS63 sold in auction since 2011, this coin has a lot to offer many collectors! We expect strong bidding.

BD-6, the only variety with the Round 6. This marriage was a workhorse striking perhaps 35,000-50,000 of the 64,000+ struck for the date. While available, finding a NICE example is still very tough! A soft, satin glow mingles in the fields around bluntly struck devices. The strike shows typical weakness in areas, but the overall eye appeal is excellent.

PCGS 73, NGC 26, CAC 15. The most recent examples to sell in auction were in the 2017 FUN auction realizing \$16,626 and \$21,150. The current PCGS Price Guide price is listed at \$20,000. A super slider, "GEM" AU example of this very rare and underrated date. Considered RARE in AU58, this certainly scarcer than the Charlotte and Dahlonega issues that attract more attention. In all, perhaps 100-200 examples in all grades, most of which are in the VF to XF range.

A sharply struck example with strong definition to the devices. Lustrous, semi-reflective fields display a lovely "flash" when rotated in a light. Only the slightest hint of friction on the highest points and in the fields. Rich golden-orange color with some mild olive accents. Totally original, this coin displays a wonderful eye appeal that will delight any specialist collector of southern branch gold.

PCGS 6, NGC 30, CAC 8. How is this for RARE--the last PCGS AU58 sold 23 years ago! Think about that, kids graduating from college this year were not even born yet! That is RARE! The current PCGS Price Guide value is listed at \$7,500 and with the rare date gold market as strong as it is, that level will be challenged when this GEM AU crosses the block!

One of the finest graded examples of this date, there are only seven coins in all Mint State grades at PCGS finer. This is a very scarce and difficult New Orleans date to find in such a lofty grade. To find one with any skin or originality is even harder. Most of the 75-85 estimated to survive (per Doug Winter, 2006) are in VF and XF grades, with coins in AU grades elusive and in 58 or finer extremely rare.

Wonderful original gold color is brought out by a strong satiny luster. Only the lightest brush of friction on the high points can be seen. The details are nicely rendered, showing a strong, though not quite fully defined. Some teeny marks are noted, but none are distracting and you do need a strong glass to find them. The eye appeal is great!

PCGS 10, NGC 24, CAC 5. No CAC-approved example has ever sold in auction. The most recent PCGS example was the A.J. Vanderbilt Collection coin that realized \$14,400. Prior to that one selling, an example sold in June 2017 for \$7,638. As a CAC-approved, and highly original example, this piece should sell in excess of the current PCGS Price Guide value of \$7,500. None of the seven PCGS graded coins that are finer have ever sold in auction, the finest is MS62. A single NGC MS63 is the finest, last sold in Stack's 1995 sale of the Ed Milas Collection. A real prize for the New Orleans \$5 specialist, good luck!

\$5 1854-C PCGS MS62 CAC

Legend Rare Coin Auctions is proud to have been selected to offer this amazing “discovery” piece and prize of southern branch mint gold!

One of the scarcest dates from the 1850s and the typical survivor is usually in the VF to XF range. Uncirculated examples are EXTREMELY RARE. This is among the FINEST 1854-C half eagles that exists, with only two MS63s graded finer at PCGS.

Exceptionally eye appealing, this fully CHOICE example has a better than average strike and a soft, supple luster that engages the viewer. Some minor weakness is seen in the central devices, but the peripheral details are sharp. Good planchet stock was used to strike this coin without the striations or laminations that are often seen on this date. Greenish-golden hues, and some dirt that clings to the reverse rims attest to the absolute originality of this important gold coin. Unlike the majority of higher grade specimens encountered in auction or on the bourse, this coin has not been dipped, or otherwise conserved.

This coin is completely FRESH to the market, part of an estate, and has NEVER been offered before being consigned to Regency Auction 27. This wonderful coin also serves as the current PCGS CoinFacts Plate Coin.

Other Mint State coins include the James Stack-Harry Bass PCGS MS60; the Ed Milas NGC MS62; and the Ashland City NGC MS64, sold in 2000, 1995, and 2004 respectively.

PCGS 3, NGC 1, CAC 1. This is the ONLY Mint State 1854-C half eagle to receive a CAC bean. The current PCGS Price Guide value is listed at \$25,000 and the only recent PCGS Mint State example to sell was a PCGS MS63 that realized \$35,250. Since NO other PCGS Mint State coin has sold in 15 years+, this is an opportunity of the UTMOST IMPORTANCE for the advanced collector--DO NOT MISS IT! The present CHOICE AU coin is very pleasing, with good color and ample mint bloom that survives despite the touch of high point wear. Some bagmarks, as normally encountered on this date do not detract from the overall strong eye appeal. Looking this coin over closely, we are not exactly sure why it didn't sticker over at CAC; we certainly like the coin.

What an AMAZING coin. One look and you will instantly fall in love. Everything about this coin is SUPERB, and there is no doubt that this beauty is among the ABSOLUTELY FINEST known. It screams a lot about the quality that it is tied with the Bob Simpson coin for 3rd finest graded at PCGS.

The fields are impeccably reflective, smooth, and virtually without flaw. The mirrors are intense, offering extremely clear and bold reflection that beams from all over. This coin catches your eye from across the room! It screams to you! The devices are fully struck and totally frosted, producing an ultra CAMEO look. As you rotate the coin in a light, the highly desired orange peel affect really pops on the fields adding to the SUPERB visual allure. This coin is ultra high end and its eye appeal quite seductive--it is a real challenge to stop staring!

Only 120 Proofs were struck. Today, experts estimate about 50-60 examples survive in all grades, making this not only a date for a run of Proof \$10 Libs, but also, if you are just collecting Proof Gold Type, 1900 is a great date to represent the type.

The luster is full and complete is totally eye appealing. A tiny number of little ticks are mostly hidden and do not take away from the overall eye appeal of this stunning beauty! While the mintage of 405,000 allowed for ample survivors for collectors to be able to acquire an example, in GEM and finer grades, so few exist, making it very difficult to find one if you demand a high grade example for your collection.

PCGS 10, NGC 11, CAC 5. There are a mere 3 pieces that have graded higher at PCGS, 1 in MS66+ and two in MS67. The 66+ is a featured coin in the Crow River Collection, offered earlier in this sale. The most recent MS66 to sell was the Bentley Shores Collection coin sold in the 2013 ANA auction, realizing \$23,500. That coin was NOT CAC-approved, and we think that this coin will certainly see very serious bidding activity. If you missed out on the Crow River coin, here is a very rare and important opportunity for the advanced 20th Century gold collector!"

WOW! A low mintage issue, one of 22,000 minted, and this SUPERB GEM ranks near the top of the Population Report, with just seven coins reported finer.

This remarkable survivor has a bold satiny frost that glows from all over. The surfaces are smooth and free of any serious marks. In fact, even using a powerful glass there are just one or two tiny ticks that we note only for the sake of full disclosure, but they are generally hidden out of the prime focal areas. The luster radiates with a strong blossoming glow bringing out the rich golden color and accenting the exceptionally sharp devices. The details are crisply embossed into the essentially flawless planchet. With the bold strike, luster, color and PQ surfaces, you know the eye appeal is SUPERB!

PCGS 10, NGC 5, CAC 10. The last PCGS coin to sell in auction was NOT CAC approved, selling for \$94,000 in the 2016 ANA auction. The market was not as robust then as it is now and when this SUPERB coin crosses the block we have ZERO doubt that the bidding will exceed the current \$100,000 PCGS Price Guide value. Seven coins are graded finer: 3 in 66+ (none have ever sold in auction) and 4 in 67 (the most recent being the Norweb/Duckor PCGS MS67 CAC that sold for \$161,000 back in 2012). Worthy of any AMAZING set of \$20 Saints!

\$20 1910 NGC MS65 CAC

A beautiful 1910 Saint! Ultra satiny surfaces are well preserved and devoid of any serious marks or ticks. A bold cartwheel luster swirls smoothly along both the obverse and reverse bringing the medium khaki gold color to life.

PCGS 205, NGC 78, CAC 19.

No NGC/CAC coin has ever sold in auction. The last PCGS/CAC coin sold for \$13,200 in the 2018 FUN auction. Prior to that, these have sold between

\$8,050 to \$9,775. The current Collector's Universe value is listed at \$7,000. EXTREMELY RARE any finer!

\$20 1922 NGC MS65 CAC

A high end, pleasing GEM that is EXCESSIVELY RARE any finer! Medium orange gold with deeper reddish accents are seen when this lustrous beauty is rotated in a light. Sharply struck, and devoid of any serious bagmarks the eye appeal is high end!

PCGS 1543, NGC 518, CAC 27. The last CAC-approved coin to sell in auction was a PCGS graded example that realized \$7,638 in November 2016. The only NGC/CAC coin to sell brought \$8,625 in the 2012 FUN auction. Worthy of a very serious bid from the advanced \$20 gold collector!

PCGS# 9173 | ESTIMATE: \$2,250+

LOT 501

\$20 1923 NGC MS65 CAC

Gem quality in every sense. Brilliant satin luster blooms on both sides, swirling around the sharply struck up devices. Deep, orange gold coloration on both sides adds to the excellent, original eye appeal. Even using a strong glass, you will not be able to find any significant mark, like or copper spotting that mars the eye appeal.

PCGS 496, NGC 122, CAC 8. With only four coins graded finer for the date (all PCGS MS66), there is clearly

a lot of duplication at the 65 level trying for a 66 grade. It is amazing that only 8 out of over 600 grading events have received a CAC sticker—that just goes to show how this date comes! Only one CAC coin ever sold in auction, bringing \$9,401 in the 2014 FUN auction. With none of the 66s bearing a CAC bean, this is among the finest CAC coins available! Good luck!

PCGS# 9175 | ESTIMATE: \$6,000+

LOT 502**\$20 1923-D PCGS MS66**

Strong luster swirls on both the obverse and reverse of this GEM 23-D \$20. Sharply struck devices stand out boldly, even Ms. Liberty's face is totally struck up. The surfaces are clean, smooth, and devoid of any serious marks and the eye appeal is very nice.

PCGS 1660, NGC 863. While considered "generic" this date is much scarcer in MS66 than the 1924, 1927, or 1928, without any serious premium. With such low premiums right now, it would be a great idea to add some generics to any holding.

PCGS# 9176 | ESTIMATE: \$2,200+

**LOT 503****\$20 1924-D PCGS MS63**

Very scarce! Remember that while many of these later mintmarked issues were struck in the millions, the vast majority were deposited in treasury vaults and melted into bars in the 1930s. Today, it is estimated that about 1,200 survive and these are mostly graded MS63 and lower.

The presently offered MS63 has a very nice surface quality with a swirling, cartwheel luster that glows around the sharply struck devices. Accents of rich golden-orange color really come out

when you rotate this fully CHOICE coin in a light. We do note some tiny contact marks that account for the assigned grade, none of which individually affect the eye appeal. The eye appeal is excellent!

PCGS 183, NGC 95. Finer than what you usually see for the assigned grade, this one will sell for more than the current CU value of \$7,000. RARE any finer!

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 504

\$20 1929 PCGS MS64

Legend Numismatics thought this coin was nice and high end, they bought right after it came out of a big fresh gold deal-un beaned. It has been to CAC. They were too darn picky that day.

This coin has been off the market since the 60's. This coin is NOT a retread. One look and any experienced dealer can confirm the coin has that "fresh" look. Besides being high end, this coin displays wonderful really problem free surfaces. Only on the reverse using a strong glass will find just a few microscopic ticks. The texture all over is a sweet but thicker satiny look. Of course there is a strong satiny luster. There are zero spots or discolorations. Miss Liberty and the details are lightly frosted and are well struck. The eye appeal is really pretty!

PCGS 83, NGC 62. The last regular PCGS piece (NO CAC) to sell brought \$41,712.50 in June 2017. Again, this coin is NOT a retread and is totally fresh to the market.

THE STEPHEN COOK COLLECTION PART II

In Regency Auction 26, we presented to much acclaim the first part of this extensive collection of pattern coins. In all the Cook Collection is one of the most extensive offered, containing over 150 pieces. In Part One, we offered 77 lots. Collectors responded to the selection with their bids. Strong prices were seen across the board, in some cases records were achieved. We have no doubt that with the diversity of types, grades, and strong eye appeal of the coins the result for Part II will be the same. The balance of the consignment will be sold on Thursday, July 26 in Las Vegas.

Highlights include Seated Liberty, Morgan, and Goloid dollar patterns; selections of Standard Silver types, and pieces pedigreed to great pattern collections such as Bass, Queller-Lemus, Denali, and Simpson. The selection of coins is amazing; truly something for everyone! From the earliest days of the U.S. Mint to the modern era, proposed designs, new compositions, and enigmatic "pieces de caprice" produced for VIP collectors, were struck. This fascinating series has been studied for well over a century, with the standard reference being used today written by Dr. J. Hewitt Judd, now in its

10th Edition. What is great about patterns, one of the things that drew Mr. Cook to them is that they are very undervalued relative to their rarity. Many of the pieces in this extensive collection are represented by fewer than a dozen specimens in all grades, and many can be found in wonderful condition for under \$5,000, making them affordable for many collectors.

Our sister firm, Legend Numismatics, is world famous for its part in the 2008 purchase of the Southern Collection, and subsequent sale to collector Bob Simpson for over \$35,000,000. Some of the coins in the Cook Collection are duplicates from the Simpson Collection. Others are pedigreed to the Denali Collection, another world class pattern collection sold by Legend Numismatics. Legend Rare Coin Auctions has, from its inception, offered many amazing patterns, including the Simpson Collection of Standard Silver Patterns in 2017. We hope that if you have not yet "taken the plunge" into the world of pattern collecting, the Steven Cook Collection, Part 2 will inspire you to. Once these great coins are sold, they may not appear on the market again for a long time!

THE STEVEN COOK COLLECTION PART II

LOT 505
50C 1838 J-77. NGC PF65 BN
CAC

Ex Harry Bass/ANA Museum
Display Collection.

R-7+ (4-6 minted). Gobrecht's
Seated Liberty design with
LIBERTY incuse on ribbon;
perched eagle with four arrows
and olive branch reverse.
Struck in copper with a plain
edge, on medal (rather than
coin turn) die alignment, this is
a restrike produced possibly in
the 1870s.

Extremely reflective fields flash
with deep, clear mirrors. A lovely patination on both sides and a sharp, chiseled strike give the appearance of a mint medal
struck during the era, with exacting definition of the fine details throughout. Shades of olive, teal, gold, and royal violet
delicately drape across rich crimson and mahogany surfaces. A wonderfully eye appealing coin, and a great way to start off
the second part of this extensive pattern cabinet.

PCGS 0, NGC 1, CAC 1. This is the only J-77 in the BN designation to ever sell in auction, regardless of numerical grade,
realizing \$11,750 four years ago in the 2014 ANA auction. Harry Bass acquired it from Numismatics, Ltd in August 1974,
and it was retained in the Bass Research Foundation Core Collection (BCC-6008). More recently a PCGS PR63 RB sold in the
2018 Central States auction for \$13,200 and it was not CAC, nor were the mirrors as reflective! A great coin for the pattern or
Seated Liberty half dollar specialist.

LOT 506

1C 1854 J-159. ELECTROTYPE. NGC MS61 BN

R-6+ (13-20 minted). An experimental cent that was produced
to test a new diameter and thickness of the planchet--not
a new design. The obverse was produced by reducing the
design elements of an 1854 silver dollar. The reverse has an oak
wreath enclosing 1 CENT.

A lovely example with decent surfaces and boldly defined
details. The weakness of details on the obverse is from the
reduction process used to produce the die. Hints of red peak
out outlining areas and making them stand out.

PCGS 0, NGC 1. This coin sold for \$2,185 in November 2003 and more recently a MS62BN sold for \$1,880 in October
2012--that is still over half a decade ago. Worthy of any transitional pattern cent collection, this mint made electrotpe is very
rarely seen!

1C 1855 J-168. NGC MS63 BN

R-4 (76-200 minted). Eagle flies level surrounded by stars; reverse ONE CENT in wreath. Struck in bronze with a plain edge.

A transitional cent pattern struck on a slightly smaller planchet. Pleasing, soft brown with accents of azure on nice, quality surfaces. Some bluntness of strike is noted on both sides, but generally nicely struck up.

PCGS 35, NGC 7. The most recent example to sell in auction realized \$3,360 in the 2018 Central States auction. The current Collector's Universe value is listed at \$2,800. A very nice example for any set of these transitional issues.

1/2C 1856 J-177. PCGS PR64

R-5 (31-75 minted). Regular die trials struck on a copper-nickel planchet with a plain edge.

Highly reflective mirrors gleam from lovely tan-olive and gold surfaces that show off a neat wood-grain patina. Sharply struck and attractive, this pattern half cent would look great in any cabinet of Proof half cents.

PCGS 15, NGC 6. This coin sold in November 2013 for \$3,290 and the most recent example was NGC-graded, selling for \$3,360 in April 2018. Collector's Universe does list a value of \$4,000 in their current Price Guide. RARE any finer! A very neat pattern for the collector.

1C 1858 J-191 PCGS PR64

R-5 (31-75 minted). A transitional issue featuring the regular 1858 obverse and 1859 laurel wreath reverse. Struck in copper-nickel with a plain edge.

Ample mirrors beam from below a layer of rich, original toning that attests to the absolute originality of this old holdered pattern Flying Eagle cent pattern. Sharply struck on both sides, we do note only a few teeny flecks on the reverse, just for the sake full disclosure, but otherwise the eye appeal is very nice indeed!

PCGS 20, NGC 10. The most recent example to sell in auction realized \$4,560 in a November 2017 auction sale and the current PCGS Price Guide value is listed at \$4,500. Only eight coins have graded finer at PCGS, the finest of which is graded PR65. A great way to expand on the short Flying Eagle series, even if you don't specialize in patterns.

Another great looking Flying Eagle pattern cent. Sharply struck on both sides with a very rich toning and lovely, watery reflective mirrors. Another very cool coin that will fit nicely in any pattern cent or advanced Flying Eagle collection.

PCGS 25, NGC 9, CAC 6. This coin last sold in October 2014 for \$2,585. The most recent example brought \$2,300 in July 2016. PCGS currently lists a price of \$4,500 and there are only 12 coins graded finer, PR65 being the highest graded at PCGS. Wonderful, and very reasonably priced when compared to the regular issue 1858 Proof cents!

Light mirrors survive in the fields, although there are some minor signs of old mishandling. Rich coloration is seen on both sides, accenting the sharply struck devices.

PCGS 36, NGC 17. The most recent example to sell in auction was a PCGS coin that sold for \$1,800 in the 2018 Central States auction and the current CU value is \$1,700. Another coin that would make a great addition to any advanced Indian cent collection.

Reflective with watery mirrors. Glossy on the devices and we do note some minor lines, suggesting an old, gentle wiping. Sharply struck, this coin does retain a decent look for the grade. Housed in an OGH.

PCGS 20, NGC 8. The most recent PCGS coin sold for \$1,880 in June 2015 and the current PCGS Price Guide value is \$1,850. There are only a dozen coins graded finer. This is a very cool "entry level" pattern issue.

R-5 (31-75 minted). Longacre's "French Liberty Head" obverse, HALF DOLLAR in cereal wreath reverse. Struck in copper with a reeded edge.

Designated RB on the slab, both sides are mostly RED. Richly mirrored on both sides, there is a strong contrast between the sharply struck devices and the reflective fields surrounding them. While only an R-5, it is a challenging issue to find so fine!

PCGS 2, NGC 1. This coin has sold twice in auction previously, the most recent appearance was in October 2012 where it realized \$2,530 (earlier it had realized \$3,048 in November 2011). The current Collector's Universe value is listed at \$3,000 and there is only a PR66 RB finer at PCGS in the designation. What a great looking near-GEM that shows how under appreciated patterns can be!

Icy, chrome-like mirrors beam on both sides, unencumbered by any toning. Sharply struck up on obverse and reverse, this coin has a pleasing look.

PCGS 5, NGC 5. This is not the coin sold in Stack's Bowers April 2016 for \$2,233; nor is it the Queller coin that sold in January 2009 for \$3,220. Those are the only two NGC coins sold since 2003. Seems reasonable for a coin so infrequently offered.

Well struck, the present Pattern half dollar offers full definition with light reflection in the fields. Wiped long ago, resulting in some directional hairlines. The eye appeal however is decent for the modest grade.

PCGS 4, NGC 7. This is not the last PCGS coin to sell, which was back in 2003, realizing \$1,265. More recently an NGC coin sold in March 2010 for \$1,438. The current PCGS value is \$1,500. Another neat French Head half dollar.

Deeply reflective copper mirrors have toned nicely in a rich green/brown patina with some light blue accents. The devices are sharply struck and the eye appeal is quite nice.

PCGS 6, NGC 4. The last one to sell realized \$1,410 in March 2015, but it did not have the outstanding eye appeal of the

presently offered coin. Ex Frank O. Fredricks Collection, Heritage, January 2004, lot 8401, where it sold for \$1,955; earlier ex Superior's Piedmont Sale, January 1996, lot 1226. An eye appealing example, this near-GEM should see spirited bidding.

Delightful, brilliant silver luster gleams on both sides. Some weakness of strike is noted but the eye appeal is excellent. A very popular Transitional issue, which has been popularly collected alongside regular issue half dimes, as well as patterns. Flashy with hints of Prooflike luster. A great looking example of this historic issue.

PCGS 8, NGC 15. These consistently sell in the \$4,000 to \$4,600 going back to 2009 and the PCGS value is listed at \$6,000. With multiple areas of numismatics encased in this one coin, it should see strong bidding from collectors. Good luck!

R-6- (21-30 minted). A capped head of Liberty with three stars above the forehead, a ribbon inscribed LIBERTY flows down around her neck. Reverse shows a perched eagle. Both sides were designed by Longacre. Struck on a broad cooper planchet, the idea was to make a wider, but thinner planchet to avoid removing gold from the centers of the regular, thicker planchets.

Richly mirrored copper fields blaze with a strong reflection that has iridescent accents of teal-blue, coppery-gold, and lilac-purple. Sharply struck on both sides, this highly original and beautiful GEM offers a high-end, wonderful look.

PCGS 2, NGC 1, CAC 2. This coin has not sold in auction that we can see. The only PR65 BN to sell in auction with a CAC was an NGC coin that sold in November 2010 for \$8,936. The current PCGS value is listed at \$9,500. Only one coin is finer in BN that has never sold in auction. THE STEVEN COOK COLLECTION PART II

LOT 528

1C 1865 J-406. PCGS PR64

R-6- (21-30 minted). Regular dies struck in nickel with a plain edge.

Sharply struck on both sides with a rich reflection in the fields. The surfaces are a light pewter-silver with accents of light rose, tan, and gold. The planchet has a detached lamination on the lower reverse that will forever identify this piece.

PCGS 2, NGC 0. This is not the one that sold in March 2013 for \$2,938. The only other PR64 to sell was back in May 1990!

Clearly these are NOT common! Collector's Universe lists a value of \$3,500 and it is possible that if two dedicated collectors battle it out, it could hit that. Add to it that advanced Indian cent collectors looking to expand their set could also be thrown into the bidding war, who knows what it could bring!

LOT 529

10C 1865 J-421. PCGS PR64 RB CAC

R-7+ (4-6 minted). Struck from the regular Proof dies in copper with a reeded edge.

Tied for FINEST graded with one other, the coin now impounded in the Bob Simpson Collection. Brilliantly reflective RED mirrors beam with gentle violet accents. Nearly of full GEM quality only a few teeny ticks and lint marks are noted under a strong glass, none of which detract from the superb eye appeal.

PCGS 2, NGC 0, CAC 1. This is the coin that last sold in May 2011 for \$7,763. The only other one to sell in PR64 is the coin that sold in an August 2006 ANR auction. The current PCGS value is listed at \$7,700. An incredibly RARE pattern dime that is worthy of a world class pattern set.

Ex Lemus Collection.

R-7- (7-12 minted). Regular 1865 Proof Seated quarter obverse die, paired with Anthony Paquet's perched eagle first used on J-221. Struck in silver with a reeded edge.

Offering a rich lilac, rose, and pewter iridescent tone over mildly reflective mirrored fields with just a few scattered marks and lines. This coin came from the Queller/Lemus Collection, one of the most extensive offering of pattern coinage offered in this century. David Queller bought this coin from Paramount's session of Auction '87, lot 331.

PCGS 0, NGC 1. This coin sold for \$2,760 in the 2009 auction of the Queller Collection, before being purchased by our consignor in September 2013 for \$2,233. The current Collector's Universe value is listed at \$2,500. A rare and popular pattern with the Paquet designed reverse.

R-7- (7-12 minted). Regular obverse of 1865 paired with regular with Motto reverse. A popular transition pattern, struck in copper with a reeded edge.

A superb GEM with a lovely bronzed copper look of mint medals of the era. Sharply struck with ample Red color in the fields and in the recesses, surrounded by mellowing violet patina. The eye appeal is SUPERB.

PCGS 1, NGC 1. Originally sold in the January 2009 sale of the Queller-Lemus Collection, selling for \$18,400. Our collector bought it for \$12,350 in September 2014. The current Collector's Universe value is listed at \$23,500. NONE ARE FINER!

R-5 (31-75 minted). George Washington's bust facing right, UNITED STATES OF AMERICA around. 5 CENTS inside a wreath, IN GOD WE TRUST above. Struck in nickel with a plain edge.

Virtually ultra deep mirrors beam boldly from all over. The mirrors offer outstanding clarity and cleanliness. When you twirl the coin all you see is an intense flash. There are very trivial patches of gold splashed about. This coin is totally original and has never been messed with. The contrast is pretty bold. George Washington and all of the details are pinpoint sharp in strike and have creamy white thick frost. The eye appeal is a full WOW!

PCGS 1, NGC 0, CAC 1. We know of no auction or accurate price guides for this coin. It should be noted that a regular PR66 Cameo CAC would cost at least \$5,000 if you could even find one. This coin would be a wicked neat addition to Pattern or even Nickel Collection!

A very rare copper striking using the same die pairing as the previous lot. Reflective copper mirrors beam with glowing original red color that comes from under a very pretty golden brown patina. Both sides are sharply struck and offer a strong eye appeal.

PCGS 2, NGC 2. There has not been any PR64 RB J-490 sold in auction since January 2006. That coin sold for \$3,220 and the current Collector's Universe value is listed at \$4,200. Very RARE in all grades, and rarely available in the market place. A very important opportunity!

Magnificent GEM quality. Beautiful even, milk chocolate brown surfaces show glimpses of original mint red and accents of gold and azure that pop in the light. The mirrors are highly reflective and watery, imparting a great eye appeal!

PCGS 1, NGC 2, CAC 2. The other CAC-approved example is the Harry Bass/ANA Museum Display coin that was NGC graded, selling for \$5,875 in the 2014 ANA auction. The current PCGS Price Guide value is listed at \$6,250 and this coin has not appeared in any auction that we can find. R-5 (31-75 minted). James Longacre's Indian Princess head facing left. Reverse shows an ornately framed Union shield with a large Roman numeral V in the center, IN GOD WE TRUST above. Struck in aluminum with a plain edge.

First off, this is one of this cataloger's (GC) FAVORITE designs in the pattern series! For an example in aluminum, this coin has a wonderful, deep reflection that contrasts against the frosty and crisply struck devices. Longacre's design is elegant and simple, yet offers great detail. Vibrant silvery surfaces are devoid of any haze or corrosion that usually plague aluminum planchets, and we note only a few tiny ticks for accuracy, none that detract from the eye appeal.

PCGS 2, NGC 3, CAC 2. Only one PR64 CAM has ever sold in auction, an NGC-graded example that realized \$3,290 in November 2012. The current PCGS Price Guide value is listed at \$4,750. This coin has a great look and is worthy of a very strong bid.

Highly reflective mirrors beam from all over. A delicate pewter-grey, silver, icy chrome color delight the eye. Lacking any serious condition issues, this coin has a nice look for the assigned grade.

PCGS 2, NGC 1. The only example to sell was the Newman coin, likely now on the PCGS population, as this is the only 64 on the NGC census. That coin realized nearly \$5,000 in November 2014. A PCGS PR63 sold in June 2010 for \$7,475. The current Collector's Universe value is listed at \$8,500.

R-6+ (13-20 minted). Obverse design of the large cent of 1853-1857, dated 1868. Reverse: TEN CENTS in wreath UNITED STATES OF AMERICA around. Struck in copper on a large cent planchet.

Deep and highly reflective mirrors really beam from all over. You do NOT have to imagine the mirrors. The mirrors are also exceedingly clear and clean. Both sides enjoy a marvelous totally original coloration of chocolate brown/blue/pale purple. There are NO spots or discolorations. There actually is a slight cameo contrast visible. Miss Liberty and the details are so sharply struck they look like they are carved from a block of freshly made pricey chocolate. The eye appeal is phenomenal!

PCGS 2, NGC 0, CAC 2. There is only one coin graded higher. We see no records of this coin ever being sold via auction. ANY PR 65 BN Large Cent CAC would be worth a minimum of \$8-\$10,000.00. This coin is not only a different denomination, but is a fraction of the cost of a regular proof. The current Collectors Universe Value is only \$4,750.00-which to us seems ridiculously cheap. You certainly do not get opportunities to buy a really wicked neat GEM coin like this too often.

A very rare pattern indeed, with perhaps fewer than half a dozen surviving. EXCESSIVELY RARE with the CAMEO designation, with just this one and the PR65+ CAM sold as part of the Simpson Collection so graded. Well-struck, frosted design elements stand out against the highly reflective, chrome-like fields. A couple of mint made laminations can be seen in the fields on the obverse, but they do not really detract from the eye appeal.

THE STEVEN COOK COLLECTION PART II

LOT 561

10C 1870 J-836. PCGS PR65 CAM CAC

Ex Simpson Collection.

R-7+ (4-6 minted). Barber's Seated Liberty obverse paired with the regular Proof die. Struck in aluminum with a plain edge.

Deeply reflective, chrome-like mirrors beam like a freshly cut piece of glass. Sharply struck throughout, the frosted devices contrast beautifully against the surrounding mirrored fields. The eye appeal is the epitome of GEM quality!

PCGS 1, NGC 0, CAC 1. Earlier this coin was in the Queller/Lemus Collection, January 2009 for \$8,050 as a non-CAM NGC coin. Mr. Simpson purchased this coin from that sale. What a great pedigree for a pattern, especially one so RARE and so high end!

PCGS# 800021 | ESTIMATE: \$6,500+

LOT 562

10C 1870 J-837. PCGS PR66

R-5 (31-75 minted). Standard Silver design with Liberty wearing a cap with three stars. Struck in silver with a reeded edge.

A beautifully toned GEM with rich, watery mirrored fields that have a bold reflection. The obverse is framed with a band of rich reddish-russet toning and blue, violet, reddish-gold at the reverse. The eye appeal is very strong and worthy of the lofty grade.

PCGS 1, NGC 3. This coin has not appeared in auction. There was an NGC graded PR66 that sold in September 2016 for \$2,585. The current PCGS Price guide value is listed at \$4,500.

PCGS# 61081 | ESTIMATE: \$2,500+

LOT 563

10C 1870 J-840. PCGS PR65 RB

Ex Denali Collection.

R-7+ (4-6 minted). Standard Silver design with Liberty wearing a cap with three stars. Struck in copper with a plain edge.

Here is a very RARE Standard Silver dime pattern with lovely patina over reflective surfaces. The eye appeal is very nice, and is one of the FINEST known!

PCGS 2, NGC 0. Sold in March 2011 for \$3,825 and then again in April 2014 for \$3,290. The current PCGS Price Guide value is listed at \$4,000 and Simpson's coin was PCGS PR65 BN CAC that sold for \$3,408 in our January 2017 Regency Auction. For such a rare coin, it just seems cheap!

PCGS# 71084 | ESTIMATE: \$2,800+

THE STEVEN COOK COLLECTION PART II

LOT 564

10C 1870 J-842. PCGS PR64 CAC

R-7+ (4-6 minted). Standard Silver design with Liberty wearing a cap with three stars. Struck in aluminum with a plain edge.

Here is an incredibly RARE pattern, one of only four graded by PCGS in all grades. Rarely offered, the present high end PR64 has sharply defined features that stand out on the icy-steely silver-gray, beaming mirrors. Delicate pearly tone can be seen on both sides.

PCGS 1, NGC 0, CAC 1. This coin has appeared only twice since 1991! The current PCGS Price Guide value is listed at \$1,950 which just seems fundamentally cheap for such a rare coin!

PCGS# 61086 | ESTIMATE: \$1,800+

LOT 565

10C 1870 J-843. NGC PF64

R-6- (21-30 minted). Standard Silver design with Liberty wearing a starless tiara. Struck in silver with a reeded edge.

Watery reflection is seen under deep, original toning that evenly coats both sides. The eye appeal is nice.

PCGS 14, NGC 7. Clearly there is much duplication in the population figures. This coin sold over five years ago in April 2013 for \$1,293 and the current Collector's Universe value is listed at \$1,750. Another pattern that is great for the beginning collector!

PCGS# 61087 | ESTIMATE: \$1,100+

LOT 566

10C 1870 J-854. PCGS PR65 CAM CAC

R-7+ (4-6 minted). Standard Silver design with Liberty wearing a single star tiara. Struck in aluminum with a plain edge.

A fully struck up GEM with rich cameo contrast between the fields and devices. Very high end quality surfaces for the issue, with clear reflection and zero haze to impair the eye appeal.

PCGS 1, NGC 0, CAC 1. This coin sold most recently in April 2014 for \$3,525. The current PCGS Price Guide value is listed at \$4,000. A VERY RARE Standard Silver pattern dime is among the finest known.

PCGS# 861098 | ESTIMATE: \$3,000+

Ex. Denali Collection.

R-7+ (4-6minted). Standard Silver design with Liberty wearing a cap with three stars. Struck in silver with a reeded edge.

A VERY RARE Standard Silver Pattern, finer than the Simpson coin we sold in Regency Auction XXI. Flashy, watery mirrors bloom all over, contrasting wonderfully with the frosted devices. Exceptionally high end and pleasing to the eye.

PCGS 1, NGC 0, CAC 1. Our consignor bought this coin from the April 2014 Central States auction for \$4,994 and the PCGS Price Guide is listing a value of \$7,000. Worthy of the finest cabinet of rare patterns.

10C 1870 J-862. PCGS PR66 CAC

Ex. Denali Collection.

R-7+ (4-6 minted). Standard Silver design with Liberty wearing a starless tiara. Struck in silver with a plain edge.

Another fabulously RARE Standard Silver pattern dime and this one is FINEST graded in the non-CAM designation. Light lilac, teal, and gold iridescent toning dusts the watery reflective mirrors and sharply struck devices. The eye appeal is superb.

PCGS 1, NGC 2, CAC 1. This coin was first sold in August 2011 for \$5,175 and more recently it resold to our consignor for \$3,819. PCGS's Price Guide currently lists a value of \$4,800. Simpson's coin was a PCGS PR66+ CAM that sold for \$3,995 in our Regency Auction XXIII. This one as a great eye appeal and should sell for somewhere around that..

PCGS# 61106 | ESTIMATE: \$3,000+

LOT 569

25C 1870 J-883. NGC PR66

R-7- (7-12 minted). William Barber's Seated Liberty obverse paired with the regular issue proof reverse die. Struck in silver with a plain edge.

Beautiful, flashy, watery mirrors shine through a rich layer of multi-hued toning. There are a couple of ancient lines that we note on the obverse, mostly hidden under the toning and do not detract from the great overall eye appeal.

PCGS 0, NGC 2. The last two times this GEM sold in auction it brought \$4,994 most recently in June 2014. There is no CU price listed in PR66, but in 65 it is listed at \$5,750. A very rare pattern that is very infrequently seen, and this is ONE OF THE FINEST extant!

PCGS# 61127 | ESTIMATE: \$4,000+

LOT 570

25C 1870 J-895. PCGS PR65

R-7- (7-12 minted). Standard Silver design with Liberty wearing a tiara. Struck in silver with a plain edge.

A wonderful CAMEO GEM with a delicate gold tone on the obverse. A bold contrast between the watery mirrored fields and the frosted, razor sharp devices. The eye appeal is very nice.

PCGS 2, NGC 0. It has been a decade since the other one sold, realizing \$3,738 in April 2008. The current PCGS Price Guide

value is listed at \$4,200. There are only a couple graded finer, but most of those are impounded now in major collections.

PCGS# 61139 | ESTIMATE: \$3,500+

Ex. Denali Collection.

R-5 (31-75 minted). Standard Silver design with Liberty wearing a tiara with a single star. Struck in silver with a reeded edge.

Sharply struck from heavily clashed dies. Richly toned with olive-tan dominating with iridescent toning at the rims. The eye appeal is very nice overall, especially for a coin graded 63.

PCGS 11, NGC 5. The most recent example to sell in auction realized \$1,528 in December 2013. Going back to 2003, every example has sold in the \$1,495 to \$1,725 range. The current PCGS Price Guide value is listed at \$1,950. We expect this one to sell in that range. Another great "entry level" pattern.

Ex. Stone Wall Collection.

R-6+ (13-20 minted). Standard Silver design with Liberty wearing a tiara with a single star. Struck in silver with a plain edge.

Classic blue, rose, gold, and amber toning is really brought out by glowing, watery mirrors that beam in a light source. Sharply struck throughout the design elements on both sides, this GEM has clean mirrors and a bold visual allure.

PCGS 1, NGC 1. This is the only example to have sold since 1992, realizing \$2,620 in October 2012 and the current PCGS Price Guide value is listed at \$3,000. Keep in mind that the Simpson Collection did not have one. Good luck!

50C 1870 J-937. PCGS PR65 CAM CAC

R-7+ (4-6 minted). Barber's Seated Liberty design on the obverse matched with the regular issue proof reverse. Struck in aluminum with a reeded edge.

A beautiful GEM example of this VERY RARE pattern half dollar. Superior quality mirrors beam from all over, contrasting with the sharp, frosty devices, imparting a BOLD visual allure. The mirrors are deep and glittering, and the surfaces are devoid of any serious marks. The eye appeal is very high end.

PCGS 1, NGC 0, CAC 1. Most recently selling for \$8,225 in July 2013. There is a record from 2010 where it sold for \$12,650. A major RARITY, with maybe two others, including the Simpson coin, extant. A true prize for the advanced collector!

PCGS# 389202 | ESTIMATE: \$7,000+

LOT 574

50C 1870 J-943. PCGS PR64 CAM

Ex. Denali Collection.

R-8 (2-3 minted). Standard Silver design with Liberty wearing a cap with 2 stars. Struck in aluminum with a reeded edge.

A MAJOR Standard Silver rarity! Only a few pieces are known in all grades, we suspect that some of the coins on the population reports are duplicate submissions. This one is highly reflective, but with some minor iridescent haze on both sides, which is common on aluminum patterns. Both sides have some minor planchet flaws as made at the mint. There are no singularly distracting marks from the time the coin left the mint. Well struck and displaying a great contrast.

PCGS 1, NGC 0. This coin sold in April 2014 for \$4,406. VERY RARE, there are only two others graded, the finest known of this issue is the PR66 CAM CAC we sold as part of the Simpson Collection. In 64 CAM, the PCGS Price Guide value is \$4,500. Bound for a world class collection of patterns!

PCGS# 800032 | ESTIMATE: \$3,500+

LOT 575

R-7+ (4-6 minted). Standard Silver design with a single star on the tiara. Struck in aluminum with a reeded edge.

Another major rarity in the pattern series, with only a few known in all grades. This one is bested only by the PR66 CAM that we sold as part of the Simpson Collection. Deeply reflective, brilliant mirrors beam from all over creating a bold and beautiful CAMEO contrast on both sides. Sharply struck and offering a bold eye appeal, this near-GEM's mirrors are deep and clear.

PCGS 2, NGC 1, CAC 3. This coin is on the CAC roster twice as well as on the NGC population report. As an NGC coin in April 2015, this GEM brought \$4,700, and the Simpson coin realized \$8,519 in our January 2017 Regency Auction. What a great high-end coin for any advanced pattern collector.

R-7- (7-12 minted). Standard Silver design with Liberty wearing a cap with two stars. Struck in silver with a reeded edge.

Rare and highly collectible. This standard silver rarity has rich watery reflective mirrors. There are a few light lines from an old wiping, but the eye appeal is still decent.

PCGS 1, NGC 0. The current PCGS Price Guide lists a value of \$2,250, but this coin has never appeared in auction before.

Good luck!

R-7+ (4-6 minted). Standard Silver bust of Liberty with cap and 2 stars. Struck in silver with a reeded edge.

Another VERY RARE Standard Silver pattern from the Denali Collection. Richly mirrored fields dance in the light under a layer of beautiful, pastel iridescent toning. Lovely shades of blue, gold, and rose. Sharply struck and beautiful, this is the FINEST known of only a handful of survivors.

PCGS 1, NGC 0, NGC 1. This coin sold for \$11,750 back in August 2013. A PR66 CAM CAC more recently, in November 2016 sold for \$9,988. Collector's Universe suggests a value of \$11,500. This is a beautiful and well pedigreed GEM rarity bound for a world class pattern set.

R-7+ (4-6 minted). Standard Silver bust of Liberty with a starless tiara. Struck in aluminum with a plain edge.

Another very RARE Standard Silver pattern, and the final example in the Cook Collection. This one has a bold, nearly SUPERB quality eye appeal that was imparted by deep and clear mirrors that contrast with the highly frosted devices.

Every element of the design is expertly struck up and there is excellent contrast between mirrored fields and the devices. There are no post mintage flaws visible to the naked eye.

PCGS 1, NGC 0, CAC 1. Among the finest graded, the Simpson coin was only slightly finer, a PR66 DCAM. This rarity sold for \$7,050 in September 2014 and the current PCGS Price Guide value is listed at \$10,000. What an amazing opportunity for the advanced pattern collector!

\$1 1870 J-1022. PCGS PR66

Ex. Denali Collection.

R-7- (6-12 minted). Regular issue die trial in nickel with a reeded edge.

A very rare off-metal trial from previously unreported dies. Reflective watery mirrors beam on evenly toned nickel and gold toned surfaces with sharply struck devices. The surfaces are smooth, without any serious marks, lines, or discoloration. With strong eye appeal, this proudly ranks among the FINEST known examples of this rare Judd number.

PCGS 1, NGC 1. In its most recent auction appearance, this GEM realized \$12,925 in April 2015. Prior to that, it realized \$18,400 in August 2011. Always appreciated as a major rarity, the Queller-Lemus coin sold for \$20,700 in January 2009 in an NGC PR66 CAM holder. A great coin for any advanced pattern or Proof Seated Dollar collection.

Truly a rare example pattern with a great look. Crisply struck devices are seen on both sides. Dappled iridescent toning graces both sides. Decent eye appeal, this rarity is very infrequently seen on the market.

PCGS 1, NGC 2. This coin has not sold via auction. The most recent NGC coin to sell realized \$5,170 (a PR65 BN) in October 2015 and a PR65 BN sold in April 2014 for \$8,225. The current Collector's Universe value is listed at \$7,500. Good luck!

Listed as R-8 in Judd, it is most likely an R-7+ in reality. Regular Proof Dies struck in copper with a plain edge.

The FINEST numerically certified example by either PCGS or NGC. EXCESSIVELY RARE. Much original RED color blazes in the obverse fields with lots of violet-blue-teal iridescent hues on the reverse. The eye appeal is excellent.

PCGS 0, NGC 1. We submitted this coin for crossover to PCGS. After reviewing it again, we feel it is a SOLID 66+ RB (we make no guarantees). The Bob Simpson coin is the PCGS PR66 RB. Mr. Simpson paid \$23,000 for his coin as a PCGS PR65 RB in January 2008. This coin sold in a notoriously weak 2015 FUN auction for \$8,225. Since then the pattern market has perked up with new players having begun very serious collections. The current Collector's Universe price in 66 is \$18,000. We do expect very strong bidding for this SUPERB coin when it crosses the block.

Flashy copper mirrors with much original color beaming, and blending with iridescent violet toning. Sharply struck throughout, the obverse in particular is struck in full medallion relief, standing out in vivid 3-D effect. The eye appeal is delightful.

PCGS 2, NGC 0. The two coins have traded a few times over the last 15 years, selling consistently between \$3,000 and \$3,500, and the current PCGS price is \$3,500. As part of a large, diverse cabinet of patterns, we think it will sell toward the high end of that range.

LOT 583

T\$1 1873 J-1293. PCGS PR63

R-4 (76-200 minted). One of the many pattern trade dollars of the year. Barber's Liberty sits on a globe with a plow behind, a bale of hay and wheat. Reverse, standing eagle holding shield in his talon, arrows in other. Struck in silver with a reeded edge.

Reflective, watery fields are aglow under the iridescent gold, lilac, tan, and olive patina. Clearly this coin sat for a long time unmolested where it could acquire this lovely, original tone. There is only the slightest hint of weakness in the most central portions of the design, typical of the design.

PCGS 10, NGC 5. There has not been a PCGS PR63 example sold in auction since October 2005--nearly 13 years ago--realizing \$4,198. The current PCGS Price Guide value is \$5,000. The most recent NGC PR63 sold for \$6,600 in January 2018. The Trade dollar patterns make a great specialty in the extensive pattern series, perhaps this one will inspire you to focus on them.

Ex. Harry W. Bass, Jr. Collection.

R-6+ (13-20 minted). George Morgan's Liberty head on the obverse (similar to the dollar). Reverse: Large perched eagle. Struck in silver with a reeded edge. Totally original, old collection toning drapes wonderfully over superb, watery-reflective mirrors. Like the majority of this type we have seen, there is some minor weakness on the central most details. Pale dove, slate, blue, gunmetal, rose, and gold accents in the toning create a great eye appeal.

Ex. Edwin J. Mantooth Collection, Heritage, April 2015, lot 5543; Queller-Lemus Collection, Heritage, January 2009, lot 1911; Harry Bass Collection-Part 1, Bowers and Merena, May 1999, lot 1242; Brinton T. Schorer via private sale, May 3, 1973.

PCGS 2, NGC 1, CAC 1. In the May 1999 Bass Auction, this coin sold for \$13,800 and in its most recent auction appearance, it realized \$10,575. The current PCGS Price Guide value is \$15,000. Any Morgan pattern, regardless of grade, is a real numismatic prize and this series makes a great specialty, chock full of beautiful designs and major rarities.

\$1 1879 J-1616. PCGS PR66 RB

R-7- (7-12 minted). George Morgan's famed Morgan dollar obverse. William Barber's perched eagle reverse holds olive branch and arrows. E PLURIBUS UNUM above.

A beautiful GEM! What a great Morgan dollar pattern, one that is rarely ever offered in such a lofty grade. Mostly brilliant mint RED mirrors beam with ultra deep reflection on both sides. Some violet toning graces areas of both obverse and reverse. Ms. Liberty and all the details are fully frosted and do stand out with a vivid contrast. The eye appeal is exceptional, it is hard to quit staring!

PCGS 4, NGC 1. The last PCGS PR66 RB sold in May 1999! Even back then these were selling in the \$9,000 to \$11,000 range! The current PCGS Price Guide value is listed at \$16,500. More recently a PCGS PR65 RB CAC sold for \$9,988, and a PCGS PR66 RD sold for \$29,900 over 13 years ago! R-4 (76-200 minted). William Barber's coronet head of Liberty. Reverse: Goloid composition in beaded frame within agricultural wreath. GLORIA EST DEO in cartouche above. Struck in goloid with a reeded edge.

Goloid was a silver/gold alloy that was developed in an attempt to create a metric based international coinage. Nicely struck devices sit on moderately reflective surfaces. Some light lines account for the grade, but the eye appeal is quite nice for the grade.

PCGS 33, NGC 15. The most recent coin to sell was an NGC graded coin, realizing \$2,820 in June 2017. PCGS lists a value of \$3,000. A great pattern dollar for the beginning collector!

R-5 (31-75 minted). William Barber's coronet head of Liberty. Reverse: Goloid composition in beaded frame within agricultural wreath. GLORIA EST DEO in cartouche above. Struck in silver with a reeded edge.

A lovely GEM example of the Goloid Metric Dollar, this one struck on a regular silver dollar planchet. Part of the same proposal that created the famed \$4 Stella, the concept behind these patterns was to create an alloy that would freely circulate in international commerce. Richly toned with lovely palette of pastel iridescent hues, the underlying mirrors flash in a light around boldly defined details.

PCGS 4, NGC 2, CAC 3. The last one to sell was in March 2017, a coin that sold for \$7,638. Prior to that, the last two PCGS (non-CAC coins sold for \$7,474 (2011 and 2005). This CAC-approved GEM will certainly entice strong bidding from the pattern dollar specialists!

R-4 (76-200 minted). Metric Pattern dollar. William Barber's Liberty head, reverse with Goloid Metric composition in circle of stars. Struck in Goloid, with a reeded edge.

Flashy, watery mirrors have nice reflection for the modest grade. Pleasing original, mottled toning at the periphery adds to the visual allure. Sharply struck we note some minor lines, but nothing distracting. These Metric Pattern dollars were the silver portion of the international coinage proposal that brought us the Stella and Quintup Stella rarities.

PCGS 29, NGC 12. The current PCGS Price Guide value is listed at \$2,500 and the most recent sold in June 2017 for \$2,174, but the presently offered example is much more appealing! This is an historically interesting pattern issue that is a very good entry level pattern. Good luck!

R-6+ (13-20 minted). Charles Barber's Liberty Head obverse, UNITED STATES OF AMERICA around; Large Roman numeral V in center with open wheat and cotton wreath. Struck in nickel with a plain edge.

A delicate, iridescent toning is seen dusted over the highly reflective, watery mirrored fields. Even with a strong glass, there are no serious marks or lines, but we do note a few flecks at the lower reverse. Housed in an OGH, this GEM is quite pleasing overall. The 1881 patterns were focused on the smaller denominations, and Barber's classic Liberty head nickel design began to take form here.

PCGS 1, NGC 3. In a weaker market, March 2015, this coin realized \$4,113; prior to that, this coin realized \$5,750 in March 2005. The current PCGS Price Guide value is listed at \$5,000. One of the FINEST known of this ultra rare Liberty nickel pattern. Sharply struck on both sides the devices seem to float on wonderful rich reflective fields. Only a few hints of contact can be seen, but the surfaces are generally higher quality than the grade might imply.

PCGS 1, NGC 3, CAC 2. This coin has never been in auction that we can find in our database. Indeed, the last example to sell was an NGC coin sold in November 2004 ANR for \$10,695. PCGS has graded a single coin finer, which also has never sold via auction. The current PCGS Price Guide is \$12,000 and if you are an advanced pattern nickel collector, or Liberty Head nickel collector, this coin will fit right at home in your set! THE STEVEN COOK COLLECTION PART II

LOT 594

5C 1896 J-1771. PCGS PR64

R-6- (21-30 minted). Barber's Union Shield design with crossed poles with eagle and cap. Reverse 5 CENTS in closed olive branch. Struck in nickel with a plain edge.

Flashy mirrors have a light dusting of color on the surfaces. Housed in an old green tag holder with a nice eye appeal.

PCGS 5, NGC 0. The most recent PCGS-graded example sold back in 2002--may as well be 1992! More recently a PCGS PR63 sold for \$2,585 (June 2017) and a PR65 sold in November 2008 for \$6,038. The current PCGS Price Guide value is listed at \$3,750. A very rare pattern that rarely comes on the market.

PCGS# 62225 | ESTIMATE: \$2,800+

LOT 595

5C 1896 J-1772. NGC PF64

R-6+ (13-20 minted). Barber's Union Shield design with crossed poles with eagle and cap. Reverse 5 CENTS in closed olive branch. Struck in aluminum with a plain edge.

TIED FOR FINEST! Flashy, vibrant mirrors beam from under a light dusting of iridescent white tone, typical of an aluminum pattern striking. Sharply struck and quite attractive.

PCGS 3, NGC 5. The last NGC example sold \$3,525 in April 2016. The current Collector's Universe value is listed at \$3,150.

None are finer and this one should bring a strong price among nickel pattern specialists. Good luck!

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 596**25C 1863 J-337. PCGS PR65 CAC**

R-7+ (4-6 minted). A transitional pattern struck from regular issue Proof dies from 1863 and with Motto (post 1866). Struck in aluminum with a reeded edge.

ULTRA RARE! This impressive beauty is one of only four graded by PCGS. Sharply struck on both sides with a stunning mirrored, watery reflection that is amazing for a coin in this metal. A few ancient planchet flakes (as made) are mostly hidden by a delicate dusting of iridescent toning, but there is no haze, pitting, or corrosion which is often seen on aluminum patterns. A pattern that was sold in sets of off metal impressions to VIPs.

PCGS 2, NGC 0, CAC 1. The current PCGS Price Guide lists a value of \$10,000. No other examples have ever sold in auction, and likely the **ONLY** one available on the market for a long time. Civil War date patterns are a great specialty and we can see very strong bidding for this GEM when it crosses the block.

PCGS# 60499 | ESTIMATE: \$10,000+

**LOT 597****H10C 1868 J-638. PCGS PR65 CAC**

R-6- (31-75 minted). Regular proof die trials struck in nickel with a reeded edge.

Totally original, reflective nickel mirrors glitter in the light! They are clear, smooth, and offer a wonderful icy look. Both obverse and reverse are sharply struck up. Struck by mint employees for private sale to contemporary collectors and VIPs, these are indeed quite rare, especially in GEM.

PCGS 8, NGC 1, CAC 3. The last one sold in our Regency Auction 26 in the Steven Cook Collection, Part 1 for \$2,468 and the current PCGS Price is listed at \$3,000. Housed in an old green tag holder. A very appealing coin worthy of any pattern cabinet.

PCGS# 60856 | ESTIMATE: \$2,200+

LOT 598

10C 1868 J-647. PCGS PR67 CAC

R-6- (21-30 minted). Obverse styled after the large cent of 1853-57. Reverse laurel wreath with TEN CENTS in center. Struck in nickel with a plain edge.

SUPERB in EVERY WAY! Soft gold overtones are seen over brilliantly reflective nickel surfaces. Both sides are RAZOR sharp in strike. As expected for the extremely high grade of this GEM, there are no marks, lines, flecks, or spots worthy of mention and the eye appeal is amazing.

PCGS 3, NGC 1, CAC 2. Regardless of what they have brought in auction previously, this REMARKABLE GEM should be worth more. The current CU value is listed at \$11,950 and with NONE FINER, it should appeal to any large cent or dime pattern collector. It is a very unique pattern!

PCGS# 60865 | ESTIMATE: \$11,500+

LOT 599

25C 1870 J-916. PCGS PR67 CAM CAC

EX SIMPSON COLLECTION.

R-7+ (4-6 minted). Liberty wears a tiara with no stars. Struck in aluminum with a reeded edge.

What an amazing SUPERB GEM! Clearly the FINEST extant example of this VERY RARE Judd number!

Deep and watery like mirrors beam from all over. The mirrors have no oxidation. There is a small area of roughness in the planchet in the obverse right field (mint made). Miss Liberty and the details are sharply struck and have thick frost. The eye appeal is excellent!

PCGS 1, NGC 0, CAC 1. This is the FINEST J-916 known. In fact, overall in ANY Aluminum Pattern design there are very few PR67's. There is a \$10,000 Collector's Universe Value, but of course, NONE have ever sold in auction. Mr. Simpson paid \$15,000 for this coin in the 2008 mega Pattern deal. Opportunity knocks loud here!

PCGS# 800009 | ESTIMATE: \$8,500+

LOT 600**25C 1871 J-1099. PCGS PR66
CAC**

Ex Samuel Bergard Collection.

R-7+ (4-6 minted). Longacre's Indian Princess obverse paired with a regular issue Proof die. Struck in silver with a reeded edge.

Among the finest of only five pieces known. This piece offers a boldly reflective and impressive look. The mirrors are watery and flashy, peering out from the rich shades of rose gold, blue, and olive patina. The eye appeal is excellent and totally original.

PCGS 1, NGC 0, CAC 1. This is a highly desirable obverse type and the present GEM is one of the finest. Last selling over five years ago, you can't ignore that record. PCGS lists a \$13,000 Price Guide value. Seems reasonable to us for a coin of this rarity!

PCGS# 61358 | ESTIMATE: \$11,000+

**LOT 601****50C 1871 J-1114. PCGS
PR63**

R-7+ (4-6 minted). James Longacre's Indian Princess design with stars around, paired with a regular issue proof reverse. Struck in silver with a reeded edge.

Sharply struck and Liberty is in full high relief. The surrounding mirrored fields are watery and smooth with a very pleasing, original patina. Shades of slate, dove, blue, and pearly gold toning blend together. Clearly this coin sat

for a long time in an old collection to obtain this great look. What a great design that would have been such an improvement over the Gobrecht Seated Liberty design.

PCGS 6, NGC 1. The most recent sold for \$7,800 and that was the first example to sell in nearly 12 years! There is likely some duplication in the Population data. While one coin is graded finer at PCGS, it has never sold in auction. The current PCGS value is listed at \$20,000. Good luck!

PCGS# 800009 | ESTIMATE: \$7,500+

LOT 602

\$10 1875 J-1444. PCGS PR63 RB

R-7- (7-12 minted). Barber's popular Sailor Head of Liberty obverse. Reverse perched eagle, similar to the 20C piece and trade dollar. Struck in copper with a reeded edge.

A very attractive and VERY RARE pattern for a proposed design change for the \$10. Bold underlying mirrors show off a rich bronze patina while the surfaces are toned with a violet-cobalt blend that is dappled on the generally smooth surfaces. The design elements are very crisply struck and show full definition on both sides. The visual allure is original and very pleasing. This is a very RARE pattern and very rarely offered in any grade!

PCGS 1, NGC 2. The only example in any grade sold in the last five years was an NGC PR63 RB sold in April 2018 for \$13,200. Collector's Universe does not list a value in this grade, but the Judd book, now 10 years old, suggests a \$12,500 value in PR63. A real prize for the advanced pattern collector--any pattern of a gold coin is a MAJOR rarity!

PCGS# 71752 | ESTIMATE: \$13,000+

LOT 603

50C 1877 J-1541. PCGS PR65 BN CAC

R-7- (7-12 minted). Both sides were designed by Anthony Paquet. The obverse shows Liberty facing left with her hair in a bun, pushed back with headband with 1 star and LIBERTY. Date below, stars around.

Reverse: Heraldic eagle. Struck in copper with a reeded edge in medal, not coin alignment.

A look at the Judd book shows that 1877 saw a storm of proposals to redesign the long running Seated Liberty design. William Barber and George Morgan churned out 21 different designs for the half dollar, including many famous designs that are among the most avidly sought by collectors today. Following those 21 is the present design, perhaps done by contract outside the mint, by Anthony Paquet.

The present GEM is one of perhaps three graded in all categories by PCGS. Sharply struck in the even brown copper planchet. What makes this coin unique looking is a satiny, almost matte-like finish to the fields, not the typical mirrored Proof surfaces. The bronzed finish is like medals produced by the mint at the time. What a cool coin!

PCGS 1, NGC 0, CAC 1. This coin has sold in auction three times over the last 17 years, realizing \$29,900 in the 2008 FUN auction, prior to its most recent appearance in the 2016 ANA auction. Today, there is a new class of pattern collectors who have NOT seen this major rarity, and it should bring a price more than its 2008 realization.

PCGS# 61883 | ESTIMATE: \$28,000+

LOT 604

10C 1879 J-1587. PCGS PR66 RB CAC

What a stunning Morgan Pattern struck in copper. This is a R-6 (13-31 minted).

Sure, we call a lot of coins incredible-but that is because they really are. This coin easily makes that lofty designation.

Stunning deep mirrors beam boldly from all over. The mirrors are crisp and clear and are super clean. When you twirl this coin all you see is a fireball of GEM Red flaming. Both sides are a mix of original GEM Mint red/gold/pale violet colors. All of the details are sharply struck and boldly stand out. The eye appeal is jaw dropping!

PCGS 2, NGC 0, CAC 1. There are no auction records or even a Collectors Universe Value for this coin. Our estimate is based on what we have seen similar coins sell for. We can't stress enough how cheap this coin is relative to so many things available today (especially Modern coins)! This will make a fantastic addition to ANY GEM Pattern set. We expect strong bidding here-be prepared.
